Number of value-added courses for imparting transferable and life skills offered

Academic year 2021 - 2022.

S. No	Name of Value-added Courses	Number of students enrolled	Number of Students completing the course
1	Two-week value-added course on Sketch up	126	124
2	Two-week value-added course on Applications on GIS&GPS in civil engineering	165	155
3	Two-week value-added course on Analysis of structures using SAP	159	156
4	Value added course on PV Systems Design	106	104
5	Value added course on Python Programming	161	159
6	A value-added course on Introduction to software tools and their applications in Electrical Engineering	114	110
7	Value added course on ARC- Advanced Certification on Emerging Technology	8	8
8	Value added course on APSSDC - DASSAULT-3D Experience centre training program on CATIA, DELMIA and SIMULIA	358	358
9	Value added course on 3D-Printing, Internet of Things and Robotics	95	92
10	Value added course on Smart System Design using IoT	256	254
11	Value added course on Digital System Design using Verilog	262	260
12	Value added course on Python Programming	272	270
13	Value added course on Oracle Data Analytics	200	195
14	Value added course on Mobile Application Development	200	196
15	Value added course on Touch and Augmented Reality	200	198
16	Value added course on Aws Cloud Foundation-Edu Skills	82	78

S. No	Name of Value-added Courses	Number of students enrolled	Number of Students completing the course
17	Value added course on Blue Prism Foundation	82	77
18	Value added course on Big IoT Platform	125	118
19	Value added course on Power BI	70	58
20	Value added course on Android Application Development	70	60
21	Value added course on Data Analysis Using Python	137	120
22	A Two-Week Value-added course on Sensors, Transducers and Instrumentation Principles	66	66
23	A Two-Week Value-Added Course on Database Management Systems	173	173
24	A Two-Week Value-Added Course on Unmanned Aerial Vehicles for IoT Systems	173	173
25	A Two-Week Value-Added Course on Recent Trends and Challenges in IoT	112	112
26	Value added course on Team Leadership Skills	57	56
27	Value added course on Digital Marketing	42	36
28	Value added course on Introduction to Business Analytics	42	35
29	A Two Week Value added course on Human values and Professional Ethics	72	72
30	A Three Week Value added course on Communication skills for work place success	94	92
31	A Two Week Value added course on Personality Development	118	115
32	A Two Week Value added course on Professional Ethics	236	228
33	A Two Week Value added course on Web Designing	326	322
34	A Two Week Value added course Tech Insights	177	173

About the College:

The college is promoted by AANM & VVRSREducational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department was started in the year 2009 and has been offering a full-time, four-year B.Tech. Programme in "Civil Engineering", and a two-year M. Tech. Programme in "Structural Engineering". The department has been successful in establishing well equipped laboratories and infrastructure to promote teaching – learning as well as R&D and consultancy. The department has established Water Environment and Land (WEL) to conduct Research & Development activities in the fields of water and land resource inventory, mapping, monitoring and management of environment and ecosystems in the region and also Disaster Management.

Resource Persons:

- Dr.M. Sri Rama Chand, Founder, licensed Structural Engineer
- Er. M.Sandhya, Managing Director
- Er. A.Devendra Reddy, Associate Design Engineer
- Er. M.Ravi Teja, Structural Engineer(Grade-II)
- Er. K.Prashanth, Associate Design Engineer

Objectives of the Program:

- To introduce various software tools and their applications in Civil Engineering.
- At the end of the course, Students can visualize their ideas with the joy of drawing by ease of super-smart 3D modeling Software (SKETCHUP). Students can do projects as their gain a new perspective as their software gives great ideas with the right technology.

Topics:

- Interface in google Sketchup
- 3D Modeling and Drawing
- Measuring and labeling
- Rendering and Animating

GUIDELINES:

- Regular attendance is mandatory to issue certificate.
- Certificate will be provided only, after giving overall feedback and fulfilling other requirements.

About the course:

SketchUp is an easy, elegant 3D modeling program. Starting with basic shapes and forms, you can build anything from skyscrapers to 3D-printable product mockups. From a notion — a concept, an idea, whatever your little heart desires. The program includes drawing layout functionality, surface rendering in different "styles", and enables placement of its models within Google Earth. Google SketchUp Pro 6 introduced a beta version of Google SketchUp Layout which includes 2D vector tools and page layout tools allowing presentations to be produced without the need for a separate presentation program

Expected Outcomes of the course:

- At the end of the course, Students can visualize their ideas with the joy of drawing by ease of super-smart 3D modeling Software.
- Students can do projects as their gain a new perspective as their software gives great ideas with the right technology.
- Architects, engineers, designers, and hobbyists frequently use SketchUp to create 3D models of buildings, landscapes, furniture, and other objects.
- Users can easily and quickly build complex 3D models thanks to the tool's user-friendly interface and selection of tools

- The Students can be able to build anything from skyscrapers to 3D-printable product mockups.
- With the help of Google SketchUp, we can save time, increase productivity, easy storage, maintain standard, accurate work.
- It contains intuitive interfaces, user-friendly tools, and features. It can generate an array of designs for any project.
- SketchUp are used for two-dimensional and three-dimensional drawing.

About resource Persons:

- Dr.M. Sri Rama Chand, is the Founder of Sreshta Engineers in the year 2020 and also an licensed Structural Engineer.
- Er. M.Sandhya, working as the Managing Director of Sreshta Engineers.
- Er. A.Devendra Reddy, working as the Associate Design Engineer at Sreshta Engineers.
- Er. K.Prashanth

Department of Civil Engineering

Summary Report on "A Two-Week Value- Added Course on SKETCHUP" in Civil Engineering" (24-06-2022 to 07-7-2022)

Title of the course: "A Two-Week Value- Added Course on SKETCHUP"

Duration: 24-06-2022 to 07-07-2022

Resource Persons:

- **Dr.M. Sri Rama Chand,**
Founder, licensed Structural Engineer
- **Er. M.Sandhya,** Managing Director
- **Er. A.Devendra Reddy,** Associate Design Engineer
- **Er. M.Ravi Teja,** Structural Engineer (Grade-II)
- **Er. K.Prashanth,** Associate Design Engineer

Objectives of the program:

- To introduce various software tools and their applications in Civil Engineering.
- At the end of the course, Students can visualize their ideas with the joy of drawing by ease of super-smart 3D modeling Software (SKETCHUP). Students can do projects as their gain a new perspective as their software gives great ideas with the right technology.

Topics Covered:

- Interface in google Sketchup
- 3D Modeling and Drawing
- Measuring and labeling
- Rendering and Animating

Outcomes of the program:

- At the end of the course, Students can visualize their ideas with the joy of drawing by ease of super-smart 3D modeling Software.
- Students can do projects as their gain a new perspective as their software gives great ideas with the right technology.
- Architects, engineers, designers, and hobbyists frequently use SketchUp to create 3D models of buildings, landscapes, furniture, and other objects.
- Users can easily and quickly build complex 3D models thanks to the tool's user-friendly interface and selection of tools.
- The students can be able to build anything from skyscrapers to 3D-printable product mockups.

- With the help of Google SketchUp, we can save time, increase productivity, easy storage, maintain standard, accurate work.
- It contains intuitive interfaces, user-friendly tools, and features. It can generate an array of designs for any project.
- SketchUp are used for two-dimensional and three-dimensional drawing.

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible U.G branches of engineering are accredited under Tier I by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels

About the Department:

The Department was started in the year 2009 and has been offering a full-time, four-year B.Tech. Programme in "**Civil Engineering**", and a two-year M. Tech. Programme in "**Structural Engineering**". The department has been successful in establishing well equipped laboratories and infrastructure to promote teaching – learning as well as **R&D and consultancy**. The department has established **Water Environment and Land (WEL)** to conduct Research & Development activities in the fields of water and land resource inventory, mapping, monitoring and management of environment and ecosystems in the region and also Disaster Management.

Further, the department is endowed with well-equipped laboratories, library, qualified & dedicated faculty and technically sound supporting staff. The department is offering consultancy services in designing, material / soil testing, surveying etc. It is continuously striving to impart quality education and enhancing competitive spirit amongst the students for academic excellence. CE department has been recognized as Research Centre by JNTUK, Kakinada

About the SDP:

The aim of this value added course is to provide the knowledge about The Applications of GIS and GPS in Civil Engineering.

Objectives of the program:

- To introduce different geodetic methods of survey.
- To get the knowledge of modern advanced surveying techniques.
- To be familiarized with Total Station and GPS.

Outcomes of the program:

- Students will be able to know the different geodetic methods such as triangulation, Geodesy.
- Students will be able to learn about surveying applications in Civil Engineering
- Students will be able to learn the principles of RS & GIS.

About resource Persons:

Mr. N.Haripavan, is working as Assistant Professor in Department of Civil Engineering, Gudlavalluru Engineering College.

Ms.M.L.Sirisha, is working as Assistant Professor in Department of Civil Engineering, Gudlavalluru Engineering College.

GUIDE LINES:

- **Regular attendance is mandatory to issue certificate.**
- Certificate will be provided only, after giving overall feedback and fulfilling other requirements.

Eligibility:

Students of III B.Tech are eligible for attending the event.

SESHADRI RAO
GUDLAVALLERU ENGINEERING COLLEGE
(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)
Seshadri Rao Knowledge Village, Gudlavalluru

Department of Civil Engineering

Program Schedule for "A Two-Week Value- Added Course on Applications of GIS & GPS in Civil Engineering" 31-01-2022 and 12-02-2022

S. No.	Date	Topics to be Covered
1	31-01-2022	To understand the basics and elements of different types of curves on roads and their preliminary survey
2	01-02-2022	To learn about surveying applications in setting out of curves, buildings, culverts and tunnels
3	02-02-2022	To get introduced to different geodetic methods of survey such as triangulation, trigonometric levelling
4	03-02-2022	To learn about errors in measurements and their adjustments in a traverse
5	04-02-2022	To get introduced to modern advanced surveying techniques involved such as remote sensing, Total station, GPS, Photogrammetry etc.
6	05-02-2022	Application of Theodolite Surveying-Tacheometry, Height & distance, Curve setting problems
7	07-02-2022	Traversing & Triangulation survey: Principle, Planning & Methods. Geodesy
8	08-02-2022	Photogrammetric Surveying – Principle, Scale, Number of Photographs, Deduction of distance & height
9	09-02-2022	Principles of Remote Sensing & Geographic Information System, Application to Civil Engineering
10	10-02-2022	Electronic distance measurement, Total Station, Global Positioning System.

11	11-02-2022	Analysis of land cover & land use by using the Geospatial techniques using GIS software
12	12-02-2022	To attain the location Co-ordinates by using the Global Positioning System

Summary Report on "A Two-Week Value- Added Course on Applications of GIS & GPS in Civil Engineering" 31-01-2022 to 12-02-2022

Title of the course: "A Two-Week Value- Added Course on Applications of GIS & GPS in Civil Engineering"

Duration: 31-01-2022 to 12-02-2022

Resource Persons:

- Mr. N. Hari Pavan, Assistant Professor, CE, 9014345098.
- Mrs. M. L. Sirisha, Assistant Professor, CE, 9390488744.

Objectives of the program:

- To introduce different geodetic methods of survey.
- To get the knowledge of modern advanced surveying techniques.
- To be familiarized with Total Station and GPS.

Topics Covered:

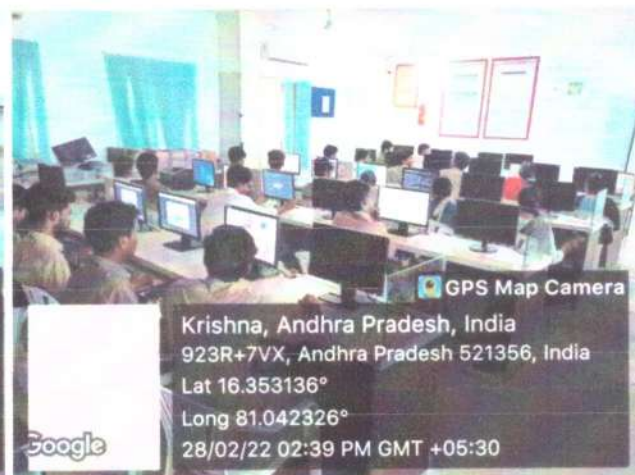

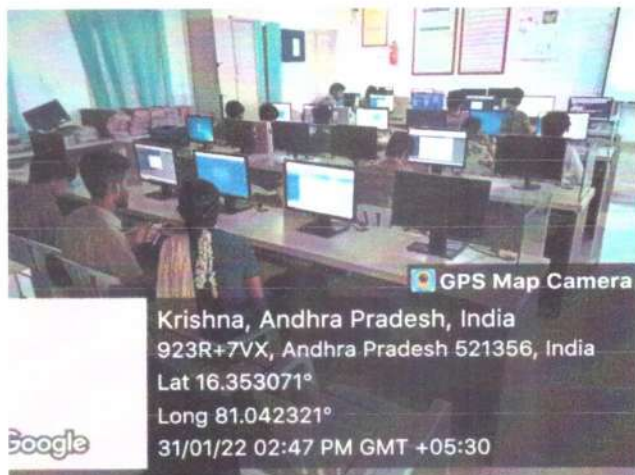

- To understand the basics and elements of different types of curves on roads and their preliminary survey
- To learn about surveying applications in setting out of curves, buildings, culverts and tunnels
- To get introduced to different geodetic methods of survey such as triangulation, trigonometric levelling
- To learn about errors in measurements and their adjustments in a traverse
- To get introduced to modern advanced surveying techniques involved such as remote sensing, Total station, GPS, Photogrammetry etc.
- Application of Theodolite Surveying-Tacheometry, Height & distance, Curve setting problems
- Traversing & Triangulation survey: Principle, Planning & Methods. Geodesy
- Photogrammetric Surveying – Principle, Scale, Number of Photographs, Deduction of distance & height
- Principles of Remote Sensing & Geographic Information System, Application to Civil Engineering
- Electronic distance measurement, Total Station, Global Positioning System. Analysis of land cover & land use by using the Geospatial techniques using GIS software
- To attain the location co-ordinates by using the Global Positioning System.

Outcomes of the program:

- Students will be able to know the different geodetic methods such as triangulation, Geodesy.
- Students will be able to learn about surveying applications in Civil Engineering
- Students will be able to learn the principles of RS & GIS.

No. of students enrolled the course: 165

No. of students completed the course: 155

DEPARTMENT OF CIVIL ENGINEERING

CIRCULAR

Date: 25 -11-2021

The department of Civil Engineering is organizing "A Two-Week Value- Added Course on Analysis of Structure Using SAP" in Civil Engineering from 29-11-2021 to 11-12-2021 in virtual mode using Microsoft Teams. Hence all the IV B. Tech students are informed to enroll and attend the course without fail.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department was started in the year 2009 and has been offering a full-time, four-year B.Tech. Programme in "Civil Engineering", and a two-year M. Tech. Programme in "Structural Engineering". The department has been successful in establishing well equipped laboratories and infrastructure to promote teaching - learning as well as R&D and consultancy. The department has established Water Environment and Land (WEL) to conduct Research & Development activities in the fields of water and land resource inventory, mapping, monitoring and management of environment and ecosystems in the region and also Disaster Management.

Resource Persons:

- Mr. A.H.L.Swaroop, Sr.Gr.Assistant Professor, Ph No: 9640912413
- Mr.L.Ganesh Babu, Assistant Professor, 7013805396
Department of CE, SRGEC.

Objectives of the Program:

- To introduce various software tools and their applications in Civil Engineering.
- To make the students more effective in the field of Civil Engineering with respective to this software
- The aim of this value added course is to provide the knowledge about the SAP software.

Topics:

- Preliminary Design
- Modeling of Building
- Calculation of Seismic Weight, Base shear, Storey Shear
- Optimizing the Design

Platform:

Microsoft Teams

Eligibility: All IV B. Tech Students

Registration is free

About the course:

The standard assessment procedure (SAP) is used to assess the energy efficiency of a newly constructed residential building to confirm that it complies with Part L1 of the building regulations. Construction industry solutions from SAP give stakeholders a single, consistent, and real-time view of project data while providing a predictive and intelligent building maintenance schedule. By deploying construction management software from SAP, you can harness industry-ready capabilities and best practices to grow revenue, control cost, and minimize risk.

Expected Outcomes of the course:

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a structure using the standards and design guidelines taught during the course.
- SAP software provides a wide range of benefits to civil engineers, allowing them to complete projects faster, manage resources more efficiently, and track progress more accurately
- Civil engineers use SAP software to create, store, and track construction documents, plans, and drawings, ensuring that all members of the project team have access to the latest versions. This helps streamline the construction process and ensures that the project is completed on time and within budget.

- SAP software helps civil engineers track progress on projects and monitor performance. This includes tracking material costs, labor costs, and other key metrics, so that civil engineers can ensure that the project is progressing as expected.
- SAP software provides civil engineers with tools to enhance safety on the job site. This includes tracking safety-related incidents, monitoring safety protocols, and ensuring that all personnel are properly trained.
- SAP ERP is an enterprise resource planning software. It incorporates the key business functions of an organization.

Department of Civil Engineering

**Summary Report on “A Two-Week Value- Added Course on Analysis of Structure Using SAP”
in Civil Engineering” (29-11-2021 to 11-12-2021)**

Title of the course: “A Two-Week Value- Added Course on Analysis of Structure Using SAP”

Duration: 29-11-2021 to 11-12-2021

Resource Persons:

- Mr.A.H.L.Swaroop Sr.Gr.Assistant professor, Department of Civil Engineering, 9491678603.
- Mr. L.Ganesh Babu Assistant professor, Department of Civil Engineering, 7013805396.

Objectives of the program:

- To introduce various software tools and their applications in Civil Engineering.
- To make the students more effective in the field of Civil Engineering with respective to this software
- The aim of this value added course is to provide the knowledge about the SAP software.

Topics Covered:

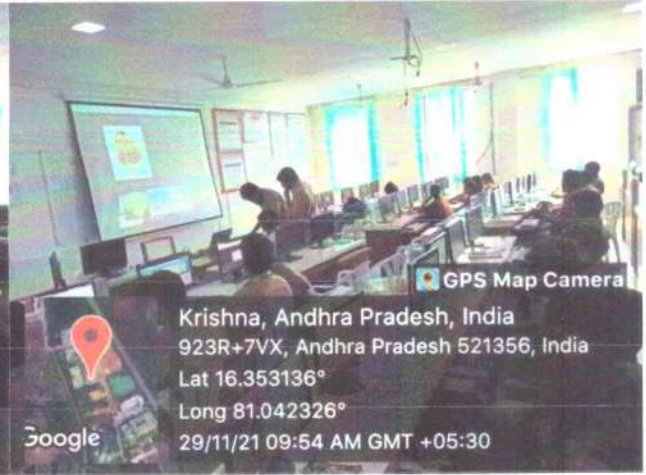

- Preliminary Design
- Modeling of Building
- Calculation of Seismic Weight, Base shear, Storey Shear
- Optimizing the Design

Outcomes of the program:

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a structure using the standards and design guidelines taught during the course.
- SAP software provides a wide range of benefits to civil engineers, allowing them to complete projects faster, manage resources more efficiently, and track progress more accurately.
- SAP ERP is an enterprise resource planning software. It incorporates the key business functions of an organization.

No. of students enrolled the course: 159

No. of students completed the course: 156

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

CIRCULAR

Date: 02 -09-2021

The department of Electrical & Electronics Engineering is organizing a two-week Value-Added Course on "PV Systems Design" from 08-11-2021 to 20-11-2021 by Mr. A. Amarendra, Associate Professor, Department of EEE, Seshadri Rao Gudlavalleru Engineering College for II B. Tech students of all the branches. Hence all the students are informed to enroll and attend the course without fail.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 4 times (one time under Tier-I) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M.Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in Electrical and Electronics

Resource Persons:

- Mr. A. Amarendra, Associate Professor,
Department of EEE, SRGEC
Ph No:9502626726

Objectives of the Program:

- To develop a comprehensive technological understanding in solar PV system components
- To provide in-depth understanding of design parameters to help design and simulate the performance of a solar PV power plant
- To pertain knowledge about planning, project implementation and operation of solar PV power generation

Topics:

- PV Module Technology
- Types of PV Systems
- PV Plant Design Considerations and Standards
- Performance Parameters in solar PV system.
- PV Project Development

Platform:

Offline

Eligibility: All II B. Tech Students

Registration is free

About the course:

Solar Photovoltaic technology is used for direct conversion of sunlight to electricity with advantages of low gestation period, ease of installation, modular nature and minimum maintenance. The course is focused on techno-economics of power generation through solar PV technology. The course starts with the essence of solar PV power generation policies. It is followed by various aspects of system specification, design, project implementation and operation & maintenance. The course offers a blend of technical expertise required for design and operation of a solar PV power plant and the understanding of the management aspects required to implement and commission a PV power plant. It also covers the economic analysis of a PV project and its environmental benefits.

