BE A PART OF YOUTH MOVEMENT FOR VIKSIT BHARAT

Viksit Bharat@2047

Honourable Prime Minister's Address at the launch of Viksit Bharat@2047: Voice of Youth Platform

Date: 11 December, 2023 (10.30 A.M)

My colleague in the Union Cabinet, Dharmendra Pradhan ji, the Governors who have joined us from across the country, eminent personalities from the world of education, ladies and gentlemen!

Today is a very important day regarding the resolutions of a developed India. I would like to specially congratulate all the Governors that they have arranged this workshop related to building a developed India. You have brought on one stage those friends who have the responsibility of giving direction to the youth power of the country. The role of educational institutions is to develop the person, and only through the development of the person, the nation is built. And in the period in which India today is, the campaign of personality building has become of utmost importance. I wish you all the best for the success of the Voice of Youth Workshop.

Friends,

History gives every country a period when it advances its development journey manifold. In a way, this is the golden age (Amritkaal) of that country. This is the golden age (Amritkaal) for India. This is the period in India's history when the country is going to take a quantum leap. There are examples of many such countries around us, which have developed themselves by taking a similar quantum leap in a given time. That is why I say; this is the right time for India as well. We have to take advantage of every moment of this golden age; we should not waste even a single moment.

Friends,

For inspiration, we all have our long struggle for freedom before us. When we entered the field with one goal, with one zeal and passion, considering freedom as the ultimate goal, we were able to achieve success. During this period, Satyagraha, the path of revolution, awareness about Swadeshi, consciousness of social and educational reforms, all these streams together became the strength of the freedom movement. During this period, many such institutions like Kashi Hindu University, Lucknow University, Visva Bharati, Gujarat Vidyapith, Nagpur University, Annamalai University, Andhra University, and University of Kerala strengthened the consciousness of the country. This was the period when a new consciousness about freedom was engrained within the youth of every section. An entire young generation came forward dedicated

to freedom. A thought was formed in the country that whatever has to be done, has to be done for the sake of freedom and has to be done now. Someone used to spin the charkha and that too for freedom. Someone used to boycott foreign goods, that too for the sake of freedom. Someone used to recite poetry, that also for freedom. Someone used to write in a book or newspaper, that too for freedom. Someone used to distribute newspaper pamphlets and that also for freedom. Similarly, today every person, every institution, every organization has to move forward with the pledge that whatever I do should be for a developed India. The aim of your goals, your deliverance should be only one – developed India. As a teacher, think about what you will do to help the country in achieving the goal of a developed India? As a university, you should think about what to do so that India develops rapidly? What should happen in the region where you are, how should India move forward rapidly on its path of becoming developed?

Friends,

Whichever education institutes you represent, you have to channelize the youth energy of the country for this one goal. Every youth who comes to your institutions comes with some characteristics or the other. His ideas, no matter how diverse they are, have to be linked to the stream of building a developed India. I would like all of you to think beyond your limits to contribute to the vision of Viksit Bharat@2047. So that more and more youth can join this campaign in every college and university of the country, for this also you should run special campaigns, take leadership, and express things in a simple language. Today the Viksit Bharat@2047 section has been launched inside MyGov. It has a section of Ideas for the vision of a developed India. And because the idea starts with 'I', it needs such ideas which describe what I can do myself. And just as 'I' is first in an idea, 'I' is also in India. That means, if we want success, want to achieve our goals, want to get proper results, and then it starts from our own 'I'. Suggestions can be given on 5 different themes on this online ideas portal on MyGov. A prize has also been arranged for the best 10 suggestions.

Friends,

When I talk about suggestions, the sky is wide open in front of you. We have to prepare such an immortal generation in the country, which will become the leader of the country in the coming years, which will give leadership and direction to the country. We have to prepare such a young sapling of the country, who will keep the national interest supreme, who will keep his duties supreme. We do not have to be limited to just education and skills. As a citizen, it is necessary to increase efforts in this direction to ensure that the citizens of the country remain alert 24 hours a day. We have to bring that consciousness into society, whether cameras are installed or not, people should not jump the red light of traffic. People should have such a high sense of duty that they reach office on time and go ahead to work to fulfill their responsibilities. Whatever product is made here, its quality should be so good that seeing it as Made in India increases the pride of the buyer. When every citizen of the country, whatever role he plays, starts performing his duties, the country will also move forward. Now it is a topic related to the use of natural resources. When seriousness will increase regarding water conservation, when seriousness will increase regarding saving electricity, when the use of chemicals will reduce to save mother earth, when there will be seriousness towards maximum use of public transport, then the society, the country, everywhere will have a huge positive impact in the area. I can give you many such examples.

