*Number of value-added courses for imparting transferable and life skills offered*

Academic year 2019 - 2020

S. No	Name of Value Course	No. of students Enrolled	Number of Students completing the course
1	A Value added course on REVIT Architecture	185	180
2	A value added course On PCB Design-Phase I and II	163	161
3	A Value added course on APSSDC ARC 1.0 ( Applied Robotics Control Module 1)	47	47
4	A Value added course on APSSDC ARC 2.0 ( Applied Robotics Control Module 2)	32	30
5	A Value added course on APSSDC ARC 3.0 ( Applied Robotics Control Module 3)	29	29
6	A Value-added course on APSSDC – DASSAULT-3D Experience on CATIA, DELMIA and SIMULIA	565	565
7	A Value added course on CCNA R&S: Routing and Switching Essentials	6	6
8	A Value added course on CCNA R&S: Introduction to Networks	1	1
9	Value added course on Cyber Security	50	47
10	Value added course on Amazon Web Services	60	55*
11	Value added course on Introduction to Networks	55	47
12	Value added course on Introduction to Business Analytics	80	73

## DEPARTMENT OF CIVIL ENGINEERING

### CIRCULAR

Date: 10-11-2019

The department of Civil Engineering is organizing "A Value- Added Course on Revit Architecture" from 14-11-2019 to 18-11-2019. In this regard all the III B.Tech students are requested to participate.

**All the faculty members of Civil Engineering**

**Mode of Conducting this SDP:**

**Through offline at GIS & CAD Lab(N403)**  
**Dates: 14 to 18 NOV, 2019**

**Timings: Session1 10.00AM to 12.00PM**  
**Session2: 02.00PM to 04.00PM**

**About the College:**

The college is promoted by AANM & VVRSEducational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

**About the Department:**

The Department was started in the year 2009 and has been offering a full-time, four-year B.Tech. Programme in "Civil Engineering", and a two-year M. Tech. Programme in "Structural Engineering". The department has been successful in establishing well equipped laboratories and infrastructure to promote teaching – learning as well as R&D and consultancy. The department has established Water Environment and Land (WEL) to conduct Research & Development activities in the fields of water and land resource inventory, mapping, monitoring and management of environment and ecosystems in the region and also Disaster Management.

**Resource Persons:**

- Mr.P.S.S.Anjaneya Babu, Asst. Prof., CE  
Ph-9966527355
- Mr.K.Nagarjuna, Asst.Prof., CE  
Ph-9866665281

**Objectives of the Program:**

- To introduce various software tools and their applications in Civil Engineering.
- To make the students more effective in the field of Civil Engineering with respective to this software
- The aim of this value added course is to provide the knowledge about The Autodesk Revit software.

**Software, Topics:**

- Selection in Revit
- Navigation in Revit
- Modeling components in Revit Architecture
- Structural Elements & Annotation Elements

**GUIDELINES:**

- Regular attendance is mandatory to issue certificate.
- Certificate will be provided only, after giving overall feedback and fulfilling other requirements.

**About the course:**

Revit Architecture is an Autodesk developed engineering Configuration and Documentation programming framework for draughts men and construction experts. Revit Architecture's tools and tricks are specifically designed to aid building data showing (BIM) work processes.

Architecture has the ability to impact dynamic data in savvy models by using BIM instead of Computer Assisted Drafting (CAD), allowing complex Building Systems to be precisely outlined and published in a short period of time. This allows improvements made in one part of the model to spread naturally to other parts of the model, resulting in a faster work process for Revit Architecture Clients.

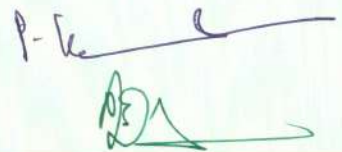

**Expected Outcomes of the course:**

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a structure using the standards and design guidelines taught during the course.
- Learning Revit now gives you the confidence to use BIM models to process data and understand how to automatically reflect changes made to objects in the model throughout the project.
- Revit helps designers design, simulate, visualize and collaborate to benefit from interconnected data in BIM models
- Linking CAD and Revit files as the basis of a project. Creating Levels and Grids as datum elements for the model.