Expected Outcomes of the course:

- ❖ Develop understanding on the PV plant design and select suitable technologies.
- ❖ Design and simulate a PV power plant using software tool.
- ❖ Plan project implementation, operation and maintenance.
- ❖ Carry out techno-economic-environmental performance evaluation of a solar PV power plant.

About the Resource Person:

Mr. AMARENDRA ALLURI is working as Assistant Professor in Seshadri Rao Gudlavalleru Engineering and Electronics Engineering from 01st March 2001 to till date. He is pursuing his PhD in JNTUK Kakinada. He worked as a Testing and Commissioning Engineer in TEKTRAN Power Pvt Ltd during 01-11-1997 to 30-10-1999. He guided around 15 PG Projects and 60 B. Tech Projects. He published around 6 papers in International Journals, 3 in National and International Conferences. He organized around 6 workshops. He attended around 50 workshops and seminars. He has membership in various professional bodies like FIE (INDIA), MISTE, MIETE. He Organized an AICTE Sponsored One Day National Seminar on Non-Conventional Energy Sources on 24-10-2009 at Gudlavalleru Engineering College. sponsored by AICTE under seminar grant for an amount Rs75,000. He executed the Erection and Installations works of Power Systems Lab procured under MODROB funds sanctioned by AICTE on 21st December 2009 for an amount Rs. 14,25,000/- with the head "Establishment of Power Systems Lab" as Co-Coordinator. He received a grant of Rs 6,00,000 from AICTE under the scheme MODROBS for executing the works of Modernization of Power Electronic and Drives Lab. He received a grant of Rs 4,40,000/- from University Grants Commission provisionally as financial assistance for carrying the Minor Research Project Titled "Enhancement of Power System Security Using Metaheuristic Optimization Techniques" on the name of Principal Investigator.

Department of Electrical and Electronics Engineering

Report on Value Added Course titled “ PV Systems Design”

Title of the course: “PV Systems Design”

Duration: 08-11-2021 to 20-11-2021

Resource Persons:

- Mr. A. Amarendra, Associate Professor, Department of EEE, Seshadri Rao Gudlavaluru Engineering College.

Objectives of the program:

- To develop a comprehensive technological understanding in solar PV system components
- To provide in-depth understanding of design parameters to help design and simulate the performance of a solar PV power plant
- To pertain knowledge about planning, project implementation and operation of solar PV power generation

Topics Covered:

- PV Module Technology
- Types of PV Systems
- PV Plant Design Considerations and Standards
- Performance Parameters in solar PV system.
- PV Project Development

Outcomes of the program:

After the completion of the course the students will be able to

- ❖ Develop understanding on the PV plant design and select suitable technologies.
- ❖ Design and simulate a PV power plant using software tool.
- ❖ Plan project implementation, operation and maintenance.
- ❖ Carry out techno-economic-environmental performance evaluation of a solar PV power plant

Resource Persons:

- Dr. J. Kiran, Assistant Professor, Department of EEE, Seshadri Rao Gudlavalluru Engineering College.
Ph No:9951424065

Objectives of the Program:

- To introduce scripting language.
- To explore various problems solving approaches of computer science.
- To be familiarized with general coding techniques to solve object-oriented programming concepts.

Topics:

- Basics of python programming and control statements.
- Functions and strings.
- Exceptional Handling and File Handling
- Object Oriented Programming in Python.

About the course:

Python is an explicated, object-oriented, high-level programming language with dynamic semantics. Its high-level built in data structures, combined with dynamic typing and dynamic binding, make it very attractive for Rapid Application Development, as well as for use as a scripting or glue language to connect existing components together. Python's simple, easy to learn syntax emphasizes readability and therefore reduces the cost of program maintenance. Python supports modules and packages, which encourages program modularity and code reuse. The Python interpreter and the extensive standard library are available in source or binary form without charge for all major platforms, and can be freely distributed.

Expected Outcomes of the course:

- Students will be able to solve coding tasks related to fundamental and control states.
- Students will be able to design structured programs using functions and strings.
- Students will understand and apply the concepts of exceptions and file handling.
- Students will analyze the importance of object-oriented programming over structured programming.

About the Resource Person:

Dr. Kiran Jasthi is currently working as an Assistant Professor in Department of Electrical and Electronics Engineering in Seshadri Rao Gudlavalluru Engineering College from June 2018. He worked in Vignan University from August 2011 to November 2011 and again from June 2012 to June 2013. He worked in Chebrolu Engineering College from June 2008 to April 2009. He did his PhD in December 2018 from IIT Kharagpur, M. Tech in IIT Roorkee in Power Systems Engineering during 2009-2011 and B. Tech in Electrical Engineering from VR Siddhartha Engineering College during 2004-2008. He is a Research Scholar of IIT Kharagpur from June 2013 to June 2018. He qualified GATE in 2008 with a score of 193 and in 2009 with a score of 261. He has consistently secured first class with distinction throughout his educational career. He published his papers in various reputed National and International Journals and attended various IEEE conferences and workshops.

Department of Electrical and Electronics Engineering

Report on Value Added Course titled “ Python Programming”

Title of the course: “Python Programming”

Duration: 18-10-2021 to 06-11-2021

Resource Persons:

- Dr. J. Kiran, Assistant Professor, Department of EEE, Seshadri Rao Gudlavalluru Engineering College.

Objectives of the program:

- To introduce scripting language.
- To explore various problems solving approaches of computer science.
- To be familiarized with general coding techniques to solve object-oriented programming concepts.

Topics Covered:

- Basics of python programming and control statements.
- Functions and strings.
- Problem solving sessions to write the programs.
- Tuples, Lists and Dictionaries.
- Exceptional Handling and File Handling
- Object Oriented Programming in Python.

Outcomes of the program:

- Students will be able to solve coding tasks related to fundamental and control states.
- Students will be able to design structured programs using functions and strings.
- Students will understand and apply the concepts of exceptions and file handling.
- Students will analyze the importance of object-oriented programming over structured programming.

No. of students enrolled the course: 161

No. of students completed the course: 159

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

CIRCULAR

Date: 02 -09-2021

The department of Electrical & Electronics Engineering is organizing a two-week Value-Added Course on **"Introduction to Software Tools and their applications in Electrical & Electronics Engineering"** from 06-09-2021 to 18-09-2021 by **Apply Volt Technologies Pvt Ltd, Hyderabad** for III B. Tech students of all the branches in association with ESCON and professional chapters IEI and IEEE in virtual mode using Microsoft Teams. Hence all the UG students who are interested are informed to enroll and attend the course without fail.

Mobile: 9492937760

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 4 times (one time under Tier-I) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M.Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in Electrical and Electronics

Resource Persons:

- Mr. N. Ramesh, CEO, Apply Volt Technologies, Hyderabad.
Ph No: 90009 00485
- Team Apply Volt Technologies, Hyderabad

Objectives of the Program:

- To introduce various software tools and their applications in electrical engineering.
- To explore IoT Cloud Platforms, Raspberry Pi and ESP 32 tools and their applications during the course
- To be familiarized with general PCB Design flow, types of PCB and EDA tools.

Topics:

- IoT Cloud Platforms
- Raspberry Pi, ESP 32
- AI & ML Training and their algorithms
- PCB Design, its types and hands-on training in designing prototypes.

Platform:

Microsoft Teams

Eligibility: All III B. Tech Students

Registration is free

About the course:

The practical exposure is must important for engineering under graduate students, but the software programs can provide an additional support to them for better and easy learning. There are various software and these can be used for learning the various electrical engineering subjects like circuit theory, control system, power system, power electronics and drive etc. In all the sector of engineering i.e., power plants, distribution substation also in industry various monitoring is done by with the help of computer. All the designs of distribution system and electrical machines, house and building winding is prepared by computer software. So, there is an important role of software in real life engineering. It is very important to educate the future engineers with the help of software for their better carrier and better understanding. This course provides a platform to learn the latest software tools to the students for finding the better applications in engineering

Expected Outcomes of the course:

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a PCB using the standards and design guidelines taught during the course.
- Students will be able to learn the algorithms related to AI and Machine Learning.

About APPLY VOLT TECHNOLOGIES PVT LTD

APPLY VOLT emerged as an Electronics company specializing in high end technology of VLSI, EDA tools, TCAD, DSP,IOT, PCB, AI&ML, SPICE Modelling & fabrication services for Corporates, Research Labs & Academic Sector.

They offer a complete portfolio of Hardware Design Services for single board design, Multi board system design, FPGA based designs, reference designs, evaluation platforms, power optimized designs, small factor designs, high density boards.

They engage customers in deep technical discussions in order to learn their needs and work together with customer to provide solutions that meet their actual requirements. With their technical strength and the readiness for deep and long-term involvement, they are confident in providing service of the highest quality. Today, they offer world-class products and just in time service to its customers.

Their university program started establishing collaborative relations with the universities in the country in order to create bridge between academia and industry. This relationship has evolved through collaboration with faculty on curriculum design, setting up curriculum labs, conducting workshops, seminars, faculty development programs and knowledge exchanges. APPLY VOLT has been known for Excellent in its services.

Report on Value Added Course titled “ Introduction to Software Tools and their Applications in Electrical & Electronics Engineering”

Title of the course: *“Introduction to Software Tools and their Applications in Electrical & Electronics Engineering”*

Duration: 06-09-2021 to 18-09-2021

Resource Persons:

- Mr. N. Ramesh, CEO, Apply Volt Technologies, Hyderabad
- Team Apply Volt Technologies, Hyderabad

Objectives of the program:

- To introduce various software tools and their applications in electrical engineering.
- To explore IoT Cloud Platforms, Raspberry Pi and ESP 32 tools and their applications during the course.
- To be familiarized with general PCB Design flow, types of PCB and EDA tools.

Topics Covered:

- IoT Cloud Platforms
- Importance of Microcontrollers and SoC
- Raspberry Pi, ESP 32
- Device Control from Thingspeak
- Device Control using the mobile phone (MQTT)
- Introduction to Node Red
- AI & ML Training and their algorithms
- PCB Design, its types and hands-on training in designing prototypes.

Outcomes of the program:

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a PCB using the standards and desing guidelines taught during the course.
- Students will be able to learn the algorithms related to AI and Machine Learning.

No. of students enrolled the course: 114

No. of students completed the course: 110

Dear sir,

Greetings from IES!

We are delighted to announce the Next cycle commencement of **ARC Advance certification on Emerging Technologies** in order to honor your support and to maintain cycle continuation.

ARC empowers the students and college faculties with Futuristic Technology Skills on Mechatronics, Robotics, and emerging technologies in partnership and joint certification with **APSSDC**.

We appreciate both Spoc and faculties for your cooperation in pooling with Your Esteemed College students to provide the technical skills through ARC.

about the next cycle, particulars of the program will be discussed in the virtual meeting. Kindly find the Virtual meeting link to join us and listen to the program details on the 29th of

September - 2021.

Indo -Euro Synchronization ARC is inviting you to a scheduled Zoom meeting.

Topic: ARC Next Cycle Reg

Time: Sep 29th, 2021, Wednesday, 02:00 PM Mumbai, Kolkata, New Delhi

Join Zoom Meeting:

<https://us02web.zoom.us/j/84485978765>

Meeting ID: 844 8597 8765

Looking forward to the beginning of the exciting journey of ARC- 2021

We are happy to associate with your esteemed institution and we look forward to your revert with your valuable queries.

Regards,
ARC Team

ARC certification on emerging technologies schedule and ARC 1st online session & commencement letter reg

arc@indoeurosync.com <arc@indoeurosync.com>

Mon, Nov 15, 2021 at 3:39 PM

To: "raj.venkat@indoeurosync.com" <raj.venkat@indoeurosync.com>

Cc: Hema C <manager.operations@indoeurosync.com>

Dear Sir,

Greetings!!

It gives us immense pleasure to introduce our course to ARC cluster students. As a valued college partner, we are giving this course with full attention and aim to focus on the students learning interest in Robotics and Mechatronics-4.0 emerging Technology, in connecting with Industries expertise with hands-on experience.

As we are commencing our first session tomorrow at 2 pm, we have 3 main points to update with this email.

1. Complete Curriculum and Timeline for ARC course on Emerging technologies
2. Commencement letter draft is attached in the mail and we kindly ask the spocs and faculty to print it on the college letterhead with Director / Principal Authorization, on commencement with 16-11-2021 dated, and students list attached.

Kindly send us the details to proceed further latest by tomorrow evening by 5 pm. The same hard copy should reach us by this weekend.

Address to post :

Indo Euro Synchronisation
Plot No:3, MCT Clinic, Ashramam Road,
Our Place Restaurant Street, Tadepalli, Guntur Dist, A.P, India
Pin: 522501
Contact : +91 8686100696

3. providing the first session link in this email.

We are happy to announce the launch of the ARC- Certification on Emerging Technologies for the students of "Indo European Skilling Centers for Mechatronics and Industrial Robotics". This first session is scheduled at 2:00 PM IST, 16th November, Tuesday. (Login credentials are mentioned below)

Indo-Euro Synchronization ARC is inviting you to a scheduled Zoom meeting.

Topic: Mechatronics and Robotics - Session - 1

Time: Nov 16, 2021, 02:00 PM Mumbai, Kolkata, New Delhi

Join Zoom Meeting

<https://us02web.zoom.us/j/87942112510>

Meeting ID: 879 4211 2510

Do not hesitate to write/call us for clarifications, if required.

Regards,
ARC Team

ARC CERTIFICATION ON EMERGING TECHNOLOGIES

COMMENCEMENT LETTER

Date: 18.11.2021

Sub: Commencement of the ARC Certification on Emerging Technologies

Dear Sir,

With reference to the captioned subject, we here with confirm that IES has commenced Applied Root Control Certification on Emerging Technologies for our 8 students belong to this institution.

S.No.	Roll No.	Name of the Student	Branch
1	19481A0201	A. Azees	Electrical and Electronics Engineering
2	19481A0210	B. Uma Mahesh	Electrical and Electronics Engineering
3	19481A0214	Ch. Sreenivas	Electrical and Electronics Engineering
4	19481A0229	K.Ch.N. Anyesh Reddy	Electrical and Electronics Engineering
5	19481A0231	K. Dileep Kumar	Electrical and Electronics Engineering

8	19481A0270	S. Prashanth Raju	Electrical and Electronics Engineering

We here with convey that the ARC certification on Emerging Technologies course was commenced on 16th November 2021 under APSSDC-IES initiative.

Submitted for kind information and necessary processes.

Summary Report on Value Added Course titled “ Advance certification on Emerging Technologies”06-11-2021and24-02-2022

Title of the course: “Advance certification on Emerging Technologies”

Duration: 06-11-2021to24-11-2022

Resource Persons:

- Team ARC
Phone: 8686100696
Mail Id: arc@indoeurosync.com

Objectives of the program:

1. Brining latest technologies in automation and manufacturing sectors to the labs of colleges.
2. Real-time training to supplement students with skill on advanced technologies to make them stand out in global arena.
3. Firsthand experience on industrial robots for the students
4. Learning with industry –driven production Requirements
5. Creation of knowledge pool of students with high-end technical skills for immediate absorption into research and Industry.

Topics Covered:

- Mechatronics and Robotics
- Cobots and Robolink technology 1 CPRog Controller
- Applications of Industrial Robots Tools
- Low Cost Automation Control of robot work by PLC fundamentals.
- Low Cost Automation IGUS Robots (advanced): Sensor-controlled Robot work
- Low cost Automation Applications
- Introduction to PLC controls, Sensors with Automation Application 1
- Industry 4.0 and its Applications
- Digital Twin and AR and VR Applications
- Including and AR and VR Applications and Smart Manufacturing

Outcomes of the program:

- Student gained knowledge on Key technologies of industry 4.0 such as basics of Mechatronics, Robotics and Integration of both for Smart Manufacturing
- Student gained knowledge on LCA, Expert Systems which is used in industry and perform different robotic tasks by using Cprog Software and IGUS Robot controller
- Student gained knowledge on PLC and Codesys Software and perform different assignment tasks provided.
- Students learned about IIOT with the industry observations.

No. of students enrolled the course: 08

No. of students completed the course: 08

DEPARTMENT OF MECHANICAL ENGINEERING

CIRCULAR

Date: 02-11-2022

The department of Mechanical Engineering is organizing Value-Added Course "Software training on CATIA, DELMIA and SIMULIA " for II, III B. Tech students in association with APSSDC DASSAULT 3D Experience Centre, from 16-08-2022 to 18-11-2022 by APSCSI Dassult Systems. Hence all the students are informed to attend the course without fail.

ANDHRA PRADESH STATE
Skill Development Corporation

The 3DEXPERIENCE® Company

3D Experience Centre's

Skill Development in Engineering Design

53 Experience Centre's yet to set-up across A.P

Expanding to 100 3D Experience at the end of FYI 2018-2019

To train more than 1,00,000 Students in R & D implementation

Objectives & Features

To enhance employability skill for Engineering Graduates in Research & Development technology implementation by imparting skills in Engineering Design in 3D Experience Platform, throughout for four year academic program.

- Students to implement innovative thoughts on 3D Experience platform for Product Development.
- Improve Student's confidence levels by working in Domain's such as Aerospace Automotive and Off-shore Engineering.
- Improved opportunities & placement, sustainability upon recruitment
- Expanding to 100 3D Experience Centre's through out the state.

Target Group

Engineering students from 2,3 & 4 year's from Mechanical, Electronics, Electric, Civil and Production as well as Engineering Graduates and Post-Graduates.

Levels of Training

Level - A

- A- Level focuses on 2nd ,3rd and 4th year core engineering students, and covers the the software application, introduction for Mechanical Design, Digital Manufacturing Equipment System and Finite Element Analysis. The course duration is 150 hours out of which classroom training is 70 hours, while practice and project is for 80 hours.

3D CATIA

3D DELMIA

3D SIMULIA

Level - B

- B-Level focuses on Diploma and 3rd year Engineering Students. It covers the basic Domain-specific training related to three industry verticals such as Automotive Aerospace & Ship Building (Marine & Offshore)

Transportation
& Mobility

Aerospace
& Defense

Marine &
Offshore

Level - C

- C-Level focuses on final year engineering students. It covers the Advance Industry Domain Specific Training. The course will spread across the three months and will include an application project.

Level - D

- The capstone project of the 8th semester can be performed by the students under the guidance of One local and One industry mentor. The duration of the project depends on the team size, capacity and complexity of the other projects.

Department of Mechanical Engineering

APSSDC DASSAULT 3D Experience Centre

Objective :

- To enhance employability skills in Research & Development technology implementation for Engineering Graduates by imparting skills in Engineering Design using 3 D Experience Platform

Outcomes :

Students will be able to

- get hands on experience of using 3D Experience Platform
- implement innovative thoughts for product development using 3D Experience Platform

Target Group:

Engineering Students from 2,3 and 4 th year UG and PG Programs

Levels of Training :

Level A focuses on 2nd, 3rd and 4th year core engineering students and covers the software training on CATIA , DELMIA and SIMULIA

Level B focuses on 3rd year Engineering Students . It covers the basic Domain Specific training related to three industry verticals such as Automotive , Aerospace & Ship Building

Level C focused on final year engineering students .It covers advance industry domain specific training and will include an application project

Level D focuses on project of the 8th semester under the guidance of One local and one industry mentor.