You will also agree that these are small things but their impact is very big. Your suggestions will also be important in rejuvenating the public movement for cleanliness. Your suggestions will be important for how our youth can combat the side effects of modern lifestyle. Besides their virtual worlds, it's essential for the youth to explore the world around them. As an educator, it's your responsibility to instill many such ideas in both the present and future generations. You must also embody a role model for your students. When citizens prioritize the country's welfare, it lays the

foundation for a robust society. As you know, societal perspectives often reflect in governance and administration. If I talk about the field of education, there are many subjects related to it. While educational institutions grant certificates and degrees after several years of study, shouldn't we ensure that each student acquires practical skills? Only such discussions and suggestions related to them will clear the path towards a developed India. Therefore, you should proceed as a comprehensive process of brainstorming on these topics in every campus, every institute and at the state level.

Friends,

This is the golden age (Amrit kaal) of building a developed India akin to the days preceding examinations. students exhibit great confidence in their exam preparation, yet they tirelessly practice until the last moment. Every student dedicates their time and efforts toward a singular goal. When exam dates are announced, it feels as though the entire family prepares, not just the students. As citizens of this country, our "exam date" has also been declared. We have 25 years of Amritkaal ahead to work tirelessly, striving for the goal of a developed India. Establishing this environment as a collective family responsibility is incumbent upon us all. students exhibit great confidence in their exam preparation, yet they tirelessly practice until the last moment. Every student dedicates their time and efforts toward a singular goal. When exam dates are announced, it feels as though the entire family prepares, not just the students. As citizens of this country, our "exam date" has also been declared. We have 25 years of Amritkaal ahead to work tirelessly, striving for the goal of a developed India. Establishing this environment as a collective family responsibility is incumbent upon us all.

Friends,

Today the world's population is rapidly aging and India is empowered by youth power. Experts predict India will lead in terms of a working-age population for the next 25-30 years. That's why the whole world looks up to the youth of India. Youth power is the agent of change and the beneficiaries of change as well. These 25 years are going to decide the career of the young friends who are in colleges and universities today. These youths are going to create new families and create a new society. Therefore, it is our youth who have the biggest right to decide how a developed India should be. With this spirit, the government wants to connect every youth of the country with the action plan of a developed India. Government wants to mould the voice of the country's youth into the policy-strategy to build a developed India. Given your strong connections with the youth, your contribution and that of your peers are pivotal in this endeavour.

Friends,

The road of progress that we want to take will not be decided by the government alone, it will be decided by the country. Every citizen of the country will have input and active participation in it. Everyone's effort, i.e. public participation, is a mantra by which even the biggest resolutions can be accomplished. Be it Swachh Bharat Abhiyan, Digital India Abhiyan, fight against Corona or being vocal for local, we all have seen the power of collective efforts. A developed India has to be built only through collective efforts. All of you scholars are also the people who shape the vision of the country's development and channelize the youth power. Thus the expectations from you are much higher. This is a great campaign to write the future of our country. Your each suggestion will enhance the grandeur of the building of developed India. Once again, I wish you all the best for today's workshop. I firmly believe that starting today, together, by 2047, we can build a developed India. The journey begins now; leadership rests in the hands of academicians, students, and educational institutions during this era of nation-building. I extend my heartfelt best wishes to all.

Government of India

I proudly take the

Hamara Sankalp Viksit Bharat Pledge

We Pledge to:

Make India developed and self-reliant
nation by 2047

Remove any trace of colonial mindset

Celebrate our heritage

Strengthen unity and respect
those who protect the country

Perform the duties of a citizen

- Students to follow the steps while submitting their Feedback on the portal :

Step – 1: Visit the MyGov Portal (mygov.in) and proceed to the Viksit Bharat Consultation section.

Step – 2: Answer the following questions sequentially on the Portal;

- ❖ How should a Viksit Bharat look like in 2047 in different aspects?
- ❖ What do we need to do to reach this goal?
- ❖ What can you do to make ViksitBharat@2047 possible?

Step – 3: Provide the idea for the Viksit Bharat @ 2047 and mention about your role/ contribution towards making India as a developed nation.

Step – 4: Submit the form along with your email ID and download the Certificate from your email.