- Creating a 3D building model with walls, curtain walls, windows, and doors. Adding component features, such as furniture and equipment.
- Revit is used to coordinate all data inputs (including CAD) and produce federated project deliverables.
- Both programs are often used within the same firm, with BIM and CAD specialists working on different elements of a project.
- First, get comfortable with the Revit environment, and learn to set up a project and add the grids, levels, and dimensions that will anchor your design.
- It also includes advanced techniques for modeling stairs and complex walls, adding rooms, and creating schedules. Finally, discover how to annotate your drawing so all the components are perfectly understood, and learn how to output sheets to PDF and AutoCAD.

**About Resource Persons:**

- Mr.P.S.S.Anjaneya Babu, is working as Assistant Professor in Department of Civil Engineering, Gudlavalleru Engineering College.
- Mr.K.Nagarjuna is working as Assistant Professor in Department of Civil Engineering, Gudlavalleru Engineering College.

**Summary Report on “A Value Added Course on Revit Architecture” in Civil Engineering**  
**(14-11-2019 to 18-11-2019)**

**Title of the course:** “A Value Added Course on Revit Architecture”

**Duration:** 14-11-2019 to 18-11-2019

**Resource Persons:**

- **Mr. P.S.S.Anjaneya Babu, Asst. Prof., CE, 9966527355**
- **Mr.K.Nagarjuna, Asst.Prof., CE, 9866665281**

**Objectives of the program:**

- To introduce various software tools and their applications in Civil Engineering.
- To make the students more effective in the field of Civil Engineering with respect to this software
- The aim of this value added course is to provide the knowledge about The Autodesk Revit software.

**Topics Covered:**

- Selection in Revit
- Navigation in Revit
- Modeling components in Revit Architecture
- Structural Elements & Annotation Elements

**Outcomes of the program:**

- Students will be able to know the latest technologies in various software tools and other upcoming technologies.
- Students will be able to design a structure using the standards and design guidelines taught during the course.
- Learning Revit now gives you the confidence to use BIM models to process data and understand how to automatically reflect changes made to objects in the model throughout the project.
- Revit helps designers design, simulate, visualize and collaborate to benefit from interconnected data in BIM models.

**No. of students enrolled the course: 185**

## DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

### CIRCULAR

Date: 16-08-2019

The department of EEE is organizing a course on "PCB DESIGN PHASE I" by APSSDC team from 19-08-2019 to 21-08-2019 for II B. Tech Students. Hence all the II B. Tech Students are informed to attend the program without fail.

**Note:** The academic coordinator and class teachers of II B.Tech students are requested to monitor, take the attendance in forenoon and afternoon sessions and make the attendance available in e-cap before 3 P.M. every day.

Venue: A4 seminar hall and EEE simulation lab.

Time: 9:00 A.M. to 4:40 P.M

**The College:**

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

**The Department:**

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 2 times by the National Board of Accreditation (NBA). The department has qualified and experienced staff and well-equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M. Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in Electrical and Electronics Engineering.

**Resource Persons:**

- Team APSSDC

**Objectives of the Program:**

- To understand the need for PCB and steps involved in PCB Design and Fabrication Process
- To familiarize schematic and layout design flow using Electronic Design Automation (EDA) tools.

**Topics:**

- Basics of PCB Design Process and Layout Planning.
- Design rules and parameters of PCB
- Introduction of various simulators like SPICE and PSPICE environment
- PCB layout Designing.
- PCB technology Trends.

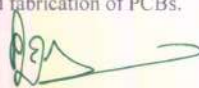

**Eligibility:** All II B. Tech Students  
**Registration fee:** Rs 300/-

**About the course:**

PCB design aids electronic engineers in designing layouts for printed circuit boards. Engineers leverage it to collaborate on the design process, pull previously used circuit board component designs from PCB libraries and verify circuit schematic designs. PCB design is most often used by engineering firms and teams that may be involved with product development. PCB design software is often implemented as a part of other design software systems such as product and machine design. To qualify for inclusion in the PCB design category a product must modify PCB layouts and PCB circuitry, include components so users can easily implement high quality PCB footprints and provide other attributes of components such as wires, nets and pins.