List of Computers Available:

S.No.	Description	Qty.	Cost	Remarks
1	HP Z240T Workstation: Intel Core i7-7700, 7 th Gen Processor, 64 GB RAM (4 x 16) 1 TB SATA HDD (7200 RPM) / Nvidia Quadro P1000, 4GB Graphic Card	01	1,29,000	Purchased by College
2	HP Z240T Workstation: Intel Core i7-7700, 7 th Gen Processor, Intel C236 Chipset / 16 GB RAM (2 x 8) / 1 TB SATA HDD (7200 RPM) / Nvidia GTX 1050 T1, 4GB DDR5 Graphic Card	36	27,54,000	Purchased by College
3	HP ZBOOK 15U G4 Mobile Workstation Intel Core i5, 7 th Gen, 7200 Processor, 16GB DDR4 RAM,	36	-	Provided by

	1TB HDD, AMD 2GB Graphics Card			APSSDC
--	--------------------------------	--	--	--------

List of Licensed Softwares available:

Dassault Systemes 3D Experience Platform which comprises of three software packages

- Catia V6 (useful to model any part)
- Delmia (useful for manufacturing process planning and operations)
- Simulia (useful for analysis and simulation of real world behavior of product)

No of Students undergoing training at present :

2,3 and 4th year B.Tech Engineering Students ~~616~~ no. 358

Details of Trainers:

1. Mr. G. Ramakrishna

TRAINING DELIVERY CONTENT

TOOL: CATIA		DURATION: 60 Hrs	SESSION: 2Hrs/Day
SESSION	DELIVERABLES		
SESSION-1	<ul style="list-style-type: none"> • About 3D Experience Lab • About Industries/Design & R&D • CATIA/Delmia/Simulia 		
	<u>SKETCHER</u>		
SESSION-2	<ul style="list-style-type: none"> • Workbench Introduction • Types of Sketches • Creating profiles • Practice of Profile tool bar with 3 to 4 Basic sketches. 		
SESSION-3	<ul style="list-style-type: none"> • Sketcher constraints • sketcher operations • Practice 5 sketches with different Constrains 		
SESSION-4	<ul style="list-style-type: none"> • Transformation of profiles • Projection from 3D elements • Practice of transform tools with suitable sketches 		
SESSION-5	<ul style="list-style-type: none"> • Sketch analysis • Sketch modifications • Create 5 to 10 Sketches with Iso Constrain 		
	<u>PART DESIGN</u>		
SESSION-6	<ul style="list-style-type: none"> • Workbench Introduction • Reference Elements • Practice of types of point, line and planes 		
SESSION-7	<ul style="list-style-type: none"> • Basic Solid Features • Practice of basic 2D to 3D parts • Advanced Solid Features • Practice of Ribs, Slots & Multisections 		

SESSION-8	<ul style="list-style-type: none"> • Dress up features • Practice of Fillets, chamfers, shell
SESSION-9	<ul style="list-style-type: none"> • Advanced Dress up features • Practice of Draft and other features
SESSION-10	<ul style="list-style-type: none"> • Transformation of solids • Practice of Pattern, mirror & Scaling
SESSION-11	<ul style="list-style-type: none"> • Surface based features • Practice of Splitting solids with surfaces • Maintenance of Specification tree
SESSION-12	<ul style="list-style-type: none"> • Introduction to Body concept • Explain the needs of Body concepts • Boolean operations • Practice 3D models using Booleans
SESSION-13	<ul style="list-style-type: none"> • Creation of complex parts using body concept • Practice 3 to 5 complex Solids using Body Concept
SESSION-14	<ul style="list-style-type: none"> • Editing solid geometry • Editing & replacing of Bodies, sketches
SESSION-15	<ul style="list-style-type: none"> • Power copy • Practice of Power copy tool
<u>ASSEMBLY</u>	
SESSION-16	<ul style="list-style-type: none"> • Introduction to Workbench • Importing of Parts & Products • Practice of Product structure tools with basic Assembly
SESSION-17	<ul style="list-style-type: none"> • Assembly Constraints • Practice of various Constrain tools
SESSION-18	<ul style="list-style-type: none"> • Types of Assembly – approach • Top Down Assembly • Creating 2 to 3 assemblies with top down approach
SESSION-19	<ul style="list-style-type: none"> • Bottom Up Assembly • Creating assemblies by importing parts

SESSION-20	<ul style="list-style-type: none"> • Digital Mock up Intro • Scene Creations • Practice Of basic DMU tools and Stimulations
<u>GSD</u>	
SESSION-21	<ul style="list-style-type: none"> • Introduction to Workbench • Creation of Surfaces
SESSION-22	<ul style="list-style-type: none"> • Introduction to Workbench • Creation of Surfaces • Practice of Extude, revole & primitive tools
SESSION-23	<ul style="list-style-type: none"> • Creating Basic Curves (Wireframe) • Practice of circle, spline, helix & spiral
SESSION-24	<ul style="list-style-type: none"> • Creating Surfaces from Surfaces • Practice of blend, Multisections & fill
SESSION-25	<ul style="list-style-type: none"> • Trimming Surfaces • Practice of Spliting & trimming of surfaces
SESSION-26	<ul style="list-style-type: none"> • Creating curves on Surfaces • Creation of connect curves, isoparameteic, conic & corners • Basic GSD operations • Practice 3 to 4 GSD Components
SESSION-27	<ul style="list-style-type: none"> • Projections • Advanced GSD operations • Conversion of Surfaces to Solid • Practice 3 to 4 Sheetmetal Components
<u>DRAFTING</u>	
SESSION-28	<ul style="list-style-type: none"> • Introduction to Workbench • Drafting Approach
SESSION-29	<ul style="list-style-type: none"> • View Creation • Dimensioning
SESSION-30	<ul style="list-style-type: none"> • Geometry modification • Editing Option

Departmentof Mechanical Engineering

Summary Report on Value Added Course titled “Software training on CATIA, DELMIA and SIMULIA” 16-08-2022 to 18-11-2022

Titleofthecourse:“Advance certification on Emerging Technologies”

Duration:16-08-2022 to 18-11-2022

Details of Trainers:

Mr. G. Ramakrishna

Phone:

Mail Id:0

Objectivesoftheprogram:

To enhance employability skills in Research & Development technology implementation for Engineering Graduates by imparting skills in Engineering Design using 3 D Experience Platform

TopicsCovered:

SKETCHER

SESSION-1 About 3D Experience Lab, Industries/Design, and R&D CATIA/Delmia/Simuli

SESSION-2 Workbench Introduction, Types of Sketches, Creating profiles and Practice of Profile toolba
with 3 to 4 Basic sketches.

SESSION-3 Sketcher constraints,sketcher operations and Practice 5 sketches with differentConstrains

SESSION-4 Transformation of profiles, Projection from 3D elements and Practice of transform tools with
suitable sketches

SESSION-5 Sketch analysis, sketch modifications and Create 5 to 10 Sketches with Iso Constrain

PART DESIGN

SESSION-6 Workbench Introduction, Reference Elements and Practice of types of point, line and plane

SESSION-7 Basic Solid Features, Practice of basic 2D to 3D parts Advanced Solid Features Practice of
Ribs, Slots & Multi-sections

SESSION-8 Dress up features Practice of Fillets, chamfers, shell

SESSION-9 Advanced Dress up features, Practice of Draft and other features

SESSION-10 Transformation of solids,Practice of Pattern, mirror &Scaling

SESSION-11 Surface based features Practice of Splitting solids with surfaces and Maintenance of

Specification trees

SESSION-12 Introduction to Body concept, Explain the needs of Body concepts. Boolean operations

Practice 3D models using Booleans

SESSION-13 Creation of complex parts using body concept, Practice 3 to 5 complex Solids using Body Concept

SESSION-14 Editing solid geometry, Editing & replacing of Bodies, sketches

SESSION-15 Power copy, Practice of Power copy tool.

ASSEMBLY

SESSION-16 Assembly Constraints Practice of various, Constrain tools

SESSION-17 Types of Assembly-approach Top-Down Assembly Creating 2 to 3 assemblies with top-down approach

SESSION-18 Introduction to Workbench, Importing of Parts & Products, Practice of Product structure tools with basic Assembly

SESSION-19 Bottom-Up Assembly, creating assemblies by importing parts

SESSION-20 Digital Mock up Intro, Scene Creations and Practice Of basic DMU tools and Stimulations.

GSD

SESSION-21 Introduction to Workbench Creation of Surfaces

SESSION-22 Introduction to Workbench Creation of Surfaces Practice of Extrude, revolve & primitive tools

SESSION-23 Creating Basic Curves (Wireframe) Practice of circle, spline, helix & spiral

SESSION-24 Creating Surfaces from Surfaces Practice of blend, Multisections & fill

SESSION-25 Trimming Surfaces Practice of Splitting & trimming of surfaces

SESSION-26 Creating curves on Surfaces Creation of connect curves, isoparametric, conic & Corners Basic GSD operations Practice 3 to 4 GSD Components

SESSION-27 Projections Advanced GSD operations |, Conversion of Surfaces to Solid Practice 3 to 4 Sheetmetal Components.

DRAFTING

SESSION-28 Introduction to Workbench and Drafting Approach

SESSION-29 View Creation and Dimensioning

SESSION-30 Geometry modification and Editing Option

Head of the Department
Mechanical Engineering

Seshadri Rao

Gudlavalleru Engineering College

Seshadri Rao Knowledge Village

Gudlavalleru - 521 356, Krishna District, A.P.

Outcomes of the program:

Students will be able to

- get hands on experience of using 3D Experience Platform
- implement innovative thoughts for product development using 3D Experience Platform

No. of students enrolled the course: 358

No. of students completed the course: 358

DEPARTMENT OF MECHANICAL ENGINEERING

CIRCULAR

Date: 02-09-2021

The department of Mechanical Engineering is organizing a two-week Value-Added Course on **"3D-Printing, Internet of Things and Robotics"** for II B. Tech students in association with MEA and professional chapters IEI and ISTE, from 06-09-2021 to 18-09-2021 by **Print 3D Technologies Pvt Ltd, Tirupati**. Hence all the II B. Tech students are informed to enroll and attend the course without fail.

Advisors:

Dr. P. Ravindra Babu, Advisor to the
Management
Dr. B. Karuna Kumar, Director (AS&A)

Convenor:

Dr. A. Jawahar Babu, Prof & HOD

Organizing Committee:

Coordinator:
Mr. Dr. L. Ramesh, Asst Prof
Mobile: 9000455974

Co-Coordinator:
Mr. A. Rajesh, Asst Prof
Mobile: 8074053373

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavallur and was established in 1998. The college is situated in Gudlavallur, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Mechanical Engineering was established in 1998 and is offering under graduate course in Mechanical Engineering. It has been accredited 4 times (one time under Tier-I) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M. Tech course in Machine Design. Department is marching forward keeping pace with the technological advances in Mechanical Engineering.

Resource Persons:

- Dr. B.K.C Ganesh, Managing Director, Print 3D-Technologies, Tirupati, Ph No: 9885425863
- Team Print 3D Technologies, Tirupati.

Objectives of the Program:

1. To impart the basic knowledge & training on 3D Printing, Internet of Things and Robotics
2. To help the students in convert any 2D drawing into 3D objects by using 3S Max software and also to create various projects in Robotics and Arduino.

Topics:

- 3D-Printing
- IoT –Basic Programs
- Robotics-Basic Programs

Platform:
Assault Lab

Eligibility: All II B. Tech Students
Registration: 150

About the course:

The practical exposure is must important for engineering undergraduate students, but the software programs can provide an additional support to them for better and easy learning. There are various software and these can be used for learning the various Mechanical Engineering subjects like Robotics, Machine Dynamics, Manufacturing Science etc. In all the sector of engineering i.e., manufacturing, distribution substation also in industry various monitoring is done by with the help of computer. All the designs of components and machines, house and building are prepared by computer software. So, there is an important role of software in real life engineering. It is very important to educate the future engineers with the help of software for their better carrier and better understanding. This course provides a platform to learn the latest software tools to the students for finding the better applications in engineering

Expected Out comes of the course:

- Students able to understanding basic commands in 3S Max and fabricate the objects in 3D printing.
- Students able to write basic program for motions of robotic arms and traffic lights display

About 3D Printing Technology

- 3D printing or additive manufacturing is a process of making three dimensional solid objects from a digital file.
- The creation of a 3D printed object is achieved using additive processes. In an additive process an object is created by laying down successive layers of material until the object is created. Each of these layers can be seen as a thinly sliced cross-section of the object.
- 3D printing is the opposite of subtractive manufacturing which is cutting out / hollowing out a piece of metal or plastic with for instance a milling machine.
- 3D printing enables you to produce complex shapes using less material than traditional manufacturing methods.
- Adoption of 3D printing has reached critical mass as those who have yet to integrate additive manufacturing somewhere in their supply chain are now part of an ever-shrinking minority. Where 3D printing was only suitable for prototyping and one-off manufacturing in the early stages, it is now rapidly transforming into a production technology.

Department of Mechanical Engineering

Summary Report on Value Added Course titled “ 3D-Printing, Internet of Things and Robotics”06-09-2021and18-09-2021

Title of the course: “3D-Printing, Internet of Things and Robotics”

Duration: 06-09-2021to18-09-2021

Resource Persons:

- Dr. B. K. C. Ganesh, Managing Director, Print- 3D Technologies, Tirupati
 - Team Print- 3D Technologies, Tirupati
- Phone: 9885425863
Mail Id:bkcganesh@gmail.com

Objectives of the program:

1. To impart the basic knowledge & training on 3D Printing, Internet of Things and Robotics
2. To help the students in convert any 2D drawing into 3D objects by using 3S Max software and also to create various projects in Robotics and Aurdino.

Topics Covered:

- Introduction to design thinking
- Demonstration of a 3D Printer
- Robotics2Rural: Innovation Teaching and Research approaches
- Transformation: Using HMT module of Robo analyser
- Fun with Robotics Programming
- Arduino Programming
- Introduction and hands on training on sensors and actuators
- Projects on robotic and many more
- Applications of IoT
- IoT Digital Lettering

Outcomes of the program:

- Students able to understanding basic commands in 3S Max and fabricate the objects in 3D printing.
- Students able to write basic program for motions of robotic arms and traffic lights display

No. of students enrolled the course: 95

No. of students completed the course: 92

SESHADRI RAO GUDLAVALLERU ENGINEERING COLLEGE
SESHADRI RAO KNOWLEDGE VILLAGE::GUDLAVALLERU
DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Date: 06-02-2022

CIRCULAR

The department of Electronics and Communication Engineering is organizing a two-week Value-Added Course on **"Smart System Design using IoT"** from 13-02-2022 to 25-02-2022 for IV B. Tech students of all the branches. Hence all UG students are informed to enroll and attend the course.

About The College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college offers B.Tech. programmes in six branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, with a total intake of 1080. It also offers five PG programmes in Engineering (M.Tech) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014. All the eligible branches of engineering are accredited by NBA and NAAC.

About The Department:

The Department of Electronics and Communication Engineering started functioning from the academic year 1998 for B.Tech Course. The department is also offering M.Tech course in Embedded Systems (from the academic year 2008-09). Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of like-minded persons for success. The Department is recognized as Research centre by JNTUK University, Kakinada. The department has well qualified staff specialized in Microelectronics, Instrumentation and Control, Digital Systems & Computer Electronics, Digital Communication and Networks, Systems & Signal Processing, Microwave Engineering, VLSI Design.

Convenor:

Dr.Y.Ramakrishna, Professor and HOD, Department of ECE

Coordinator:

Sri N.Sambamurthy, Assistant Professor, Department of ECE
Ph. No.: 8919135139

Eligibility:

All IV B. Tech Students

Registration fee:

Rs. 250

Gudlavalluru Engineering College
Seshadri Rao Knowledge Village
Gudlavalluru - 521 356, Krishna District. A.P.

Resource Person's Profile:

- Mr. Madhu Parvathaneni, Managing Director, Madblocks Technologies Limited, Hyderabad.
Ph. No.: 9934567345
- MadBlocks Technologies Private Limited mission is to build a community which recreates the innovation in campus and these innovations leads to great potential startups in campus.

About the Value-Added Course:

The VAC is formulated to enhance the knowledge and skill of the participants in various advance issues related to IoT design and applications.

Major Course Contents:

- Overview of IoT
- Arduino Platform
- Sensors and Motors Interfacing
- Data Collection and processing
- Think-Speak IoT Cloud Applications
- Datasets and Machine Learning

Course Objectives:

- To introduce the advanced concepts in IoT.
- To familiarize the digital technologies in various fields with the advent of IoT.

Expected Course Outcomes:

Upon successful completion of the training, the students will be able to

- demonstrate the advantages of IoT technologies.
- describe the concepts of Data Collection and processing.
- analyze the Think-Speak Cloud in IoT Applications.
- explore various Datasets and Machine Learning.

A Two-Week Value-Added Course on

“Smart System Design using IoT”

13th to 25th February, 2022

Course Schedule

S. No.	Date	Topics
1	13-02-2022	Introduction and Applications of IoT
2	14-02-2022	Basic Architecture of IoT
3	15-02-2022	Basics of Arduino Platform
4	16-02-2022	Interfacing Basic Electronics with Arduino
5	17-02-2022	Sensors and Motors Interfacing
6	18-02-2022	MQTT Protocol and applications using IoT
7	20-02-2022	Data Collection and processing from remote hardware devices
8	21-02-2022	Think-Speak IoT Cloud Architecture
9	22-02-2022	Controlling of devices through Think-Speak IoT Cloud
10	23-02-2022	Datasets and Machine Learning
11	24-02-2022	Deep Learning
12	25-02-2022	Case Studies

Department of Electronics and Communication Engineering A Two-Week Value-Added Course on “Smart System Design using IoT”

Report

Title of the course: “Smart System Design using IoT”

Duration: 13-02-2022 to 25-02-2022

Resource Persons:

- Mr. Madhu Parvathaneni, Managing Director, Madblocks Technologies Limited, Hyderabad.
Ph. No.: 9934567345

Course Objectives:

- To introduce the advanced concepts in IoT.
- To familiarize the digital technologies in various fields with the advent of IoT.

Topics Covered:

- Overview of IoT
- Arduino Platform
- Sensors and Motors Interfacing
- Data Collection and processing
- Think-Speak IoT Cloud Applications
- Datasets and Machine Learning

Course Outcomes:

- The students demonstrated the advantages of IoT technologies.
- The students applied the Think-Speak Cloud in IoT Applications
- The students explored various Datasets and Machine Learning.

No. of students enrolled the course: 256

No. of students completed the course: 254

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Date: 01-11-2021.

CIRCULAR

The department of Electronics and Communication Engineering is organizing a two-week Value-Added Course on **"Digital System Design Using Verilog "** from 08-11-2021 to 20-11-2021 for III B. Tech students of all the branches. Hence all UG students are informed to enroll and attend the course.

SESHADRI RAO KNOWLEDGE VILLAGE: GUDLAVALLERU

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

A Two-Week Value-Added Course on "Digital System Design Using Verilog"

08th to 20th November, 2021

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. Programmes in six branches of Engineering and also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014. All the eligible branches of engineering are accredited by NBA and NAAC.

About The Department:

The Department of Electronics and Communication Engineering started functioning from the academic year 1998 for B.Tech Course. The department is also offering M.Tech course in Embedded Systems (from the academic year 2008-09). The department has well qualified staff specialized in Microelectronics, Instrumentation and Control, Digital Systems & Computer Electronics, Digital Communication and Networks, Systems & Signal Processing, Microwave Engineering, VLSI Design.

About the Value-Added Course:

To enhance the technical skills in front end VLSI design and Verilog HDL coding of B.Tech students, A Two Week Value Added Course on "Digital System Design Using Verilog", is being organized by Department of Electronics and Communication Engineering, Gudlavalluru Engineering College and LUCID VLSI, Hyderabad.

Course Objectives:

- To introduce various process VLSI system design flow.
- To familiarize the participants in multidisciplinary team-based approach for engineering problem solving.

Major Course Contents:

- Verilog basics and Procedural blocks
- Combinational and Sequential Circuits
- Finite state machines/ASM and Static Timing analysis
- Clock generation and VLSI design process

Expected Course Outcomes:

At the end of the course, the students will be able to

- design and implement digital circuits using Verilog.
- achieve integrated system-level solutions.
- perform synthesis and simulation process of digital circuits

Resource Person:

Er. Raja Bandi, Founder and Director, Lucid VLSI, Hyderabad.
Phone no.: 9949954576, Email: raja@lucidvlsi.com

Convener:

Dr. Y.Ramakrishna, Professor & HOD, Department of ECE

Coordinator:

Sri Y.Sri Chakrapani, Associate Professor, Department of ECE, Ph No.: 9912629700

Target Audience:

III B.Tech Students

Registration Fee:

Rs. 200

LUCID VLSI
Learning Unlimited. Coding InDelible

Department of Electronics and Communication Engineering A Two-Week Value-Added Course on “Digital System Design Using Verilog” Report

Title of the course: “Digital System Design Using Verilog”

Duration: 08-11-2021 to 20-11-2021

Resource Persons:

- Er. Raja Bandi, Founder and Director, Lucid VLSI, Hyderabad.
Phone no.: 9949954576, Email: raja@lucidvlsi.com

Objectives of the program:

- To introduce various process in VLSI system design flow.
- To familiarize the concepts of Verilog HDL.