Step – 5: Share your experience and your thoughts, pictures with certificates on Social Media with #Ideas4ViksitBharat

- Students to upload the Selfie with the specific background/ ViksitBharat @ 2047 banner showing participation in the initiative on their Facebook or Instagram account tagging #Ideas4ViksitBharat
- Making it as DP on social media platforms may be encouraged.

Prizes for Best Ideas

In each of the 5 thematic areas, 3 prizes will be awarded to the best ideas:

- I. **First Prize: Rs. 5 lakhs**
- II. **Second Prize: Rs. 3 lakhs**
- III. **Third Prize: Rs. 2 lakhs**

To achieve the Vision of Viksit Bharat, I commit to work towards one or more of the following:

(Choose one or more)

1. Culture and Heritage

- I will respect all historical monuments and sites which are part of my country's heritage. I will not scribble, deface or encroach upon any monuments or sites.
- I will spend time and understand our rich cultural traditions and practices related to food, clothing, language, music, dance, arts, crafts, etc.
- If I go on a holiday with family, I will go to other parts of Bharat.
- I will be a responsible traveler, respect the environment, and support the local economy during my journeys across Bharat.

2. Education and Skilling

- I commit to promote and support inclusive education and ensure that students of all abilities and backgrounds are welcomed and supported in the learning institutions.
- I will volunteer my time and skills to educational initiatives, mentorship programmes, and community learning projects and contribute to the betterment of schools.
- I commit to continuous learning and development throughout my life. I will lead by example by upskilling myself and exploring new skills to remain relevant in the changing world.
- I will educate myself on digital initiatives and share that knowledge with my community, helping bridge the digital divide for a more connected and informed society.

3. Health and Well-being

- I will promote and practise healthy eating, incorporating millets and locally grown produce in my diet.
- I will create accessible and safe spaces for discussing mental health and break the stigma around mental health.
- I will devote time for physical activity and sports every day. I will encourage others also to become healthy and fit.
- I will learn, participate and promote traditional and regional games.
- I will work towards leading a stress-free lifestyle by incorporating social connectedness, exercise, nutrition, sleep and mindfulness in my daily schedule.
- I will abstain from drugs as I understand the risks they pose of harming physical health, emotional well-being, and social relationships.
- I will participate and support all deaddiction drives.

4. Environmental Commitment

- I will be conscious to environmental concerns and use low/no carbon energy systems.

Windows Taskbar: 3:40 PM 12/14/2023

Inbox - bannu219@gmail.com X (1) WhatsApp X MyGov.in | MyGov: A Platform X Viksit Bharat@2047 - Final - In X ChatGPT

← → ↻ 🔒 https://innovateindia.mygov.in/viksitbharat2047/final/ 80% ☆ 📄 ⌵ ☰

- I will use pooled vehicles and public transport for travel wherever possible.
- I commit to conserve energy and switch off lights, fans, and all other electrical appliances when not in use.
- I will try to use the stairs instead of elevator, wherever possible.
- I will repair and reuse products wherever possible rather than use and throw them.
- I will refrain from littering and spitting in public spaces.
- I will use water responsibly and judiciously for my everyday needs.
- I will consume food responsibly and ensure that there is no food wastage.
- I will use a jute or a cotton bag every time I go shopping and avoid use of plastic.
- I will participate in tree plantation and afforestation initiatives.

5. Social Welfare and Inclusive Society

- I will respect the elderly and spend quality time with them.
- I will volunteer with local community organisations to improve my neighbourhood.
- I will promote gender equality. I will lead by example by respecting them, by opposing derogatory practices like dowry, female infanticide, eve teasing, etc.
- I will be sensitive to the needs of Divyangians and work towards their welfare.
- I will uphold the values of diversity and inclusivity and will work towards eliminating discrimination of any type.
- I will be a responsible consumer and be 'vocal for local' products and artisans.
- I will offer my seat to those in need while using public transport such as metro/local train/bus.
- I will be kind to birds and animals and not harm them.

6. Democratic Responsibility

- I will keep myself informed about current events and participate in public discourse.
- I will respect the law and uphold the Constitution of India.

7. Citizenship Values

- I will not use government subsidies that I don't need, nor will I expect any freebies meant for the poor and deserving.
- I will insist on a bill whenever I purchase any item.
- I will use social media responsibly and contribute productively to online discussions.
- I will celebrate marriages in my family within Bharat rather than at a foreign destination.
- I will contribute to a corruption-free Bharat by committing to be ethical in my personal and professional life.
- I will respect traffic rules and showcase responsible driving habits.