**Expected Outcomes of the course:**

- Students will be able to acquire basic knowledge on Printed Circuit Board (PCB) and carry out a PCB design with required specifications.
- Students will be able to recognize the technologies used in industry through practical experience gained in the course.
- Students will be able to apply advance techniques, skills and modern tools for designing and fabrication of PCBs.

**About the Resource Person:**

APSSDC stands for Andhra Pradesh State Skill Development Corporation. It is a unique organization formed as a public- private partnership corporation to promote skill-development in the state of Andhra Pradesh, India. APSSDC's objective is to create a skilled workforce by imparting skill-based training to youth and promote entrepreneurship and innovation in the state. Also to identify the gaps in the existing skills ecosystem and upgrade skills to international standards through significant industry involvement, develop necessary frameworks for quality assurance and establish state-of-art skill colleges across all MP constituencies to redefine employability skills in the state of Andhra Pradesh. Ensure the effectiveness of the different skill development programs conducted by state government departments, corporations, societies and agencies by convergence and standardization. APSSDC works closely with various industries and training partners to design and deliver skill-development programs that are relevant to the job market. The organization also provides placement services to the trained candidates and helps them find suitable employment opportunities. Additionally, APSSDC conducts workshops, seminars, and awareness programs to create a conducive environment for skill-development in the state.

**Report on Value Added Course titled “ PCB Design Phase I and PCB Design Phase II”**

**Title of the course: “PCB Design Phase I and PCB Design Phase II”**

**Duration:** 19-08-2019 to 21-08-2019 and 27-02-2020 to 29-02-2020

**Resource Persons:**

- Team APSSDC

**Objectives of the program:**

- To understand the need for PCB and steps involved in PCB Design and Fabrication Process
- To familiarize schematic and layout design flow using Electronic Design Automation (EDA) tools.

**Topics Covered:**

- Basics of PCB Design Process and Layout Planning.
- Design rules and parameters of PCB
- Introduction of various simulators like SPICE and PSPICE environment
- PCB layout Designing.
- PCB technology Trends.
- Auto routing and Manual Routing
- Screen printing process, solders alloys, fluxes, solder techniques.
- Multi-layer PCBs.
- Introduction to High Density Interconnection technology.
- PCB placement in an enclosure.
- Recycling techniques.

**Outcomes of the program:**

- Students will be able to acquire basic knowledge on Printed Circuit Board (PCB) and carry out a PCB design with required specifications.
- Students will be able to recognize the technologies used in industry through practical experience gained in the course.
- Students will be able to apply advance techniques, skills and modern tools for designing and fabrication of PCBs.

No. of students enrolled the course: 163

No. of students completed the course: 161

Dr. A. Jawhar Babu  
SPOC, ARC Labs,  
Gudlavalleru Engineering College

Sir,

Greetings for the day!

After much await, we are delighted to announce the launch of ARC 1.0 for the students of "Indo European Skilling Centers for Mechatronics and Industrial Robotics". The Inaugural session (Online) is scheduled on 22nd July, Monday at 2:00- 4:00 PM IST. The session will be lead by Prof. Dr. Gunther Starke, Research Director, APS GmbH European Center for Mechatronics.

Due to the delay in the commencement of the course, the schedule of the online and offline sessions circulated initially is being reworked. Also, the ARC 2.0 Faculty Development Program is being scheduled in AP, India in two batches (different locations to cover all the faculty of ARC Labs) in the first half of August.

Keeping in mind the crunch schedule, and for better utilization of time, and also to avoid clashes between the offline sessions and the faculty ARC 2.0, the following schedule has been confirmed for the initial sessions/modules of the ARC 1.0 (crash course).

A comprehensive schedule for the complete course will be circulated upon receiving confirmation from all our partners.

Online sessions by Prof.Starke		Offline modules by Indian faculty *	
Date	Online session	Date	Offline Module
22nd-July-19	Mechanics and Kinematics	24th-July-19	Module-1, Introduction
6th-Aug-19	Motion control and Controller functions	27th-July-19	Module 2 – Mechanical Structure & Actuation
8th – Aug - 19	Tools	31st-July-19	Module 3 – Motion Control,
		2nd Aug-19	Module 4 -Robot Control & Programming

\* Offline sessions may be conducted as per the convince of the faculty member and students. However, we advise to following the prescribed schedule.