Topics Covered:

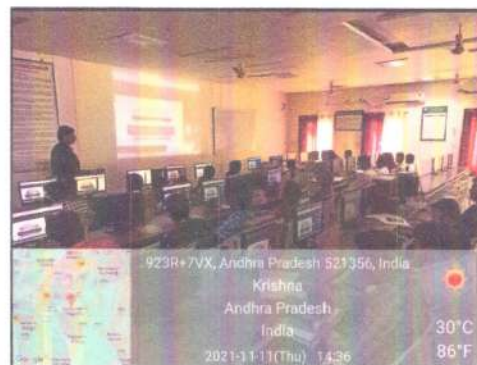

- Verilog basics
- Procedural blocks
- Combinational and Sequential Circuits
- Finite state machines/ASM
- Static Timing analysis
- Clock generation
- VLSI design process

Outcomes of the program:

- The students designed and implemented digital circuits using Verilog.
- The students performed synthesis and simulation process in VLSI design flow.
- The students demonstrated the software tools for Verilog Programming.

No. of students enrolled the course: 262

No. of students completed the course: 260

Date: 26-09-2021.

CIRCULAR

The department of Electronics and Communication Engineering is organizing a two-week Value-Added Course on **"Python Programming"** from 04-10-2021 to 16-10-2021 for II B. Tech students of all the branches. Hence all UG students are informed to enroll and attend the course.

About The College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college offers B.Tech. programmes in six branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, with a total intake of 1080. It also offers five PG programmes in Engineering (M.Tech) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014. All the eligible branches of engineering are accredited by NBA and NAAC.

About The Department:

The Department of Electronics and Communication Engineering started functioning from the academic year 1998 for B.Tech Course. The department is also offering M.Tech course in Embedded Systems (from the academic year 2008-09). Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of likeminded persons for success. The Department is recognized as Research centre by JNTUK University, Kakinada. The department has well qualified staff specialized in Microelectronics, Instrumentation and Control, Digital Systems & Computer Electronics, Digital Communication and Networks, Systems & Signal Processing, Microwave Engineering, VLSI Design.

Convenor:

Dr.Y.Ramakrishna, Professor and HOD, Department of ECE

Coordinator:

Sri B.Vamsi Krishna, Assistant Professor, Department of ECE
Ph. No.: 8919135139

Eligibility:

All II B. Tech Students

Registration fee:

Rs. 250

PRINCIPAL
Seshadri Rao
Gudlavalluru Engineering College
Seshadri Rao Knowledge Village
Gudlavalluru - 521 356, Krishna District, A.P.

Resource Person's Profile:

- Ms. K.Veera Vanitha (Trainer cum Developer)
APSSDC, Govt. of Andhra Pradesh.
- Ms. M.Ruthumma (Trainer cum Developer)
APSSDC, Govt. of Andhra Pradesh.

About the Value-Added Course:

The VAC is formulated to enhance the knowledge and skill of the participants in python programming. The Python program is a scripting language that can be used for development, coding websites and applications, processing images, scientific data, and more.

Major Course Contents:

- Python Introduction
- Programming Constructs
- Functional Programming
- Python Packages and modules
- Pandas
- Data Frames and Data Visualization

Course Objectives:

- To provide basic knowledge of Python.
- To familiarize the development of Python programming for different applications.

Expected Course Outcomes:

Upon successful completion of the training, the students will be able to

- demonstrate Python Programming constructs.
- describe the concepts of Functional Programming.
- solve various problems using python.
- explore various Data Frames and Visualization.

A Two-Week Value-Added Course on “Python Programming”

04th to 16th October, 2021

Report

Title of the course: “Python Programming”

Duration: 04-10-2021 to 16-10-2021

Resource Persons:

- Ms. K.Veera Vanitha (Trainer cum Developer), APSSDC, Govt. of Andhra Pradesh
Ph. No.: 7710292453
- Ms. M.Ruthumma (Trainer cum Developer), APSSDC, Govt. of Andhra Pradesh
Ph. No.: 9848217897

Course Objectives:

- To provide basic knowledge of Python.
- To familiarize the development of Python programming for different applications.

Topics Covered:

- Python Introduction
- Programming Constructs
- Functional Programming
- Python Packages and modules
- Pandas
- Data Frames and Data Visualization

Course Outcomes:

- The students demonstrated the basic constructs of python.
- The students applied Python Programming for different Applications
- The students explored various Data Frames and Visualization.

No. of students enrolled the course: 272

No. of students completed the course: 270

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CIRCULAR

Date: 01-09-2022

The department of Computer Science Engineering is organizing a two-week Value-Added Course on “**Oracle Data Analytics**” from 05-09-2022 to 17-09-2022 for UG students of all the branches. Hence all the III B. Tech students are informed to enroll the course on or before 03-09-2022.

ABOUT SRGEC

Seshadri Rao Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

Resource Person

Dr. K. V. D. SAGAR, Associate Professor, KLU

working as an Associate Professor in the Department of Electronics and computer Engineering at K L University, Vaddeswaram, Guntur, Andhra Pradesh, India. Research interested areas are cloud computing, data science, AI, IoT, ML, DeepLearning, ANN,

Objectives of the Program

- Master Oracle data analytics tools and techniques.
- Develop insightful data Analysis skills.
- Support decision-making and business intelligence.

Course Contents

- Introduction to Oracle Database
- Oracle Database Concepts.
- Basic SQL querying and filtering
- SQL and PL/SQL.
- Indexing strategies and performance considerations
- Data integration techniques with Oracle tools
- Data cleaning and preprocessing.
- Data Visualization.

Platform: Microsoft Teams

Eligibility: All III B.Tech Students
Registration is free

ABOUT THE COURSE

Oracle Data Analysis is a comprehensive suite of tools and technologies that enables organizations to perform data analysis and derive insights from large datasets. It includes various components such as Oracle Database, Oracle Analytics Cloud, Oracle Business

Intelligence, Oracle Data Visualization, and more.

Oracle Data Analysis offers a wide range of features and functionalities to support data analysis tasks. It allows users to extract, transform, and load data into Oracle databases, perform advanced querying using SQL and PL/SQL, and leverage powerful analytical functions to uncover patterns and trends.

With Oracle Data Analysis, users can clean and preprocess data, perform statistical analysis, predictive modeling, and data mining tasks. The suite also provides data visualization capabilities to create interactive dashboards, reports, and visual representations of data, making it easier to interpret and communicate insights.

Expected Outcomes of the course

- Proficiency in Oracle Data Analysis Tools.
- Strong Data Analysis Skills.
- Enhanced Career Opportunities.
- Effective Decision-Making.
- Improved Business Efficiency and Performance.

Program Schedule for Value Added Course titled "Oracle Data Analytics"

05-09-2022 to 17-09-2022

S.No	Date	Topics Covered
1	05-09-2022	<ul style="list-style-type: none">• Overview of Oracle data analysis• Importance and benefits of Oracle data analysis in organizations
2	06-09-2022	<ul style="list-style-type: none">• Introduction to Oracle Database• Understanding database objects (tables, views, indexes, etc.) SQL querying in Oracle Database.
3	07-09-2022	<ul style="list-style-type: none">• Basic SQL querying and filtering• Sorting and aggregating data• Advanced SQL concepts (subqueries, joins, set operations, etc.)
4	08-09-2022	<ul style="list-style-type: none">• Handling missing values• Removing duplicates• Data quality assessment and improvement
5	09-09-2022	<ul style="list-style-type: none">• Window functions and analytical queries• Ranking and partitioning data• Pivoting and unpivoting data
6	10-09-2022	<ul style="list-style-type: none">• Introduction to Oracle Analytics Cloud• Creating visualizations with Oracle Data Visualization Desktop• Designing interactive dashboards with Oracle Business Intelligence
7	12-09-2022	<ul style="list-style-type: none">• Introduction to statistical analysis in Oracle• Building predictive models using Oracle data mining techniques• Implementing machine learning algorithms in Oracle
8	13-09-2022	<ul style="list-style-type: none">• Indexing strategies and performance considerations• Query optimization techniques• Partitioning and parallel processing for performance improvement
9	14-09-2022	<ul style="list-style-type: none">• Extract, Transform, Load (ETL) processes• Data integration techniques with Oracle tools• Designing and implementing data warehouses in Oracle
10	15-09-2022	<ul style="list-style-type: none">• User and role management• Data encryption and access control mechanisms• Ensuring data privacy and compliance
11	16-09-2022	<ul style="list-style-type: none">• Integration of Oracle data analysis with big data technologies• Leveraging Oracle Cloud for data analytics• Real-time analytics with Oracle Stream Analytics

S.No	Date	Topics Covered
12	17-09-2022	<ul style="list-style-type: none"> • Industry-specific examples of Oracle data analysis • Real-world use cases and success stories • Hands-on exercises and projects to apply Oracle data analysis techniques • Latest advancements in Oracle data analysis • Exploring emerging technologies (AI, IoT, blockchain) in Oracle data analysis • Ethical considerations and challenges in Oracle data analysis

Summary Report on Value Added Course titled “Oracle Data Analytics”

05-09-2022 to 17-09-2022

Title of the course: “Oracle Data Analytics”

Duration: 05-09-2022 to 17-09-2022

Resource Person:

Dr. K. V. D. SAGAR, Associate Professor, KLU
Mobile Number: +91 9885182669

Objectives of the program:

- Master Oracle data analytics tools and techniques.
- Develop insightful data Analysis skills.
- Support decision-making and business intelligence.

Topics Covered:

- Introduction to Oracle Database
- Oracle Database Concepts.
- Basic SQL querying and filtering
- SQL and PL/SQL.
- Indexing strategies and performance considerations
- Data integration techniques with Oracle tools
- Data cleaning and preprocessing.
- Data Visualization.

Outcomes of the program:

- Proficiency in Oracle Data Analysis Tools.
- Strong Data Analysis Skills.
- Enhanced Career Opportunities.
- Effective Decision-Making.
- Improved Business Efficiency and Performance

No.of students enrolled the course: 200

No.of students completed the course: 195

ABOUT SRGEC

Seshadri Rao Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the

country reflect the performance of the department

Resource Person

Harideep Kajjayam, APSSDC

working as a trainer from the past 5 years in Andhra Pradesh State Skill Development Corporation as a multi skill trainer and having sound knowledge on PHP, C, Data Structures, Raptor, Python, MIT App Inventor, Git & Github and organized boot camp for faculty in MITS College - Madanapalle on Data Structures & Algorithms.

Email-id: harideep.k@apssdc.in

Mobile Number: +91 8886520096

Objectives of the Program

- Describe those aspects of mobile programming that make it unique from programming for other platforms
- Critique mobile applications on their design pros and cons
- Utilize rapid prototyping techniques to design and develop sophisticated mobile interfaces
- Program mobile applications for the Android operating system that use basic and advanced phone features
- Deploy applications to the Android market place for distribution

Course Contents

- Introduction to Mobile Application Development
- Installing and Version control
- Basic User Interface Screen elements
- Designing User Interfaces with Layouts.
- Using Content Providers,
- Handling Persisting Data.
- JSON Web Service.
- drawing 2D and 3D Graphics and Multimedia
- Drawing and Working with Animation
- Networking
- Telephony and Location
- Android Networking
- Web and Telephony API Search, Location and Mapping, Publishing.

Platform: Microsoft Teams

Eligibility: All III B.Tech Students
Registration is free

About the Course

Mobile Application Development value added course is designed for the learner able to use the development tools in the Android development environment, use the major components of Android API to develop their own apps, describe the lifecycles of Activities, Applications and Fragments, use the Java programming language to build Android apps, make UI-rich apps using all the major UI components, store and manipulate data using Content Providers, Shared

Preferences and Notifications, do background processing with Services and Async Tasks, utilize sensors to add orientation and location to their apps, send and receive SMS messages programmatically, package and prepare their apps for distribution on the Google Play Store.

Mobile apps permit the users to have functional access to products, information, process, and services that they would demand in real-time. Moreover, it enables the business to send notifications about changes in products and services or something new. Even without

Expected Outcomes of the course

- Install and configure Android application development tools.
- Design and develop user Interfaces for the Android platform.
- Save state information across important operating system events.
- Apply Java programming concepts to
- Android application development.

Program Schedule for Value Added Course titled "Mobile Application Development"

02-05-2022 to 14-05-2022

S.No	Date	Topics Covered
1	02-05-2022	Introduction to Mobile Application Development <ul style="list-style-type: none">• Components
2	03-05-2022	Installing and Version control
3	04-05-2022	Basic User Interface Screen elements <ul style="list-style-type: none">• Views• Controls
4	05-05-2022	Designing User Interfaces with Layouts <ul style="list-style-type: none">• Creating Layouts Using XML Resources• Creating Layouts Programmatically• Built in Layouts
5	06-05-2022	Using Content Providers
6	07-05-2022	Handling Persisting Data <ul style="list-style-type: none">• Storage options• SQLite Database
7	09-05-2022	JSON Web Service.
8	10-05-2022	drawing 2D and 3D Graphics and Multimedia
9	11-05-2022	Drawing and Working with Animation
10	12-05-2022	Networking
11	13-05-2022	Telephony and Location, Android Networking <ul style="list-style-type: none">• Integration of UI• Lookups• Connections
12	14-05-2022	Web and Telephony API Search, Location and Mapping, Publishing <ul style="list-style-type: none">• Content• Types• Location updations• Mappings

Summary Report on Value Added Course titled "Mobile Application Development"

02-05-2022 to 14-05-2022

Title of the course: "Mobile Application Development"

Duration: 02-05-2022 to 14-05-2022

Resource Person:

Harideep Kajjayam, APSSDC

Mobile Number: +91 8886520096

Objectives of the program

- Describe those aspects of mobile programming that make it unique from programming for other platforms
- Critique mobile applications on their design pros and cons
- Utilize rapid prototyping techniques to design and develop sophisticated mobile interfaces
- Program mobile applications for the Android operating system that use basic and advanced phone features
- Deploy applications to the Android marketplace for distribution

Topics Covered

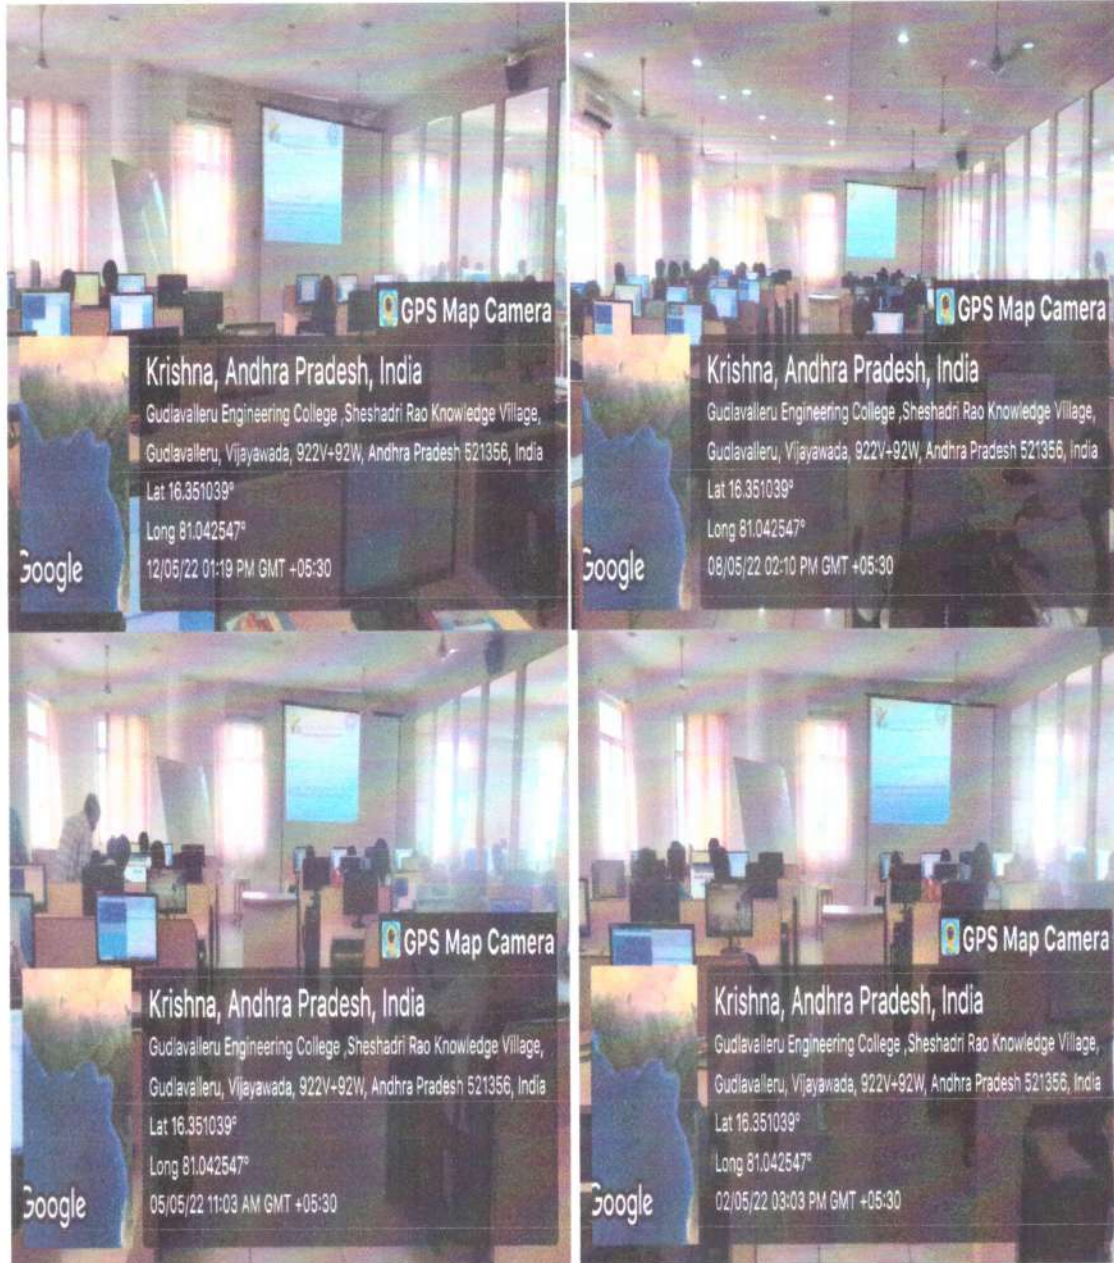

- Introduction to Mobile Application Development
- Installing and Version control
- Basic User Interface Screen elements
- Designing User Interfaces with Layouts.
- Using Content Providers
- Handling Persisting Data.
- JSON Web Service.
- drawing 2D and 3D Graphics and Multimedia
- Drawing and Working with Animation
- Networking
- Telephony and Location
- Android Networking
- Web and Telephony API Search, Location and Mapping, Publishing.

Outcomes of the program

- Install and configure Android application development tools.
- Design and develop user Interfaces for the Android platform.
- Save state information across important operating system events.
- Apply Java programming concepts to
- Android application development.

No. of students enrolled the course: 200

No. of students completed the course: 196

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CIRCULAR

Date: 26-01-2022

The department of Computer Science Engineering is organizing a two-week Value-Added Course on “**Touch and Augmented Reality**” from 31-01-2022 to 12-02-2022 for UG students of all the branches. Hence all the III B. Tech students are informed to enroll the course on or before 28-01-2022.

ABOUT SRGEC

Seshadri Rao Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech. and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

Resource Person

Dr. P. Pandarinath, Professor of CSE

working as Professor in the Computer Science & Engineering and Principal of Swarnandhra Institute of Engineering & Technology.

Eager to bring Engineering students into the twenty first century using a unique combination of educational experience coupled with 23 years Teaching background in Computer Science & Engineering.

Plan and instruct each area of subject using wide variety of teaching aids, motivational and implementation strategies to engage students in active learning. Incorporate learning modality principles into classroom and individual instruction. Develop and conduct inter-grade activities.

Utilize Heath automated math management system. Implement technological approaches to subject material. Research educational resources on the Internet. Assist with information retrieval.

Email-id: sriram310@gmail.com

Mobile Number: + 91 9100728999

Objectives of the Program

- To introduce the concept of Touch and Augmented Reality.
- To explore AR is intended to enhance the virtual world and the real world.

