Recommendations of the NEP-2020 Committee

a) Enhancing Research Culture

- Organize research workshops and seminars to cultivate research skills and promote collaboration among faculty and students.
- Formulate research groups within the department based on their areas of specializations to encourage collaborative research culture.
- Encourage interdisciplinary collaboration by promoting collaboration between different departments and research groups within the institution to foster a culture of innovation and knowledge sharing.
- Invest in state-of-the-art research facilities and equipment to enable cutting-edge research and innovation within the institution.
- Create specialized research centres and institutes within the institution to focus on specific areas of engineering research, providing resources and support for researchers with multi-disciplinary approach.
- Encourage open communication and collaboration between researchers, students, and industry partners to facilitate the exchange of ideas and knowledge.
- Implement mentorship programs for junior researchers and students to learn from experienced faculty members, as well as provide training in research methods and techniques.
- Encourage student participation in research through undergraduate research projects, internships, and dedicated research assistantships.
- Keep all research- related laboratories open beyond college hours to facilitate the research aspirants to work after the regular class hours.
- Provide seed funding for student-led research projects.
- Offer incentives for faculty research publications in peer-reviewed journals through recognition and promotion.
- Establish awards and recognition programs to acknowledge outstanding research contributions by faculty and students and incentivize a culture of excellence in research.
- Encourage presenting research papers in international conferences of repute.

b) Student Development Activities:

- Focus on foundational literacy and numeracy in addition to the programs conducted during the induction program. Collaborate with premier institutions to develop programs for strengthening FLN skills (Understanding complex concepts, problem-solving and critical thinking, communication, and written expression) aligned with academic regulations.
- Encourage cross-departmental courses and projects as permitted by curriculum, promoting holistic learning.
- Explore options for introducing minor specializations or interdisciplinary electives to integrate knowledge across disciplines.
- Encourage the pursuit of online certification courses by students (A student is permitted to do courses of 32 credits through online platforms without attending the regular classes as per academic

V. Nageswara Rao

regulations). Provide guidance on integrating online certifications with their academic program, align with curriculum on credit transferability.

- Implement Virtual Labs to provide remote access to labs in various disciplines of engineering and help students learn basic and advanced concepts through remote experimentation.
- Encourage blended mode of teaching learning process (preferably 25% of course work for the theory courses in every semester shall be conducted in the blended mode of learning as per the regulations).
- Encourage students to choose an option of selecting skill courses offered by industries/professional bodies or any other accredited bodies.
- Encourage peer tutoring and mentorship programs where advanced students can guide struggling students.
- Assign a faculty advisor/mentor after admission to a group of students from same department to provide guidance in courses registration / career growth / placements / opportunities for higher studies / GATE /other competitive exams etc.
- As part of the alumni adoption program, each group of students will be assigned a dedicated alumnus to provide guidance and support in overcoming academic challenges. The alumni mentor will offer various support programs, such as peer tutoring and mentoring, to help students navigate their academic journey successfully. This initiative aims to foster a strong support system within the student community and enhance the overall learning experience.

c) Conclusion:

- The committee suggests incorporating 8 to 10 free periods per week into students' class schedules, with the final period ending at 3:50 p.m., to effectively execute the proposed recommendations.
- It is recommended to extend the operating hours of research-related labs, project labs, and incubation centres beyond regular college hours. This initiative will provide faculty and students with increased access to these facilities, allowing for more efficient utilization and fostering a technically advanced environment within the institute.
- Establish monitoring mechanisms to track progress in the adoption these strategies and allocate resources to support the implementation of these recommendations.
- These strategies align with the NEP 2020 vision, cater to diverse student needs, and promote a culture of lifelong learning and research.