The contents for the offline sessions and presentations/materials have already been shared with the faculty members (mail dt:3rd June 2019). We request the faculty members to make use of the presentations and your own materials to deliver the topics effectively. Please find the offline teaching modules 1 - 10 for your reference one drive link below.

<https://1drv.ms/f/s!AqzsnPa1GNvJiyQ5m8PQ4Hy1971b>

Please complete the enrollment process before the commencement of the program.

General Instructions for the classes:

- We are using zoom platform for the online session and login credentials will be shared one day/two days before the session.
- Seminar halls can be used for the Inaugural session, kindly make necessary arrangements projector, speakers and mic to interact with students on clarifying doubts.
- Please inform the students regarding the inaugural session and ensure their attendance.
- Licenses/Software for Icus robots will be provided to respective colleges the following week after the inaugural session.
- Attendance record is mandatory for the students attending online/offline sessions, also records are to be maintained of the students attending the ARC Labs (practical sessions and self-learning). Attendance should be communicated to us immediately after each session.

Thanks and regards,

.....

Dear ARC partners,

Greetings !!

After consolidating all the calendars from partner institutions, considering the points and suggestions from recent conference call with colleges SPOC's persons and faculties, we designed schedule for ARC 1.0 remaining sessions and same was shared and taken approval from German faculty.

We also request you to submit the Indian faculty teaching plan with dates and topics.

Please look into the attachments for remaining schedule of ARC 1.0. Similarly, ARC 2.0 and 3.0 also will be shared in the next days.

If you have any questions, please do not hesitate to write to us over an email.

Thanks and regards,

## ARC 1.0 COURSE COMPLETION REPORT

Dear Sir/Madam,

Sub:- APSSDC – ECM Convergence Centers - Successful completion of course ARC 1.0 and attendance report.

\*\* \*\* \*

With reference to the captioned subject, we would like to confirm that all modules (online and offline) of Applied Robot Control 1.0 have been delivered to the students. The final modules of online and offline sessions are delivered on 01<sup>st</sup> October 2019 and 03<sup>rd</sup> October 2019 respectively.

A total of 47 students have registered from our institution and their details are already submitted to your good office. Herewith we are forwarding the attendance of the individual online and offline sessions for your reference (soft copies of the same are shared with APSSDC and ECM time-to-time). The attendance percentage for the course stood at 85.96% for the online sessions and 93.19% for the offline sessions.

We would also like to confirm that the study materials and video recordings of the sessions have been circulated among the students and the ARC faculty members have been in constant touch with the students to clarify doubts and topics from the sessions missed, if any. Also, the ARC lab has been kept accessible to the students for self-learning and practice.

Submitted for kind information and necessary processes.

Dr. A. Jawhar Babu  
SPOC, ARC Labs,  
Gudlalleru Engineering College

Dear Sir,

Greetings for the day!

We are delighted to announce the launch of ARC 1.0 for the students of “Indo European Skilling Centers for Mechatronics and Industrial Robotics”. This Inaugural session is scheduled at 2 - 4 PM IST, 22nd July, Monday. (Login credentials are mentioned below)

We request all the Managements, SPOCs and faculty members to kindly be present for the live event along with your students and make the occasion a grand success.

Topic: Inaugural session of ARC 1.0 in “Indo-European Skilling Centers for Mechatronics and Industrial Robotics”.

Time: 22 July 2019 @ 2:00 PM IST.

Join Zoom Meeting

Meeting ID: 458-976-272

Join us: <https://zoom.us/j/458976272>

(Do not share meeting id with the students, it will allow a limited number to access them an online session. It may affect the bandwidth).

Attendance record is mandatory for the students attending online and offline sessions. We request all the faculty members to maintain the attendance accordingly. Herewith we are sharing with you the attendance format.

Since colleges are given flexibility in preparing their own timetable for ARC 1.0 offline sessions, We hereby request all the members to submit the College program schedule of the offline sessions, after incorporating into the academic calendar. Details like lectures by Indian faculty for the next 4 sessions are to be incorporated.