- Augmented reality (AR) development platforms provide tools to create AR products that superimpose computer-generated images into the real world.

Course Contents

- Introduction to Augmented Reality
- Augmented Reality Object Recognition
- Augmented Reality Object Recognition
- Building blocks of Augmented Reality
- Types of Markerless AR
- Working Process of Augmented Reality
- Examples of AR Object Recognition in Action

Platform: Microsoft Teams

Eligibility: All III B.Tech Students
Registration is free

ABOUT THE COURSE

The practical exposure is must important for engineering undergraduate students, but the software programs can provide an additional support to them for better and easy learning. Innovative technologies transform science fiction into reality, and AR is undoubtedly one of them. Holograms, like in the Star Wars and the Marvel movies, now surround us in the real world, bringing a new immersive experience, and it's more than just entertainment. Today, augmented reality is an effective business tool.

Across a number of different industries like retail, business, gaming,

healthcare, and even the military, augmented reality is used for solving various business challenges. It's important to keep an eye on these technologies to know where the industry is heading. As we discuss these 12 augmented reality trends making moves in 2023, think about how these solutions may benefit your own business.

Expected Outcomes of the course

- Students can significantly improve the learning experience by supplementing the real world with virtual objects in real-time.
- Students will be able to Learn AI makes ar work better
- Students will be able to learn the Augmented Reality.

Summary Report on Value Added Course titled "Touch and Augmented Reality"

02-05-2022 to 14-05-2022

Title of the course: "Touch and Augmented Reality"

Duration: 31-01-2022 to 12-02-2022

ResourcePerson:

Dr. P. Pandarinath, Principal, Swarnandhra Institute of Engineering & Technology
Mobile Number: + 91 9100728999

Objectives of the program:

- To introduce the concept of Touch and Augmented Reality.
- To explore AR is intended to enhance the virtual world and the real world.
- Augmented reality (AR) development platforms provide tools to create AR products that superimpose computer-generated images into the real world.

Topics Covered:

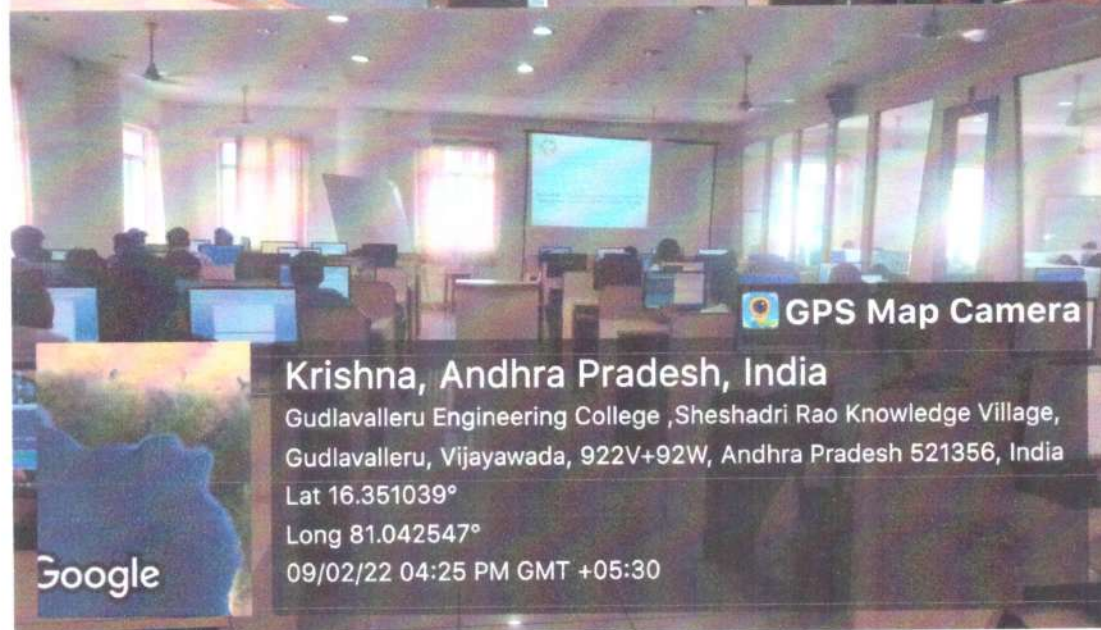

- Introduction to Augmented Reality
- Augmented Reality Object Recognition
- Augmented Reality Object Recognition
- Building blocks of Augmented Reality
- Types of Markerless AR
- Working Process of Augmented Reality
- Examples of AR Object Recognition in Action

Outcomes of the program:

- Students can significantly improve the learning experience by supplementing the real world with virtual objects in real-time.
- Students will be able to Learn AI makes are work better
- Students will be able to learn the Augmented Reality.

No.of students enrolled the course: 200

No.of students completed the course: 198

DEPARTMENT OF INFORMATION TECHNOLOGY

CIRCULAR

Date: 01-12-2021

The department of Information Technology is organizing a two-week Value-Added Course on "AWS Cloud Foundation-Edu Skills" in Information Technology from 06-12-2021 to 31-12-2021 by A. Koteswaramma, Assistant Professor of IT for UG students of all the branches. Hence all the IV year B. Tech students are informed to enroll the Course.

Gudlavalluru - 521 356, Krishna District.A.P.**

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

Resource Persons:

- A. Koteswaramma, Assistant professor, SRGEC, Gudlavalleru.

Objective of the Program:

- Recognize the purpose of the AWS Academy Cloud Foundations course.

Topics:**Cloud concepts**

- Cloud economics and billing
- AWS Global Infrastructure
- AWS Cloud security
- Networking and content delivery
- Computation

Platform:

Microsoft Teams

Eligibility: All III B. Tech Students

Registration is free

About the course:

The Amazon Web Services (AWS) provides computing resources and services that you can use to build applications within minutes at pay-as-you-go pricing. For example, you can rent a server on AWS that you can connect to, configure, secure, and run just as you would a physical server. The difference is the virtual server runs on top of a planet-scale network managed by AWS. You pay for your virtual server only while it runs, with no up-front purchase costs or ongoing maintenance costs. Backed by the AWS network, your virtual server can do things no physical server can, such as automatically scaling into multiple servers when demand for your application increases. Using AWS to build your Internet application is like purchasing electricity from a power company instead of running your own generator, and it provides many of the same benefits: capacity exactly matches your need, you pay only for what you use, economies of scale result in lower costs, and the service is provided by a vendor experienced in running large-scale networks.

Expected Outcomes of the course:

After completing this course, you should be able to:

- Define the AWS Cloud.
- Explain the AWS pricing philosophy.
- Identify the global infrastructure components of AWS

Resource person profile:

Report on Value Added Course titled "AWS Cloud Foundation-Edu Skills"
06-12-2021 to 31-12- 2021

Title of the course: "AWS Cloud Foundation-Edu Skills"

Duration: 06-12-2021 to 31-12- 2021

Resource Persons:

- Mrs. A. Koteswaramma, Gudlavalleru, Engineering College, Gudlavalleru,

Objectives of the program:

- Recognize the purpose of the AWS Academy Cloud Foundations course.

Topics Covered:

- Cloud concepts
- Cloud economics and billing
- AWS Global Infrastructure
- AWS Cloud security
- Networking and content delivery
- Computation
- Storage
- Databases
- Cloud architecture
- Automatic scaling and monitoring

Outcomes of the program:

After completing this course, you should be able to:

- Define the AWS Cloud.
- Explain the AWS pricing philosophy.
- Identify the global infrastructure components of AWS

No. of students enrolled the course: 82

No. of students completed the course: 78

DEPARTMENT OF INFORMATION TECHNOLOGY

CIRCULAR

Date: 31-12-2021

The department of Information Technology is organizing a two-week Value-Added Course on **"Blue Prism Foundation"** in Information technology from 02-01-2022 to 15-01-2022 by **Mrs. Ch.Pooja Rani, Assistant Professor, IT** for UG students of all the branches. Hence all the III B. Tech students are requested to enroll.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

Resource Persons:

- Ch. Pooja Rani, Assistant professor,
SRGEC, Gudlavalluru,
Ph No: 7416761317

Objective of the Program:

- This course is aimed at an audience interested in Robotic Process Automation

Topics:

- Process Studio
- Introduction to Process Flow
- Introduction to Inputs and Outputs
- Business Objects
- Object Studio
- Exception Management Overview
- Exception Handling
- Additional Features

Platform:

Microsoft Teams

Eligibility: All III B. Tech Students

Registration is free

About the course:

Blue Prism is the global leader in robotic process automation (RPA) and intelligent automation for the enterprise, transforming the way work is done by empowering businesses to automate time-intensive, mundane tasks and to help free-up their employees to be more creative and innovative.

In this course, Blue Prism Foundation Training provides a comprehensive introduction to all of the key concepts and activities associated with configuring a Blue Prism Process Solution. It is also the principal activity on the Developer up skilling pathway, should learners wish to attain certified Developer status.

Over the course of 12 guided weeks you will learn how to build, test, publish and manage Blue Prism process automation.

With a comprehensive learning experience ensured via our joint approach to delivery: -The Course era platform will provide you with instructions for each week in the form of video demos and activity sheets, which will also explain each of the technical concepts you will encounter -You will then put this knowledge into practice, by building your own process automation within Blue Prism -The training concludes with an extended exercise for consolidating your skills and with signposting to further learning This course contains subtitles in English, Japanese, Simplified Chinese, Russian, Spanish, French, Portuguese and German.

Expected Outcomes of the course:

After completing this course, Students will be able to:

- Gain foundational knowledge of Blue Prism development
- Use or understanding of the process studio
- Use or understanding of process flow
- Use or understanding of inputs and outputs
- Use or understanding of business objects

Summary Report on Value Added Course titled "Blue Prism Foundation"
02-01-2022 to 15-01-2022

Title of the course: "Blue Prism Foundation Training"

Duration: 02-01-2022 to 15-01-2022

Resource Persons:

- Mrs. Ch.Pooja Rani, Gudlavalleru, Engineering College, Gudlavalleru,

Objectives of the program:

- This Course is aimed at an audience interested in Robotic Process Automation

Topics Covered:

- Introduction
- Process Studio
- Process Flow
- Inputs and Outputs
- Business Objects
- Object Studio
- Overview of Error and Case Management
- Case Management
- Additional features
- Consolidation exercise
- Advanced features

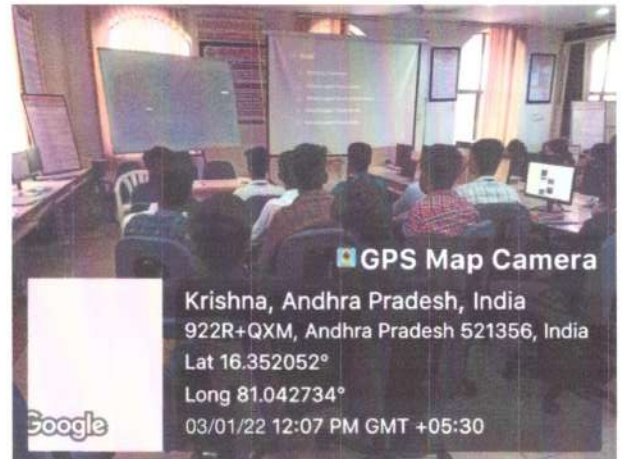

Outcomes of the program:

After completing this course, you should be able to:

- Gain Foundational knowledge of Blue Prism Development
- Elaborate the Process studio
- Explain the Process Flow
- Describe the Inputs and Outputs
- Implements business objects.

No. of students enrolled the course: 82

No. of students completed the course: 77

DEPARTMENT OF INFORMATION TECHNOLOGY

CIRCULAR

Date: 24-11-2021

The department of Information Technology is organizing a Value-Added Course on "Big IoT Platform" in Information Technology from 29-11-2021 to 11-12-2021 by **Vijaya Srinivas Smart Solutions Pvt Ltd, Hyderabad, Telangana** for UG students of all the branches. Hence all the II B.Tech students are informed to enroll.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

Resource Person:

**Vijaya Srinivas, Smart Solutions
Pvt Ltd, Hyderabad, Telangana.**

Objective of the Program:

**To gain the knowledge about Connection among
Network Devices and their Security.**

Topics:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verifies network connectivity between devices. Explain how the upper layers of the OSI model support network applications.

Platform:

Microsoft Teams

Eligibility: All II B. Tech Students

Registration is free

About the course:

Begin preparing for a networking career with this introduction to how networks operate. This first course in the 3-course CCNA series introduces architectures, models, protocols, and networking elements – functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers.

You'll even get the chance to build simple local area networks (LANs). Developing a working knowledge of IP addressing schemes, foundational network security, you'll be able to perform basic configurations for routers and switches.

Start learning the basics of computer networking and discover how networks operate.

Expected Outcomes of the course:

Students will be able

- To provide connectivity between remote devices.
- Configure a small network with security of OSI layers.

Resource Person Profile:

*Vijaya Srinivas, Smart Solutions
Pvt Ltd, Hyderabad, Telangana.
Achievements: IOT Trainer*

Program Schedule for Value Added Course titled "Big IoT platform "

29 November– 11 December 2021

S.No	Dates	Topics to be covered
1	29/11/2021	• Introduction to Big IoT and Fundamentals of Arduino Uno R3
2	30/11/2021	• Explanation on Sensors 3,4,5,6 & 7
3	01/12/2021	• Explanation on IoT Physical Layer Protocols
4	02/12/2021	• Explanation on IoT Protocols
5	03/12/2021	• Explanation on overview of Python
6	04/12/2021	• Introduction on IBM Watson IoT
7	06/12/2021	• Explanation on on IBM Watson IoT
8	07/12/2021	• Creation of Socket Programming
9	08/12/2021	• Practicing Socket Programming
10	09/12/2021	• Explanation on Amazon Web Services
11	10/12/2021	• Explanation on Amazon Web Services
12	11/12/2021	• Practice the consolidation exercise and advanced features

Summary Report on Value Added Course titled "Big IoT Platform"
29-11-2021 to 11-12-2021

Title of the course: "Blue Prism Foundation Training"

Duration: 29-11-2021 to 11-12-2021

Resource Persons:

Vijaya Srinivas Smart Solutions ,Pvt Ltd, Hyderabad, Telangana.

Objectives of the program:

- This Course is aimed to gain the knowledge about Connection among Network Devices and their Security

Topics Covered:

- Introduction to Big IoT and Fundamentals of Arduino Uno R3
- Explanation on Sensors 3,4,5,6 & 7
- Explanation on IoT Physical Layer Protocols
- Explanation on overview of Python
- Introduction on IBM Watson IoT
- Creation of Socket Programming
- Practicing Socket Programming
- Explanation on Amazon Web Services
- Practice the consolidation exercise and advanced features

Outcomes of the program:

After completing this course, you should be able to:

- Gain knowledge on fundamentals of Arduino Uno R3
- Knowledge on Sensors working
- Skills on Python programming
- Gain knowledge on socket Programming
- Knowledge on Amazon Web services

No. of students enrolled the course: 125

No. of students completed the course: 118

ABOUT SRGEC

Seshadri Rao Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT DEPARTMENT

The Department of Artificial Intelligence & Data Science is one of the pioneer departments of GEC with an intake of 120. The students of this department are being trained for reputed IT companies. Besides the teaching learning process, AI&DS department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence.

ABOUT THE COURSE

Power BI is a business analytics service developed by Microsoft that allows users to analyze and visualize data from a variety of sources. It is a powerful tool that enables organizations to gain insights into their data, make informed decisions, and take action based on those insights.

With Power BI, users can connect to a wide range of data sources, including Excel spreadsheets, cloud-based services like Azure, Salesforce, and Google Analytics, as well as on-premises data sources like SQL Server, Oracle, and other databases. Once the data is connected, users can create interactive visualizations, reports, and dashboards using a drag-and-drop interface.

Power BI also offers advanced features like data modeling, which allows users to create relationships between different data sources and combine them into a single data model. It also provides machine learning capabilities, which can be used to perform predictive analysis and identify patterns and trends in data.

Expected Outcomes of the Course:

- Understand Power BI concepts like Microsoft Power BI desktop layouts, BI reports, dashboards, and Power BI DAX commands and functions
- Gain a competitive edge in creating customized visuals and deliver a reliable analysis of vast amount of data using Power BI
- Learn how to experiment, fix, prepare and present data quickly and easily
- Create a sales analysis report and a project management report
- Form relationships in your data model and learn data visualization best practices

Resource Person

Dr. P. Pandarinath, Professor of CSE, Swarnandhra Institute of Engineering & Technology.

Email-id: sriram310@gmail.com

Mobile Number: + 91 9100728999

Objectives of the program:

- To Understand the fundamentals of POWER BI
- To find insights with in an organizations data
- To create interactive reports

Course Contents

- Visualization
- Datasets
- Reports
- Tiles
- Dashboards

Eligibility

All II-B.Tech Students

Registration Fee:

Students registering for the vale added course are not required to pay any fee.

ABOUT RESOURCE PERSON

Dr. P. Pandarinath, working as Professor in the Computer Science & Engineering and Principal of Swarnandhra Institute of Engineering & Technology.

Eager to bring Engineering students into the twenty first century using a unique combination of educational experience coupled with 23 years Teaching background in Computer Science & Engineering.

Plan and instruct each area of subject using wide variety of teaching aids, motivational and implementation strategies to engage students in active learning. Incorporate learning modality

principles into classroom and individual instruction. Develop and conduct inter-grade activities.

Utilize Heath automated math management system. Implement technological approaches to subject material. Research educational resources on the Internet. Assist with information retrieval.

Summary Report on Value Added Course titled “Power BI in Artificial Intelligence and Data Science” 13-06-2022 to 25-06-2022

Title of the course: “Power BI in Artificial Intelligence and Data Science”

Duration: 13-06-2022 to 25-06-2022

Resource Persons:

Dr. P. Pandarinath, Professor of CSE, Swarnandhra Institute of Engineering & Technology. sriram310@gmail.com, + 91 9100728999

Objectives of the program:

- To Understand the fundamentals of POWER BI
- To find insights with in an organizations data
- To create interactive reports

Topics Covered:

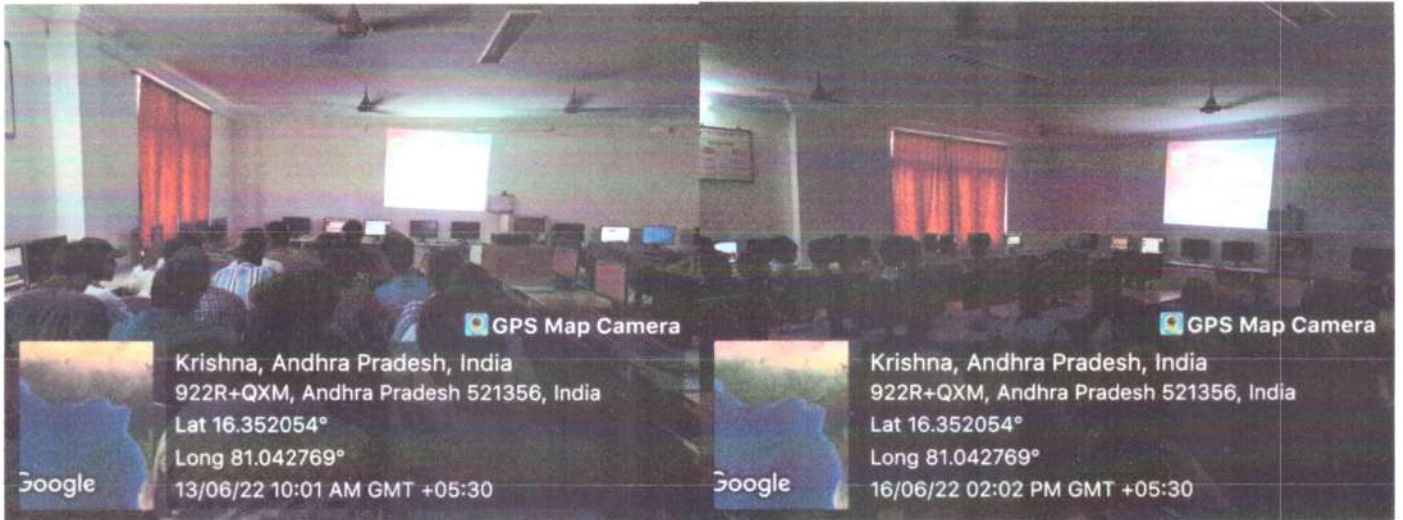

- Basics of Power BI.
- M Language.
- Data Modeling, DAX Functions Types.
- Time Intelligence Functions, Text and Logical Functions.
- Math & Statistical Functions.
- Visualizations, Power BI service.
- Creating Dashboards.

Outcomes of the program:

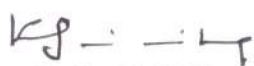

- Understand Power BI concepts like Microsoft Power BI desktop layouts, BI reports, dashboards, and Power BI DAX commands and functions
- Gain a competitive edge in creating customized visuals and deliver a reliable analysis of vast amount of data using Power BI
- Learn how to experiment, fix, prepare and present data quickly and easily
- Create a sales analysis report and a project management report
- Form relationships in your data model and learn data visualization best practices

No. of students enrolled the course: 70

No. of students completed the course: 58

ABOUT SRGEC

Seshadri Rao Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programs, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT DEPARTMENT

The Department of Artificial Intelligence & Data Science is one of the pioneer departments of GEC with an intake of 120. The students of this department are being trained for reputed IT companies. Besides the teaching learning process, AI&DS department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence.

ABOUT THE COURSE

Android application development is the process by which applications are created for devices running the Android operating system. Google states that "Android apps can be written using Kotlin, Java, and C++ languages" using the Android software development kit (SDK), while using other languages is also possible. All non-Java virtual machine (JVM) languages, such as Go, JavaScript, C, C++ or assembly, need the help of JVM language code, that may be supplied by tools, likely with restricted API support. Some programming languages and tools allow cross-platform app support (i.e. for both Android and iOS). Third party tools, development environments, and language support have also continued to evolve and expand since the initial SDK was released in 2008. The official Android app distribution mechanism to end users is Google Play; it also allows staged gradual app release, as well as distribution of pre-release app versions to testers. Android application development also involves understanding the various components of the Android operating system, including activities, services, broadcast receivers, and content providers. These components are used to build the different parts of an app and to handle various types of interactions with the user and with other apps. Another important aspect of Android application development is user interface (UI) design. Android apps must be designed with the user in mind, and this requires an understanding of the various UI components.

Expected Outcomes of the Course:

- Learn how to develop Android apps.
- Understand the Android platform.
- Build real-world projects
- Gain experience with development tools
- Prepare for a career in Android development.

Resource Persons

Harideep Kajjayam, trainer in Andhra Pradesh State Skill Development Corporation, +918886520096, harideep.k@apssdc.in

Objectives of the program:

- Introduction to Android development.
- Fundamentals of Java programming.
- User interface design.
- Working with data.
- Integration with system features.
- Best practices in app development.
- Real-world project experience.

Course Contents

- Basics of Android.
- Android Layouts and Widgets.
- Communication and Media.
- Storage Techniques and Animation in Android.
- Web Services and Customizations of Widgets.
- Advanced Android Concepts.
- Publishing Android Apps on Google Play.

Eligibility

All II-B.Tech Students

Registration Fee:

Students registering for the value added course are not required to pay any fee.

ABOUT APSSDC

Andhra Pradesh State Skill Development Corporation (APSSDC) is a government body established in 2016 to provide skill development training to the youth in Andhra Pradesh, India. APSSDC aims to create a skilled workforce that can meet the industry's demand for skilled manpower and contribute to the state's economic growth.

APSSDC offers various skill development programs, including short-term and long-term courses, apprenticeships, and vocational training programs. The courses are designed to meet the industry's needs, and APSSDC works closely with the industry to identify the skills required for various job roles.

APSSDC collaborates with various institutions, including universities, colleges, training providers, and industry partners, to provide training programs that meet the industry's standards. The courses cover a wide range of industries, including information technology, healthcare, hospitality, tourism, retail, and construction.

Apart from providing skill development training, APSSDC also offers placement assistance to the candidates. The corporation has tie-ups with various companies in Andhra Pradesh, and it helps the trained candidates to get placed in these companies.

Overall, APSSDC is playing a vital role in the skill development of the youth in Andhra Pradesh by providing industry-oriented training programs that help them to be job-ready and contribute to the state's economic growth.

APSSDC has also partnered with various international organizations to provide world-class training programs to its candidates. The partnership with the Australian government, for example, provides training programs in areas such as advanced manufacturing, cyber security, and renewable energy.

Department of Artificial Intelligence and Data Science

Summary Report on Value Added Course titled “Android Application Development in Artificial Intelligence and Data Science” 02-05-2022 and 14-05-2022

Title of the course: “Android Application Development in Artificial Intelligence and Data Science”

Duration: 02-05-2022 to 14-05-2022

Resource Persons:

- Harideep Kajjayam, trainer in Andhra Pradesh State Skill Development Corporation, +918886520096, harideep.k@apssdc.in.

Objectives of the program:

- Introduction to Android development.
- Fundamentals of Java programming.
- User interface design.
- Integration with system features.
- Best practices in app development.
- Real-world project experience.

Topics Covered:

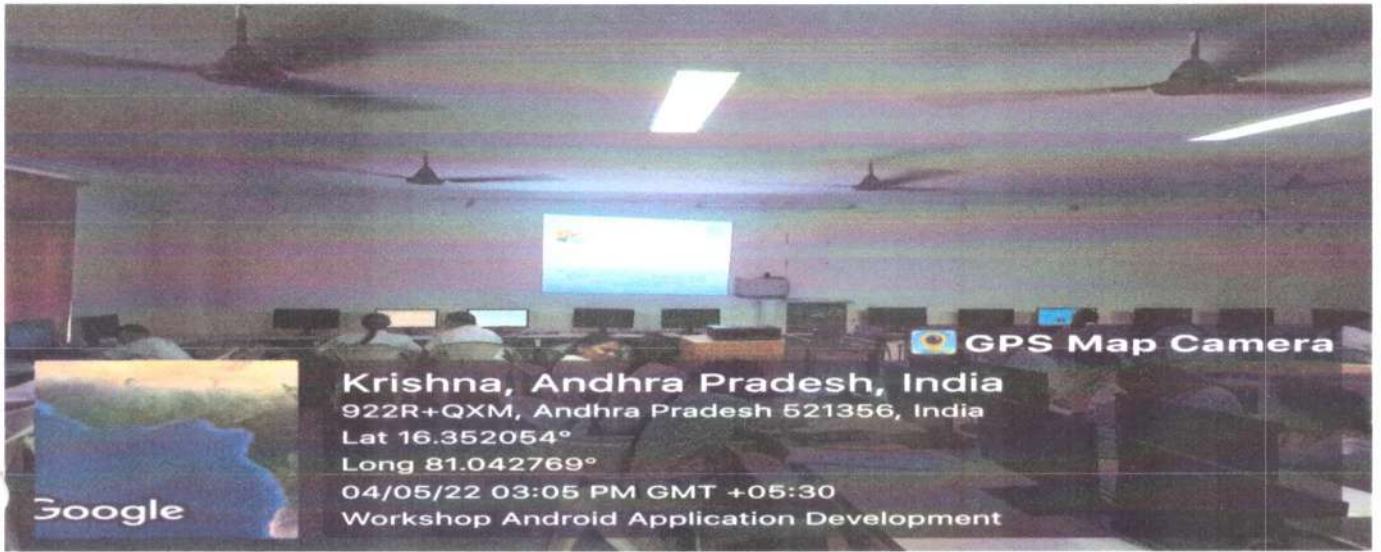

- Basics of Android.
- Android Layouts and widgets.
- Communication and Media.
- Storage Techniques and Animation in Android.
- Web Services and Customizations of Widgets.
- Advanced Android concepts.
- Publishing Android Apps on Google Play.

Outcomes of the program:

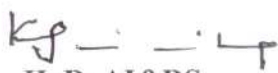

- Students will learn how to develop Android apps.
- Understand the Android platform.
- Build real-world projects.
- Gain experience with development tools.
- Prepare for a career in Android Development.

No. of students enrolled the course: 70

No. of students completed the course: 60

CIRCULAR

31st March 2022

This is to inform the students of II B. Tech that the Department of Artificial Intelligence and Data Science Engineering is organizing two-week value-added course on "Data Analysis Using Python" from 04th April to 18th April 2022. Those who are interested can register their names with the program Co-ordinator Mr. K. Ashok Reddy, Assistant professor, Department of AI&DS.

All II B.Tech Students.

ABOUT SRGEC

Seshadri Rao Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programs, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT DEPARTMENT

The Department of Artificial Intelligence & Data Science is one of the pioneer departments of GEC with an intake of 120. The students of this department are being trained for reputed IT companies. Besides the teaching learning process, AI&DS department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence.

ABOUT THE COURSE

Analyzing data with Python is an essential skill for Data Scientists and Data Analysts. This course will take you from the basics of data analysis with Python to building and evaluating data models.

Students will learn how to import data from multiple sources, clean and wrangle data, perform exploratory data analysis (EDA), and create meaningful data visualizations. They will then predict future trends from data by developing linear, multiple, polynomial regression models & pipelines and learn how to evaluate them.

In addition, students will learn and practice using hands-on labs and projects. They will work with several open-source Python libraries, including Pandas and Numpy to load, manipulate, analyze, and visualize cool datasets. You will also work with scipy and scikit-learn, to build machine learning models and make predictions.

Expected Outcomes of the Course:

- Learn how to use numpy, pandas modules.
- Understand the operations performing on data sets.
- Learn how to analyze the data
- Learn how to implement different types of charts
- Learn how to implement Machine Learning Algorithms

Resource Persons

Dr. Y. Adi Lakshmi, Associate Professor,
SRGEC Gudlavalleru
Mobile: +91 9059826004
laxmi072003@gmail.com

Objectives of the program:

- Ask or Specify Data Requirements
- Prepare or Collect Data
- Clean and Process
- Analyze
- Share
- Act or Report

Course Contents

- Installing and using Jupyter Notebooks
- Numpy Module.
- Pandas Module.
- Plotting Histograms.
- Dealing with missing data, concatenating, merging and joint operations
- Linear Regression.
- Make Predictions and analyze Results

Eligibility

All II-B.Tech Students

Registration Fee:

Students registering for the value-added course is not required to pay any fee.

ABOUT RESOURCE PERSON

Dr. Y. Adi Lakshmi Working as Associate Professor in department of Computer Science and Engineering, Gudlavalleru Engineering College. She has 17 years of experience in this college. She has 23 journal paper publications. And she has 3 conference papers published.

She has membership in professional bodies for Computer Society of India (CSI). She had organized different types of workshops, conferences, seminars attended.

Department of Artificial Intelligence and Data Science

Summary Report on Value Added Course titled “Data Analysis Using Python in Artificial Intelligence and Data Science” 04-04-2022 to 17-04-2022

Title of the course: “Data Analysis Using Python in Artificial Intelligence and Data Science”

Duration: 04-04-2022 to 18-04-2022

Resource Persons:

Adhi Lakshmi Associate Professor in Computer Science and Engineering, Seshadri Rao Gudlavalleru Engineering College, Gudlavalleru. +91 9059826004, laxmi072003@gmail.com

Objectives of the program:

- Ask or Specify Data Requirements
- Prepare or Collect Data
- Clean and Process
- Analyze
- Share
- Act or Report

Topics Covered:

- Installing and using Jupyter Notebooks
- Numpy Module.
- Pandas Module.
- Plotting Histograms.
- Dealing with missing data, concatenating, merging and joint operations
- Linear Regression.
- Make Predictions and analyze Results

Outcomes of the program:

- Learn how to use numpy, panda's modules.
- Understand the operations performing on data sets.
- Learn how to analyze the data
- Learn how to implement different types of charts
- Learn how to implement Machine Learning Algorithms

No. of students enrolled the course: 137

No. of students completed the course: 120

DEPARTMENT OF INTERNET OF THINGS

CIRCULAR

Date: 12-06-2022

The department of Internet of Things is organizing a Two Week Value - Added Course on **“Sensors , Transducers and Instrumentation Principles ”** in Internet of Things from 13-06-2022 to 25-06-2022 for I B Tech II Sem students of IoT, in virtual mode using Microsoft Teams.

Hence, all the students are informed to enroll and attend the course without fail.

Coordinator

EE-VR
AS

Registration Information

- Faculty members working in AICTE approved institutes, Research Scholars and PG students are invited to register and participate in this SDP.
- There is no registration fee.
- Registration form: <https://tinyurl.com/stipsdp>
- 80% attendance is mandatory is desirable to get an e-certificate of successful completion
- The shortlisted members from the registered participants will be communicated 5 days prior to the commencement of SDP.
- For any information about SDP and registration process, feel free to contact the convenor and faculty coordinators.

About the College

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels.

About the Department

The Department of Internet of Things from the academic year 2020-21 started for B.Tech Course. Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of like-minded persons for success.

About Sensors, Transducers and Instrumentation

Sensors and transducers are input and output devices respectively that can be incorporated into an electronic circuit or system allowing it to measure or change its surrounding environment.

But for an electronic circuit or system to perform any useful task or function it needs to be able to communicate with the "real world" whether this is by reading an input signal from an "ON/OFF" switch or by activating some form of output device to illuminate a single light. In other words, an Electronic System or circuit must be able or capable of "doing" something and **Sensors and Transducers** are the perfect components for doing this. The word "Transducer" is the collective term used for both **Sensors** which can be used to sense a wide range of different energy forms such as movement, electrical signals, radiant energy, thermal or magnetic energy etc,

Program Schedule for Value Added Course

SENSORS, TRANSDUCERS AND INSTRUMENTATION PRINCIPLES

13-06-2022 to 25-06-2022

S.No.	Date	Topics cover
1	13-06-2022 - 14-06-2022	<ul style="list-style-type: none">•Introduction to Sensors and Transducers:<ol style="list-style-type: none">1. Overview of sensors and transducers2. Importance and applications of sensors and transducers in various industries3. Different types of sensors and transducers based on physical quantities.
2	15-06-2022 - 16-06-2022	<ul style="list-style-type: none">•Principles of Sensor Operation:<ol style="list-style-type: none">1. Understanding the working principles of different sensor types (e.g., temperature, pressure, proximity)2. Transduction methods and sensor technologies3. Sensor characteristics, including range, sensitivity, resolution, and accuracy
3	17-06-2022	<ul style="list-style-type: none">•Signal Conditioning and Amplification<ol style="list-style-type: none">1. Signal conditioning techniques to improve the quality of sensor signals2. Amplification, filtering, and noise reduction methods3. Calibration and linearization of sensor outputs
4	18-06-2022	<ul style="list-style-type: none">•Data Acquisition and Instrumentation<ol style="list-style-type: none">1. Introduction to data acquisition systems2. Analog-to-digital conversion techniques3. Selection and configuration of instrumentation systems for sensor measurements
5	20-06-2022 - 21-06-2022	<ul style="list-style-type: none">• Measurement Techniques<ol style="list-style-type: none">1. Overview of measurement techniques used with sensors and transducers2. Direct and indirect measurement methods3. Contact and non-contact measurement techniques

6	22-06-2022 - 23-06-2022	<ul style="list-style-type: none"> Instrumentation Interfaces and Communication <ol style="list-style-type: none"> Overview of communication protocols for sensor data transmission
		<ol style="list-style-type: none"> Wired and wireless interfaces for sensor integration Introduction to IoT and sensor networks for data acquisition and control
7	24-06-2022	<ul style="list-style-type: none"> Practical Hands-on Activities <ol style="list-style-type: none"> Hands-on experiments with different sensors and transducers Measurement setup and configuration using instrumentation systems Data acquisition, analysis, and interpretation using software tools
8	25-06-2022	<ul style="list-style-type: none"> Review and practice <ol style="list-style-type: none"> Review the concepts covered in the second week Practice coding exercises and small projects to reinforce what you've learned

DEPARTMENT OF INTERNET OF THINGS

Summary Report on Value Added Course

“SENSORS, TRANSDUCERS AND INSTRUMENTATION PRINCIPLES” 13-06-2022 TO 25-06-2022

Title of the course: “Sensors, Transducers and Instrumentation Principles”

Duration: 13-06-2022 to 25-06-2022

Resource Persons:

- Mr. N. Ramesh, CEO, Apply Volt Technologies, Hyderabad
- Team Apply Volt Technologies, Hyderabad

Objectives of the program:

- The workshop should equip participants with skills in analyzing and interpreting sensor data. They should learn about data processing techniques, statistical analysis, visualization, and reporting of measurement results.
- Participants should learn how to integrate sensors, transducers, and instrumentation systems effectively. This includes understanding the selection, placement, and wiring of sensors, as well as the proper configuration and calibration of associated instrumentation for accurate and reliable measurements.
- The workshop should address the application-specific considerations of sensors and instrumentation systems. Participants should explore the requirements, challenges, and best practices for different fields such as environmental monitoring, healthcare, manufacturing, automation, and energy.
- Participants should develop a comprehensive understanding of the principles, types, and functionalities of sensors and transducers. They should learn about various sensor technologies such as temperature, pressure, humidity, motion, light, and chemical sensors, as well as transducers that convert physical quantities into electrical signals.

Topics Covered:

- Introduction to Sensors and Transducers
- Principles of Sensor Operation
- Signal Conditioning and Amplification
- Data Acquisition and Instrumentation
- Measurement Techniques
- Instrumentation Interfaces and Communication
- Practical Hands-on Activities

Outcomes of the Program :

- Participants will gain a thorough understanding of different types of sensors and transducers, their principles of operation, and their applications in various fields. They will learn about the working principles, advantages, and limitations of sensors for measuring different physical quantities.
- The workshop may provide insights into application-specific considerations of sensors and instrumentation. Participants will explore examples and case studies from various fields, such as environmental monitoring, healthcare, manufacturing, and automation, to understand the specific requirements and challenges in those domains.
- Participants will acquire knowledge of the fundamental principles of instrumentation, including signal conditioning, data acquisition, and measurement techniques. They will understand the importance of accurate and reliable measurement in different applications and industries.

No. of students enrolled the course: 66

DEPARTMENT OF INTERNET OF THINGS

CIRCULAR

Date: 19-06-2022

The department of Internet of Things is organizing a Two Week Value - Added course on "Data Base Management System" in Internet of Things from 20-06-2022 to 02-07-2022 by **Apply Volt Technologies Pvt.Ltd., Hyderabad** for I B Tech II Sem students of IoT, in virtual mode using Microsoft Teams. Hence, all the students are informed to enroll and attend the course without fail.

Coordinator

HOD (I/C)

K.S. - 1-1-1

Registration Information

- Faculty members working in AICTE approved institutes, Research Scholars and PG students are invited to register and participate in this SDP.
- There is no registration fee.
- Registration form: <https://tinyurl.com/fdmssdp>
- 80% attendance is mandatory is desirable to get an e-certificate of successful completion
- The shortlisted members from the registered participants will be communicated 5 days prior to the commencement of SDP.
- For any information about SDP and registration process, feel free to contact the convener and faculty coordinators.

ADDRESS FOR CORRESPONDANCE

About the College

The college is promoted by AANM & VVRSR Educational Society, Gudlavalleru and was established in 1998. The college is situated Gudlavalleru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels.

About the Department

The Department of Internet of Things from the academic year 2020-21 started for B.Tech Course. Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of like-minded persons for success.

About DBMS

Objectives of the program:

- Introduce students to the basic concepts of database management systems (DBMS), including data models, schema, and data manipulation languages.
- Familiarize students with the different types of DBMS, their features, and their applications in the field of engineering.
- Provide hands-on training in the design and implementation of databases using popular DBMS software such as Oracle, MySQL, or Microsoft SQL Server.
- Emphasize the importance of data security, privacy, and backup and recovery strategies in database management, and equip students with knowledge and skills to ensure the integrity and security of data.

Topics Covered:

- Introduction to DBMS.
- Database Design and Data Modeling
- Relational Data Model.
- Review and practice.
- Advanced SQL
- Database Design and Normalization.
- Transactions and management.
- Review and practice.

Resource Persons

- Dr.S.Narayana, Professor and Mentor of CSE, SRGEC

Summary Report on Value Added Course titled "Data Base Management Systems" in Internet of Things 20-06-2022 to 02-07-2022

Title of the course: "Data Base Management Systems"

Duration: 20-06-2022 to 02-07-2022

Resource Persons:

- Dr.S.Narayana, Professor and Mentor of CSE,SRGEC

- **Objectives of the program:**

- The objective is to have code that is clear and expressive, allowing for efficient collaboration and maintenance.
- aims to provide a user-friendly and beginner-friendly programming language.
- enables developers to create applications that can be easily deployed and executed on different platforms..