Please ensure that the enrollment process will be completed before the commencement of the program.

Thanks and regards,

.....

Dr. A. Jawhar Babu  
SPOC, ARC Labs,  
Gudlalleru Engineering College

Dear Sir,

Greetings for the day!

We would like to share with you all that the ARC 1.0 program for students has commenced on 22nd July (Inaugural session), also the 1st online session was successfully delivered on Thursday.

As we promised earlier, Herewith we are providing the ARC 1.0 online session schedule. The German faculty will be delivering the online sessions to the students twice a week on Tuesday and Thursday afternoons(2-4 PM). Two offline sessions by ARC Indian faculty shall be conducted in order to deliver the 10 offline modules. These offline modules can be delivered on either Monday/Friday or whichever way based on the convenience of the faculty and student's academic calendars. We recommend conducting the offline sessions in parallel to the online sessions the contents are complementary to each other.

ARC 1.0 Phase – 2 Colleges proposed online session schedule:

Online Sessions of ARC 1.0 by German faculty		
Session Number	Day & Date	Topic
Session – 1	Thursday, 25th-July-19	Mechanics and Kinematics
Session – 2	Tuesday, 13th-August-19	Motion control and Controller functions
Session – 3	Wednesday, 14th-Aug-19	End Arm Tooling
Session – 4	Tuesday, 20th-Aug-19	Robot programming
Session – 5	Thursday, 22nd-Aug-19	Sensors & Adaptive functions
Session – 6	Tuesday, 27th-Aug-19	Robot performance
Session – 7	Wednesday, 28th-Aug-19	Project: Pick & Place Operations
Session – 8	Tuesday, 3rd-Sep – 19	Project: Commissioning & Palletizing
Session – 9	Thursday, 5th-Sep-19	Project: Assembly of windshields
Session – 10	Tuesday, 10th -Sep-19	Project: ARC welding

Please plan your offline session so as to complete the delivery of all the 10 modules by 1st week of September. We request the SPOCs/Faculty members of respective colleges to submit the ARC 1.0 calendar (offline sessions) with academic calendars of respective colleges and propose changes/modification to be made, if necessary.

## ARC 1.0 Online Sessions Schedule

Online Sessions of ARC 1.0 by German faculty		
Session Number	Day & Date	Topic
Session – 7	Monday 23 <sup>rd</sup> Sept 19	Project: Pick & Place Operations Simulation and demonstration with ABB Robot Studio for Industrial Project Application: Pick & Place Operations
Session – 8	Tuesday, 24 <sup>th</sup> Sep 19	Project: Commissioning & Palletizing Simulation and demonstration with ABB Robot Studio for Industrial Project Application: Commissioning & Palletizing
Session – 9	Wednesday, 25 <sup>th</sup> Sep 19	Project: Assembly of windshields Simulation and demonstration with ABB Robot Studio for Industrial Project Application: Assembly of windshields
Session – 10	Tuesday, 1 <sup>st</sup> Oct 19	Project: ARC welding Simulation and demonstration with ABB Robot Studio for Industrial Project Application: ARC welding

Time: 2:00 PM IST (10:30 AM CET) . We will send the online class ID's prior to the session as before

For any questions please contact on [arc@indoeurosync.com](mailto:arc@indoeurosync.com)

**Department of Mechanical Engineering**

**Summary Report on Value Added Course titled "ARC 3.0 " 22-01-2020 to 07-03-2020**

**Title of the course:** "ARC 1.0"

**Duration:** 22-01-2020 to 07-03-2020

**Resource Persons:**

- Team ARC  
Phone: 8686100696  
Mail Id: arc@indoeurosync.com

**Objectives of the program:**

1. Brining latest technologies in automation and manufacturing sectors to the labs of colleges.
2. Real-time training to supplement students with skill on advanced technologies to make them stand out in global arena.
3. Firsthand experience on industrial robots for the students
4. Learning with industry –driven production Requirements
5. Creation of knowledge pool of students with high-end technical skills for immediate absorption into research and Industry.