Topics Covered:

- Introduction to Python basics
- Control statements and functions
- Collections and file I/O
- Review and practice
- Object-oriented programming
- Advanced topics
- Web development with Python
- Review and practice

Outcomes of the Program :

- Participants will gain a solid understanding of the fundamental concepts of Python programming. This includes learning about variables, data types, operators, control structures (such as loops and conditionals), functions, and basic input/output operations.
- Participants will become proficient in writing Python code and will be familiar with the syntax and structure of the language. They will learn how to write clean and readable code following Python's conventions and best practices.
- Workshops often include hands-on exercises and coding challenges to reinforce the concepts taught. Participants will have the opportunity to practice their programming skills by working on real-world problems and implementing various algorithms or applications.

No. of students enrolled the course: 173

No. of students completed the course: 173

DEPARTMENT OF INTERNET OF THINGS

CIRCULAR

Date: 09-07-2022

The department of Internet of Things is organizing a Two Week Value - Added course on **"Unmanned Aerial Vehicles"** in Internet of Things from 11-07-2022 to 23-07-2022 by Robogen, Pvt Ltd., Visakhapatnam for I B Tech II Sem students of IoT. Hence, all the students are informed to enroll and attend the course without fail.

Coordinator

HOD (I/C)

KS - 1

Registration Information

- Faculty members working in AICTE approved institutes, Research Scholars and PG students are invited to register and participate in this SDP.
- There is no registration fee.
- Registration form: <https://tinyurl.com/uavsdp>
- 80% attendance is mandatory is desirable to get an e-certificate of successful completion
- The shortlisted members from the registered participants will be communicated 5 days prior to the commencement of SDP.
- For any information about SDP and registration process, feel free to contact the convener and faculty coordinators.

About the College

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels.

About the Department

The Department of Internet of Things from the academic year 2020-21 started for B.Tech Course. Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of like-minded persons for success.

About UAV

unmanned aerial vehicle (UAV) *drone*
engineers develop drones based on their knowledge of different branches of engineering, such as aeronautical, electronics and electrical, mechanical, and robotics engineering. Also known as unmanned aerial vehicles (UAVs), drones may be used for commercial, consumer, or combat purposes. For example, they may be used to survey damage after natural disasters like hurricanes and floods, gather military intelligence, survey land for real estate and construction purposes, and collect information on crops and endangered species. Many mechanical engineers are involved in the design and manufacturing of drones. Their work involves reading and interpreting blueprints and researching, designing, and operating drones and drone systems, equipment, and processes.

Program Schedule for Value Added Course titled " Unmanned Aerial Vehicles"

11-07-2022 to 23-07-2022

S.No.	Date	Topics
1	11-07-2022 12-07-2022	•Introduction to UAV Learn about basic components of UAV
2	13-07-2022 14-07-2022	•Motion Demonstration 1. Axial Coordinates 2. Movement axis
3	15-07-2022	•Assembly of parts Flying dynamics
4	16-07-2022	•Review and practice 1. Review the concepts covered in the first week 2. Practice coding exercises and small projects to reinforce what you've learned
5	17-07-2022 18-07-2022	Aero Dynamic Lift and Programming
6	19-07-2022 20-07-2022	• Advanced topics Aerial Mechanics and fly rules
7	21-07-2022	Design and practice of UAV
8	23-07-2022	Flying of the designed UAV

Summary Report on Value Added Course titled "UAV IOT Systems" in Internet of Things 11-07-2022 to 23-07-2022

Title of the course: "UAV IOT Systems in Internet of Things"

Duration: 11-07-2022 to 23-07-2022

Resource Persons:

- U.Siddhartha Reddy CEO, Robogen, Pvt, Ltd

Objectives of the program:

- Use the knowledge gained from the workshop to design and build UAV IoT applications for various industries such as agriculture, environmental monitoring, infrastructure inspection, or disaster management. This could involve integrating sensors, data transmission protocols, and analytics capabilities into UAV systems.
- Explore advanced data analytics techniques to extract valuable insights from the data collected by UAVs. This may involve learning about machine learning algorithms, data visualization, or anomaly detection methods to process and interpret the gathered information effectively.
- Engage in collaborative research projects with academic institutions, industry partners, or other professionals in the field. Contribute to the advancement of UAV IoT technology by sharing knowledge, conducting experiments, or publishing research papers.
- Actively participate in industry conferences, workshops, or online communities to share your expertise and promote the benefits of UAV IoT systems. Educate others about the potential applications, advantages, and challenges associated with this emerging technology.

Topics Covered:

- Introduction to UAVs and IoT
- Building and programming a UAV
- UAV flight control
- Review and practice
- UAV telemetry and IoT communication
- IoT data analysis and visualization
- UAV applications and use cases
- Review and practice

Outcomes of the Program :

- Knowledge and Understanding: Participants will gain a comprehensive understanding of UAV technology, IoT principles, and their integration. They will learn about the key components of UAV IoT systems, such as sensors, communication protocols, data analytics, and applications.
- Participants will become familiar with the regulatory frameworks and guidelines governing UAV operations and data collection. They will gain insights into the legal aspects, safety measures, privacy considerations, and limitations associated with UAV IoT systems.

No. of students enrolled the course: 66

No. of students completed the course: 66

DEPARTMENT OF INTERNET OF THINGS

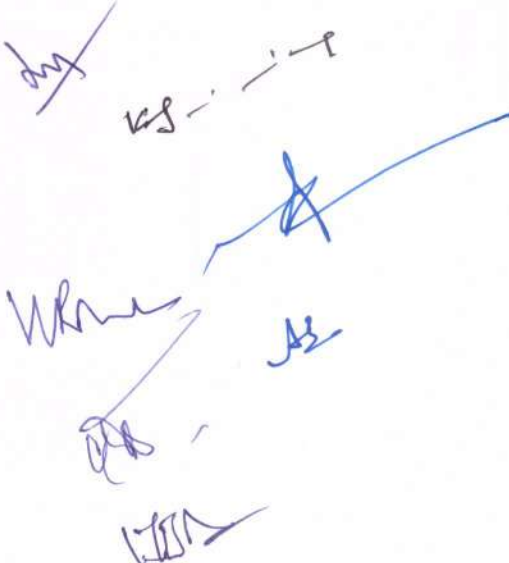

CIRCULAR

Date: 05-08-2022

The department of Internet of Things is organizing a Two Week Value - Added course on **“Recent Trends and Challenges in IoT”** from 08-08-2022 to 20-08-2022 by **Apply Volt Technologies Pvt.Ltd., Hyderabad** for I B Tech II Sem students of IoT, in virtual mode using Microsoft Teams. Hence, all the students are informed to enroll and attend the course without fail.

Faculty Coordinator

HOD (I/C)

Registration Information

- Faculty members working in AICTE approved institutes, Research Scholars and PG students are invited to register and participate in this SDP.
- There is no registration fee.
- Registration form: <https://tinyurl.com/rtaciisdp>
- 80% attendance is mandatory is desirable to get an e-certificate of successful completion
- The shortlisted members from the registered participants will be communicated 5 days prior to the commencement of SDP.
- For any information about SDP and registration process, feel free to contact the convener and faculty coordinators.

About the College

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels.

About the Department

The Department of Internet of Things from the academic year 2020-21 started for B.Tech Course Faculty members are PhD/post graduates in their respective fields and are actively involved in research work and regularly publish their research in reputed journals and conferences. Faculty, as a team, aims to remain focused, promote innovative learning and a network of like-minded persons for success.

About Trends and Challenges in IoT.

Over the past few years, IoT has become one of the most important technologies of the 21st century. Now that we can connect everyday objects—kitchen appliances, cars, thermostats, baby monitors—to the internet via embedded devices, seamless communication is possible between people, processes, and things.

By means of low-cost computing, the cloud, big data, analytics, and mobile technologies, physical things can share and collect data with minimal human intervention. In this hyperconnected world, digital systems can record, monitor, and adjust each interaction between connected things. The physical world meets the digital world—and they cooperate

Summary Report on Value Added Course titled

"Recent Trends and Challenges in IoT"

08-08-2022 to 20-08-2022

Title of the course: "Recent Trends and Challenges in IoT"

Duration: 08-08-2022 to 20-08-2022

Resource Persons:

- Mr. Antony Pradeesh, Sr.Project Engineer and Lead, Pvt.,Ltd., Bangalore

Objectives of the program:

- The workshop should equip participants with skills in analyzing and interpreting edge computing and 5G connectivity.
- They should learn about AI integration, blockchain security, industry-specific solutions, sustainability, enhanced data analytics, and expanded interoperability data processing techniques, statistical analysis, visualization, and reporting of measurement results.
- The workshop should address how to have devices that self-report in real-time, improving efficiency and bringing important information to the surface more quickly than a system depending on human intervention.
- Participants should develop a comprehensive understanding of the principles, types, and functionalities of AI technologies.

Topics Covered:

- Edge computing,
- 5G connectivity,
- AI integration,
- Blockchain security,
- Industry-specific solutions,
- Sustainability,
- Enhanced data analytics,
- and expanded interoperability.

Outcomes of the Program :

- Participants will gain a thorough understanding of skills in analyzing and interpreting edge computing and 5G connectivity.
- The workshop may provide insights into AI integration, blockchain security, industry-specific solutions, sustainability, enhanced data analytics, and expanded interoperability data processing techniques, statistical analysis, visualization, and reporting of measurement results.
- The participants would address how to have devices that self-report in real-time, improving efficiency and bringing important information to the surface more quickly than a system depending on human intervention.

GUDLAVALLERU ENGINEERING COLLEGE (GEC):

Gudlavalleru Engineering College was established in the year 1998 by M/s. A.A.N.M. & V.V.R.S.R. Educational Society, Gudlavalleru. The College is situated in Gudlavalleru and is surrounded by lush green fields with serene environment. The college offers B.Tech. Programmes in eight branches of Engineering, viz., Civil, Electrical and Electronics, Mechanical, Electronics and Communication Computer Science, Information Technology, Artificial Intelligence & Data Science and, Internet of Things and PG courses in Business Management (MBA), M.Tech. (VLSI Design & ES), M.Tech (CSE(AI&ML)), M.Tech (PEED), M.Tech (SE) and M.Tech (MD). GEC is permanently affiliated to JNTUK, Kakinada. Four of the UG Programmes got accreditation status under Tier-I of NBA. The college is accredited by NAAC with 'A' Grade.

ABOUT MBA DEPARTMENT

The Department of Business and Management Studies was established in the year 2006 and is offering two year Post Graduate programme with an intake of 120. The department has qualified and experienced faculty and well equipped Library and Lab. The Department is marching forward by keeping pace with the emerging challenges in Management.

VALUE ADDED COURSE:

A value-added course on team leadership skills covers team building, conflict resolution, motivation, delegation, and other relevant topics. This course helps students enhance their leadership abilities, promote collaboration, achieve organizational goals, and develop critical thinking and problem-solving skills. It is a valuable asset to a student's career growth, especially for leadership positions.

In today's dynamic workplace, effective team leadership skills are crucial for success. Organizations require competent leaders who can manage and lead teams to achieve their goals. A value-added course on team leadership skills can help students develop the necessary skills and knowledge to become effective team leaders.

A value-added course on team leadership skills improves job performance and productivity, enhances employability and career prospects, promotes collaboration and teamwork for organizational success, and increases confidence in managing and leading teams. Students gain a competitive edge in the job market and build strong relationships with team members and stakeholders. Overall, this course equips students with necessary skills to become effective team leaders and contributes significantly to their career growth and success.

The objectives of a value-added course on "Team Leadership Skills" could include:

1. Developing an understanding of team dynamics and effective leadership principles
2. Enhancing problem-solving and critical thinking skills
3. Learning to motivate and inspire team members
4. Developing conflict resolution and negotiation skills
5. Enhancing decision-making abilities

Expected Outcomes of the course:

1. Develop the necessary skills to manage and lead teams effectively
2. Build and maintain strong relationships with team members and stakeholders
3. Promote collaboration and teamwork within their organization
4. Improve decision-making abilities and problem-solving skills
5. Increase productivity and achieve organizational goals

GUDLAVALLERU ENGINEERING COLLEGE (GEC):

Gudlavalleru Engineering College was established in the year 1998 by M/s. A.A.N.M. & V.V.R.S.R. Educational Society, Gudlavalleru. The College is situated in Gudlavalleru and is surrounded by lush green fields with serene environment. The college offers B.Tech. Programmes in eight branches of Engineering, viz., Civil, Electrical and Electronics, Mechanical, Electronics and Communication Computer Science, Information Technology, Artificial Intelligence & Data Science and, Internet of Things and PG courses in Business Management (MBA), M.Tech. (VLSI Design & ES), M.Tech (CSE(AI&ML)), M.Tech (PEED), M.Tech (SE) and M.Tech (MD). GEC is permanently affiliated to JNTUK, Kakinada. Four of the UG Programmes got accreditation status under Tier-I of NBA. The college is accredited by NAAC with 'A' Grade.

ABOUT MBA DEPARTMENT

The Department of Business and Management Studies was established in the year 2006 and is offering two year Post Graduate programme with an intake of 120. The department has qualified and experienced faculty and well equipped Library and Lab. The Department is marching forward by keeping pace with the emerging challenges in Management.

VALUE ADDED COURSE:

A value-added course on "Digital Marketing" would cover various topics related to the online marketing of products and services. The course would focus on providing students with practical knowledge and skills related to digital marketing, as well as an understanding of the strategic and tactical considerations involved in designing and executing digital marketing campaigns.

A value-added course on digital marketing can benefit a student's career by providing in-demand skills and a competitive edge in the job market. It is a versatile field with various channels, making it a good career choice for different industries. Completing the course can also offer entrepreneurial opportunities.

Digital marketing has become an essential component of modern-day marketing strategies for businesses and organizations of all sizes. The explosive growth of digital channels such as social media, email, and search engines has created a need for professionals who can effectively leverage these channels to drive business growth. A value-added course on "Digital Marketing" can help students acquire the skills and knowledge necessary to meet the growing demand for digital marketing professionals and gain a competitive edge in the job market.

The objectives of a value-added course on "Digital Marketing" could include:

1. Provide an overview of digital marketing, including its various channels.
2. Familiarize students with the tools and technologies used in digital marketing.
3. Teach students how to develop and execute digital marketing campaigns.
4. Cover best practices for creating effective email marketing campaigns.
5. Provide an understanding of content marketing strategies and tactics.

Expected Outcomes of the course:

- Acquire a strong foundation in the fundamental concepts and principles of digital marketing.
- Gain practical skills in developing and executing digital marketing campaigns across various channels.
- Develop proficiency in using digital marketing tools and technologies to create and manage campaigns.

ABOUT MBA DEPARTMENT

The Department of Business and Management Studies was established in the year 2006 and is offering two year Post Graduate programme with an intake of 120. The department has qualified and experienced faculty and well equipped Library and Lab. The Department is marching forward by keeping pace with the emerging challenges in Management.

VALUE ADDED COURSE:

A value-added course on "Introduction to Business Analytics" would provide students with the knowledge and skills necessary to analyze and interpret large data sets to make informed business decisions. The course would cover topics such as data visualization, statistical analysis, predictive modeling, and data mining.

The course would be beneficial for students who are interested in pursuing a career in business or data analysis. It would also be useful for professionals looking to enhance their skills in data analysis or business intelligence.

In today's data-driven business environment, there is an increasing need for professionals who can analyze and interpret large data sets to make informed decisions. A value-added course on "Introduction to Business Analytics" is essential to equip students with the skills and knowledge necessary to succeed in this field and meet the growing demand for data analysts and business intelligence professionals. Having employees with strong data analysis skills can give businesses a competitive advantage by enabling them to make data-driven decisions that improve efficiency, reduce costs, and increase revenue.

The objectives of a value-added course on "Introduction to Business Analytics" could include:

- To provide an overview of the basic concepts and terminology related to business analytics.
- To present data in a visually appealing way using visualization tools.
- To familiarize students with statistical techniques and how to apply these techniques to analyze and interpret data.
- To teach students how to use predictive modeling techniques to forecast future trends.
- To cover data mining techniques.
- To provide real-world examples.

Expected Outcomes of the course:

- Knowledge and understanding of the basic concepts
- Proficiency in using data visualization tools
- Ability to apply statistical techniques
- Ability to analyze and interpret large data sets.

DEPARTMENT OF BUSINESS AND MANAGEMENT STUDIES

Report on Value Added Course Titled “Introduction to Business Analytics” conducted during 10-01-2022 to 29-01-2022

Title of the Course: “Introduction to Business Analytics”

Duration: 10-01-2022 to 29-01-2022

Resource Person: Hemanth Kumar T, Asst. Prof., MBA.

Objectives of the Program:

- Understand the importance of business analytics in decision-making.
- Learn about the different types of analytics: descriptive, predictive, and prescriptive.
- Gain familiarity with tools and software used in business analytics, such as Excel, R, and Tableau.
- Learn about different data types and how they are measured.
- Learn how to collect and clean data and perform exploratory data analysis.

Topics Covered:

- | | |
|-------------------------------------|------------------------|
| • MS Excel | • Power BI |
| • Data types and measurement scales | • Linear Regression |
| • Data Collection and Cleaning | • Logistic Regression |
| • Exploratory Data Analysis (EDA) | • Time Series Analysis |

Outcomes of the Program:

- Improved understanding of how business analytics can help with decision-making.
- Ability to identify which type of analytics is best suited for different situations.
- Familiarity with commonly used tools and software in business analytics.
- Understanding of different data types and how they are measured.
- Ability to collect, clean, and analyze data using exploratory data analysis techniques.

About the College:

The college is promoted by AANM & VVRSREducational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department was started in the year 2009 and has been offering a full-time, four-year B.Tech. Programme in "Civil Engineering", and a two-year M. Tech. Programme in "Structural Engineering". The department has been successful in establishing well equipped laboratories and infrastructure to promote teaching - learning as well as R&D and consultancy. The department has established Water Environment and Land (WEL) to conduct Research & Development activities in the fields of water and land resource inventory, mapping, monitoring and management of environment and ecosystems in the region and also Disaster Management.

Resource Persons:

- **Dr.S.R.K. REDDY**, Professor., CE
9849320424

Objectives of the Program:

- Adhering to conduct of duties in righteous manner and in accordance with principles of honesty, trust, transparency and fairness.
- Operating in an efficient, ethical and true manner while ensuring group participation and a system of check and balances within an institution.
- Creating an environment of mutual respect, trustworthiness and quality interaction as well as fair participation of functionaries and beneficiaries of the institution.

Topics:

Positive Thinking
Self Esteem
Self-Worth
Self Confidence
Goal Setting

GUIDELINES:

- Regular attendance is mandatory to issue certificate.
- Certificate will be provided only, after giving overall feedback and fulfilling other requirements.

About the course:

Human values refer to the basic inherent moral inclinations towards kindness, honesty, loyalty, love, peace, sympathy, truth etc. that enhance fundamental goodness of human beings and society at large. Human values help in understanding the attitude, motivation, behavior, and also influence one's perception about the world. Codes of professional ethics guide the stakeholders of an organization about the desirable and undesirable acts related to the profession.. The success of an institution's mission and vision is driven by value-based ethical behaviour of its committed faculty members, officers, staff and students. They enable the interpretation of "right and wrong" and provide the ways to understand humans and organizations.

Expected Outcomes of the course:

- An ability to apply knowledge of mathematics, science and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, components or process to meet desired needs.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.

- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- An ability to apply their broad education towards the understanding of the impact of engineering solutions in a global and societal context.
- A recognition of the need for and the ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Summary Report on "A Two-Week Value- Added Course on Human Values & Professional Ethics "in Civil Engineering" (14-02-2022 to 26-02-2022)

Title of the course: "A Two-Week Value- Added Course on Human Values & Professional Ethics "

Duration: 14-02-2022 to 26-02-2022

Resource Persons:

- **Dr.S.R.K.Reddy,**
Professor, Department of civil engineering, SRGEC, 9849320424

Objectives of the program:

- Adhering to conduct of duties in righteous manner and in accordance with principles of honesty, trust, transparency and fairness.
- Operating in an efficient, ethical and true manner while ensuring group participation and a system of check and balances within an institution.
- Creating an environment of mutual respect, trustworthiness and quality interaction as well as fair participation of functionaries and beneficiaries of the institution

Topics Covered:

- Positive Thinking
- Self Esteem
- Self-Worth
- Self Confidence
- Goal Setting

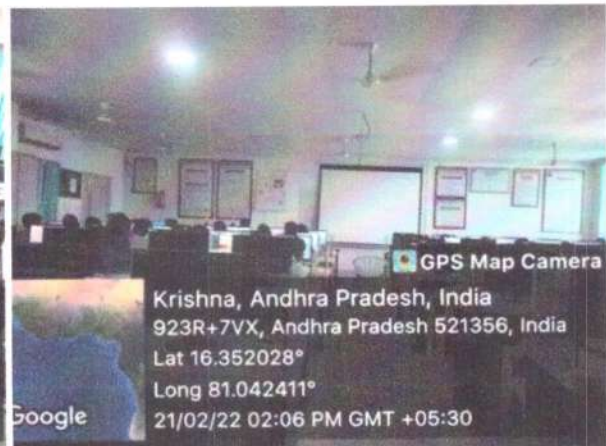

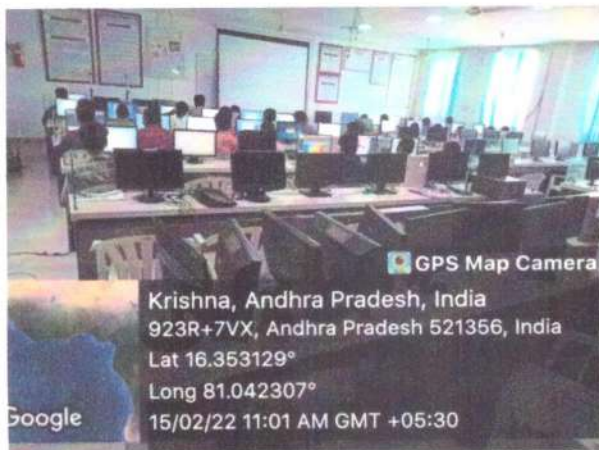

Outcomes of the program:

- An ability to apply knowledge of mathematics, science and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, components or process to meet desired needs.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.

- An ability to communicate effectively.
- An ability to apply their broad education towards the understanding of the impact of engineering solutions in a global and societal context.
- A recognition of the need for and the ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 4 times (one time under Tier-1) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M.Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in Electrical and Electronics

Resource Persons:

- Mr. B. Rama Krishna, Assistant Professor, Department of EEE, SRGEC
Ph No:6281823031

Objectives of the Program:

- To know how to effectively communicate, a crucial skill which the employers are looking for.
- To know different types of communication skills and when to use them.
- To improve one's communication skills and showing employer the willingness to learn and advance one's career.

Topics:

- Verbal communication
- Non-verbal communication
- Visual Communication
- Active listening, team building, leadership and negotiation skills.

Platform:
Offline

Eligibility: All I B. Tech Students
Registration is free

About the course:

Good communication in the workplace ensures employees have the information they need to perform well, builds a positive work environment, and eliminates inefficiencies. Effective communication should accurately convey information while maintaining or improving human relationships. Communication skills are the abilities you use when giving and receiving different kinds of information. Some examples include communicating new ideas, feelings or even an update on your project. Communication skills involve listening, speaking, observing and empathizing. It is also helpful to understand the differences in how to communicate through face-to-face interactions, phone conversations and digital communications like email and social media. Effective communication in the workplace is an integral part of an efficient and successful business. It ensures everyone understands their duties and responsibilities, helps build quality client and employee relationships and keeps employees engaged and productive

Expected Outcomes of the course:

- ❖ To build trust and improve teamworking skills in workplace.
- ❖ To create commitment, build relationship implementation, operation and maintenance.
- ❖ More cohesive workspaces, more efficient people, and an improved bottom line

About the Resource Person:

Mr. B. Rama Krishna is working as Assistant Professor in Seshadri Rao Gudlavalluru Engineering and Electronics Engineering from 01st April 2015 to till date. He worked as Assistant Professor in Nalanda Institute of Engineering and Technology from November 2013 to March 2015. He is pursuing his PhD in JNTUK Kakinada. He published 3 papers in international/national journals and one paper in international conference. He attended more than 15 workshops offline and 10 FDPS online. He attended more than 6 online webinars. He did around 6 NPTEL certification courses and secured Elite+ Gold in four courses. He guided 8 B. Tech projects and one M. Tech project till now. He topped in academics in B.Tech and M.Tech.

Report on Value Added Course titled “ Communication Skills for Workplace Success”

Title of the course: *“Communication Skills for Workplace Success”*

Duration: 01-02-2022 to 21-02-2022

Resource Persons:

- Mr. B. Rama Krishna, Assistant Professor, Department of EEE, Seshadri Rao Gudlavaluru Engineering College.

Objectives of the program:

- To know how to effectively communicate, a crucial skill which the employers are looking for.
- To know different types of communication skills and when to use them.
- To improve one's communication skills and showing employer the willingness to learn and advance one's career

Topics Covered:

- Verbal communication
- Non- verbal communication
- Visual Communication
- Active listening, team building, leadership and negotiation skills.

Outcomes of the program:

After the completion of the course the students will be able to

- ❖ Build trust and improve teamworking skills in workplace.
- ❖ Create commitment, build relationship implementation, operation and maintenance.
- ❖ Build more cohesive workspaces, more efficient people, and an improved bottom line

No. of students enrolled the course: 94

No. of students completed the course: 92

DEPARTMENT OF MECHANICAL ENGINEERING

CIRCULAR

Date: 10-02-2022

The department of Mechanical Engineering is organizing a two-week Value-Added Course on "Personality Development" for I B. Tech students, from 14-02-2022 to 26-02-2022 by Resource Persons Sri. M.V.G. Anjaneyulu, Sri, G.V.N. Raju, Indian ventriloquist, puppeteer, mimicry artist, author and soft skill trainer, Sri Jagan Guruji, Yoga Teacher & Meditation practitioner and Sri K. Sai Krishna, Training and Placement Officer. Hence all the I B. Tech students are informed to enroll and attend the course without fail.

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavallur and was established in 1998. The college is situated in Gudlavallur, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Mechanical Engineering was established in 1998 and is offering under graduate course in Mechanical Engineering. It has been accredited 4 times (one time under Tier-1) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M. Tech course in Machine Design. Department is marching forward keeping pace with the technological advances in Mechanical Engineering.

Resource Persons:

- Sri. M.V.G. Anjaneyulu,
- Sri, G.V.N. Raju, Indian ventriloquist, puppeteer, mimicry artist, author and soft skill trainer,
- Sri Jagan Gururji, Yoga Teacher & Meditation practitioner and
- Sri K.Sai Krishna, Training and Placement Officer.

Objectives of the Program:

- To develop attitudes conducive for effective cultural communication.
- Enables to set goals and gives clarity of vision and mission.
- Interpersonal and group skills.
- To inculcate the need to lead a healthy lifestyle and manage time and stress
- To improve leadership quality
- To improve physical aspects of personality

Topics:

- Happy Learning and Personality Development
- Student Motivation and Life skills
- Career Guidance
- Importance of Yoga Practice

Platform: offline A3 Seminar Hall

Eligibility: All I B. Tech Students
Registration: 118

About the course:

The practical exposure is most important for engineering undergraduate students, but the software programs can provide an additional support to them for better and easy learning. There are various software and these can be used for learning the various Mechanical Engineering subjects like Robotics, Machine Dynamics, Manufacturing Science etc. In all the sector of engineering i.e., manufacturing, distribution substation also in industry various monitoring is done by with the help of computer. All the designs of components and machines, house and building are prepared by computer software. So, there is an important role of software in real life engineering. It is very important to educate the future engineers with the help of software for their better carrier and better understanding. This course provides a platform to learn the latest software tools to the students for finding the better applications in engineering.

Expected Out comes of the course:

- Understanding of the importance of interpersonal skills.
- Ability to present oneself in effective manner on the basis of his strengths and weakness.
- Understanding of group dynamics; team building activity; cooperation.
- Communication with other members in team taking accountability.
- Leadership qualities

About Personal Development:

Personal development or self-improvement consists of activities that develop a person's capabilities and potential, build human capital, facilitate employability, enhance quality of life, and facilitate the realization of dreams and aspirations. Personal development may take place over the course of an individual's entire lifespan and is not limited to one stage of a person's life. It can include official and informal actions for developing others in roles such as teacher, guide, counselor, manager, coach, or mentor, and it is not restricted to self-help. When personal development takes place in the context of institutions, it refers to the methods, programs, tools, techniques, and assessment systems offered to support positive adult development at the individual level in organizations.

Summary Report on Value Added Course titled “Personality Development”

14-02-2022 to 26-02-2022

Title of the course: “Personality Development”

Duration: 14-02-2022 to 26-02-2022

Resource Persons:

- 1) Sri. M.V.G. Anajaneyulu,
- 2) Sri, G.V.N. Raju, Indian ventriloquist, puppeteer, mimicry artist, author and soft skill trainer,
- 3) Sri Jagan Guruji, Yoga Teacher & Meditation practitioner and
- 4) Sri K.Sai Krishna, Training and Placement Officer.

Objectives of the program:

1. To develop attitudes conducive for effective cultural communication.
2. Enables to set goals and gives clarity of vision and mission.
3. Interpersonal and group skills.
4. To inculcate the need to lead a healthy lifestyle and manage time and stress
5. To improve leadership quality
6. To improve physical aspects of personality

Topics Covered:

- Introduction to Soft skills, need for soft skills for higher education and career.
- Happy Learning and Personality Development
- Student Motivation and Life kills
- Carrier Guidance
- Importance of Yoga Practice
- Importance of Team Work - value of being a team player.
- Time Management, Leadership Vs Managerial Skills.
- Communication, Barriers in communication,
- Presentation Skills
- Indian Spirituality and Human Values
- Gender Equality
- Student Abilities and Remembering skills

Outcomes of the program:

- Understanding of the importance of interpersonal skills.
- Ability to present oneself in effective manner on the basis of his strengths and weakness.
- Understanding of group dynamics; team building activity; cooperation.
- Communication with other members in team taking accountability.
- Leadership qualities

SESHADRI RAO GUDLAVALLERU ENGINEERING COLLEGE

SESHADRI RAO KNOWLEDGE VILLAGE: GUDLAVALLERU

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

A Two-Week Value-Added Course on "Professional Ethics"

14th to 26th March, 2022

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavaluru and was established in 1998. The college is situated in Gudlavaluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. Programmes in six branches of Engineering and also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014. All the eligible branches of engineering are accredited by NBA and NAAC.

About The Department:

The Department of Electronics and Communication Engineering started functioning from the academic year 1998 for B.Tech Course. The department is also offering M.Tech course in Embedded Systems (from the academic year 2008-09). The department has well qualified staff specialized in Microelectronics, Instrumentation and Control, Digital Systems & Computer Electronics, Digital Communication and Networks, Systems & Signal Processing, Microwave Engineering, VLSI Design.

About the Value-Added Course:

Professional Ethics course is essential for professionals in any field to have an understanding of the ethical problems and principles in their field. Part of professional ethics is the understanding of the ethics of other professions: how they interact and what can be expected from them as correct ethical behavior. In turn, any professional will benefit from a critical scrutiny of their own ethics by those from other professions.

Course Objectives:

- To introduce importance of ethics in Engineering.
- To familiarize the rights and responsibilities of Engineers

Major Course Contents:

- Morals and Ethics
- Ethics- Types of Inquiry
- Engineer's Responsibilities and Rights
- Collegiality

Expected Course Outcomes:

At the end of the course, the students will be able to

- comprehend different Moral Perspectives and enabling him to frame one's own Ethical standards..
- find solutions for issues related to growth with reference to absolute ethical tenets.
- resolve Professional/Moral Dilemmas and be able to guide productivity.

Seshadri Rao Knowledge Village, Gudlavalleru

Department of Electronics and Communication Engineering
A Two-Week Value-Added Course on “Professional Ethics”

14th to 26th March, 2022

Course Schedule

S. No.	Date	Topics
1	14-03-2022	Human Values
2	15-03-2022	Morals and Ethics
3	16-03-2022	Civic Virtue
4	17-03-2022	Ethics- Types of Inquiry
5	18-03-2022	Kohlberg’s Theory
6	19-03-2022	Gilligan’s Argument
7	21-03-2022	Engineer’s Responsibilities
8	22-03-2022	Engineer’s Rights
9	23-03-2022	Safety and Risk
10	24-03-2022	Short Term vs Long Term Consequences
11	25-03-2022	Collegiality
12	26-03-2022	Confidential and Proprietary information

Department of Electronics and Communication Engineering

A Two-Week Value-Added Course on “Professional Ethics”

14th to 26th March, 2022

Report

Title of the course: “Professional Ethics”

Duration: 14-03-2022 to 26-03-2022

Resource Persons:

- Mr.M Vinod, Assistant Professor, Department of MBA,
Seshadri Rao Gudlavalleru Engineering College, Ph. no.: 8142707788,
Email: vinod.mutyala57@gmail.com

Course Objectives:

- To introduce importance of ethics in Engineering.
- To familiarize the rights and responsibilities of Engineers

Topics Covered:

- Morals and Ethics
- Ethics- Types of Inquiry
- Engineer's Responsibilities and Rights
- Collegiality

Course Outcomes:

- The students comprehended different Moral Perspectives.
- The students found solutions for issues related to growth with reference to absolute ethical tenets.
- The students resolved Professional/Moral Dilemmas.

No. of students enrolled the course: 236

No. of students completed the course: 228

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CIRCULAR

Date: 02-12-2021

The department of Computer Science Engineering is organizing a two-week Value-Added Course on “**Web Designing**” from 06-12-2021 to 18-12-2021 for UG students of all the branches. Hence all the I B. Tech students are informed to enroll the course on or before 04-12-2021.

ABOUT SRGEC

Seshadri Rao Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the

country reflect the performance of the department

Resource Person

Dr. S. Narayana, professor & mentor
CSE

Working as Professor & Mentor of Computer Science and Engineering in Seshadri Rao Gudlavalluru Engineering College with Teaching Experience of 21 Years. M. Tech. Projects Guided are 08.

Subjects taught at Post Graduate Machine Learning

- Advanced Operating Systems
- Database Management Systems
- Data Warehousing and Data Mining
- Data Structures and Algorithm Analysis

Email-id: satyalanarayana@gmail.com
Mobile Number: +91 9110747218

Objectives of the Program

- To introduce the fundamentals of Internet, and the principles of web design.
- To construct basic websites using HTML and Cascading Style Sheets.
- To build dynamic web pages with validation using JavaScript objects and by applying different event handling mechanisms
- To develop modern interactive web applications using PHP, XML AND MySQL.

Course Contents

- Basics of Web Designing
- Web Technologies
- Basics of HTML
- CSS
- JavaScript
- Basics of Creating Layouts
- Adobe Photoshop
- XML
- PHP & MYSQL
- Concepts of Visual Design
- Web Project Management
- Web Accessibility
- Web Design Theory
- Web Publishing and Browsing

Platform: Microsoft Teams

Eligibility: All I B.Tech Students
Registration is free

About the Course

A Web Designing course belongs to the field of Computer Science and IT. It enables students to learn various techniques, tools and programming languages in order to create and maintain web pages. There is an array of courses in this field ranging from certificate and Diploma courses to UG, PG and PGDM programs.

A Web Designer works on the look, layout, and in some cases the content of a website. The three main categories of Web Design, namely, Responsive Web Design

(RWD), Landing Page Design, and Google Web Design are discussed below.

Responsive web design (RWD) is a web development approach that creates dynamic changes in the appearance of a website, depending on the size of the screen and the orientation of the device used to view it. The multitude of devices available to customers, ranging from small phones to huge desktop monitors.

Expected Outcomes of the course

- Describe the concepts of World Wide Web, and the requirements of effective web design
- Develop web pages using the HTML and CSS features with different layouts as per need of applications.
- Use the JavaScript to develop the dynamic web pages.
- Construct simple web pages in PHP and to represent data in XML format.
- Use server side scripting with PHP to generate the web pages dynamically using the database connectivity

Program Schedule for Value Added Course titled "Web Designing"

06-12-2021 to 18-12-2021

S.No	Date	Topics Covered
1	06-12-2021	Basics of Web Designing <ul style="list-style-type: none">• How to design a website• Create themes for various layouts• Create and design banners, advertisements.• Learning about the tools and techniques using software applications
2	07-12-2021	Web Technologies <ul style="list-style-type: none">• Functioning of a website• Web standards and W3C elements• Clients and server scripting languages
3	08-12-2021	HTML <ul style="list-style-type: none">• Concept of HTML• How HTML elaborates the general structure of a web page design• Using tools used in HTML5
4	09-12-2021	CSS - Syntax, Fonts, Color, Selectors, Flexbox, Grid, Animations.
5	10-12-2021	JavaScript <ul style="list-style-type: none">• Control Flow• Error Handling• DOM Manipulation• Functional Approach• Object-Oriented Approach
6	11-12-2021	Basics of Creating Layouts - Use a grid system
7	13-12-2021	Adobe Photoshop – Shapes, Path, Text, Clipping Mask, Gradients
8	14-12-2021	XML : Introduction to XML, uses of XML, simple XML, XML key components, DTD and Schemas.
9	15-12-2021	PHP & MySQL: Introduction and basic syntax of PHP, decision and looping with examples, PHP and HTML, Arrays, Functions, Connection to server.
10	16-12-2021	Web Accessibility
11	17-12-2021	Web Design Theory – size shape color Assignment Texture position direction
12	18-12-2021	Web Publishing and Browsing – SGML, Web hosting, CGL

SESHADRI RAO GUDLAVALLERU ENGINEERING COLLEGE

(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)

Seshadri Rao Knowledge Village, Gudlavalluru

Department of Computer Science and Engineering

Summary Report on Value Added Course titled "Web Designing"

06-12-2021 to 18-12-2021

Title of the Course: Web Designing

Duration: 06-12-2021 to 18-12-2021

Resource Person: Dr. S. Narayana

Mobile Number: +91 9110747218

Objectives of the program

- To introduce the fundamentals of Internet, and the principles of web design.
- To construct basic websites using HTML and Cascading Style Sheets.
- To build dynamic web pages with validation using Java Script objects and by applying different event handling mechanisms.
- To develop modern interactive web applications using PHP, XML and MySQL

Topics Covered

- Basics of Web Designing
- Web Technologies
- HTML
- CSS
- JavaScript
- Basics of Creating Layouts
- Adobe Photoshop
- XML
- PHP & MySQL
- Web Accessibility
- Web Design Theory
- Web Publishing and Browsing

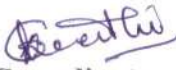

Outcomes of the program

- Describe the concepts of World Wide Web, and the requirements of effective web design
- Develop web pages using the HTML and CSS features with different layouts as per need of applications.
- Use the JavaScript to develop the dynamic web pages.
- Construct simple web pages in PHP and to represent data in XML format.
- Use server side scripting with PHP to generate the web pages dynamically using the database connectivity

No.of students enrolled the course: 326

No.of students completed the course: 322

About the College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

About the Department:

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

Resource Persons:

Dr. M.V.L.N.RajaRao, Prof & Mentor(AS&A)
Dr. Ch.Kavitha, Prof & HOD
Sri.Ch.Seresh Babu, Assoc. Prof
Sri.D.V.L.N.Indira, Assoc. Prof
From Department of IT, GEC.

Objective of the Program:

- To prepare Academic Readiness and Holistic Personal Development.

Topics:**concepts**

- Communication Skills, Goal Setting and Personal Development
- Digital Literacy, Financial Literacy
- Technology Trends and Emerging Technologies
- Research and Development Opportunities, Innovation and Entrepreneurship

Platform:

Microsoft Teams

Eligibility: All I B. Tech Students

Registration is free

About the course:

Tech Insights: B.Tech First Year Students Development Series is a comprehensive program designed to support and fosters the overall development of first-year B.Tech students. The series aims to provide incoming students with essential skills, knowledge, and resources to help them navigate their college journey successfully. It is typically organized by the educational institution or a student support department within the university.

The program encompasses various workshops, seminars, webinars, interactive sessions, and guest lectures delivered by experts, professors, and industry professionals. It covers a wide range of topics that cater to academic, personal, and professional growth, helping students build a strong foundation for their future endeavors.

Overall, Tech Insights: B.Tech First Year Students Development Series aims to create a well-rounded and confident cohort of B.Tech students who are academically prepared, socially engaged, and equipped with the skills needed to thrive in their college journey and beyond. The program's success is measured by the positive impact it has on students' academic performance, personal growth, and career readiness.