**Topics Covered:**

- Introduction to Yaskawa Robotics
- Introduction to offline simulation of robot by motosim EG
- Introduction to interpolation in Yaskawa robot
- Creating workstation with 2D object welding using MOVJ and MOV L instruction and Assessment I
- Recap of previous classes, Introduction to Circular and Spline interpolation , Creating workstation with MOVC and MOVS and Programming instructions JUMP and LABEL and Practice session
- TIMER instructions, LOOPING Instructions Creating welding application with the instructions and Practice session and Assessment II
- Recap of previous classes, Conveyor tracking application development, Creating an application with gantry and press robot and Practice session
- Creation of multiple jobs , Application development by Call and looping instruton, Practice

- Student gained knowledge on Key technologies of industry 4.0 such as basics of Mechatronics, Robotics and Integration of both for Smart Manufacturing
- Student gained knowledge on LCA, Expert Systems which is used in industry and perform different robotic tasks by using Cprog Software and IGUS Robot controller
- Student gained knowledge on PLC and Codesys Software and perform different assignment tasks provided.
- Students learned about IIOT with the industry observations.

**No. of students enrolled the course: 47**

Dear Respected Faculty Members,

Greeting for the day!

Please find below the web-link for the online introductory session scheduled on, 18th November Monday @ 2.00 PM IST (9:30 AM CET).

Topic: ARC 2.0 Introductory session by Prof. Starke, European Center for Mechatronics.

Time: November 18th, 2019, 2:00 PM IST.

Join Zoom Meeting

Meeting ID: 391-841-723

<https://zoom.us/j/391841723>

Dear Respected Members,

Greetings for the day!

As we discussed on (11.11.2019) con call with faculties and spokespersons, we would like to share the attached ARC 2.0 program curriculum and schedule after having a discussion with the German team. Further to that, we would like to organize one session with prof. Starke and team about Indian faculty teaching topics and delivery of the related materials and detailed schedules.

The German faculty will be delivering the online sessions to the students in the afternoons (2-4 PM) as per the attached schedule. offline sessions by ARC Indian faculty shall be conducted in order to deliver the 10 offline modules. These offline modules can be delivered on whichever way based on the convenience of the faculty and student's academic calendars. We recommend conducting the offline sessions, parallel to the online sessions as the contents are complementing each other.

ARC 2.0 for students will be commencing from 26th November 2019. Hence, request you to start the registration process of ARC 2.0, for the eligible students are who successfully completed the ARC 1.0 certification test. We would expect all the successful candidates from 1.0 will be continuing with 2.0.

Herewith we are providing the ARC 2.0 online session schedule and curriculum for offline sessions.

Also, please note that students who successfully completed 1.0 and 2.0 will only be eligible for job Melas/drives and for higher education assistance. In similar way colleges also will be recognized only with their successful number of students only in order to prioritize to receive the value additions from us.

Once again, please find the attached schedule and curriculum for ARC 2.0 and please share your comments over an email until this weekend.

Thanks and regards,

.....

## ARC 2.0 Lecture Plan

	<u>Online Session by Prof : Starke</u>		<u>Lectures by Indian Faculty Members</u>
1	IGUS Robots: Referencing & Calibration; Work Space; Work space limitations; Singularity	1	<b>IGUS Robots:</b> Introduction into IGUS robot technology
2	IGUS Robots: Kinematic modelling, Link frame transformation, DH-model, model parameters	2	<b>CPRog Controller:</b> Architecture, menu structure, commands, motion, basic functions; safety instructions
3	IGUS Robots: Differential motion, Jacobian of the robots	3	<b>CPRog Controller:</b> Variables, Variable settings, calculation with variables; loops; logical functions, Wait conditional
4	IGUS Robots: Performance, positioning accuracy, repeatability	4	<b>End-arm Tooling:</b> gripper technology, gripper control; Magnetic gripper; vacuum gripper
5	IGUS Robots (advanced): Control of robot work by PLC→ fundamentals	5	<b>Robot Programming:</b> Program structures, motion planning, control of processes
6	IGUS Robots (advanced): PLC control of robot station and peripheral devices	6	<b>I/O and communication:</b> I/O data exchange, interfacing, CAN-Bus application
7	IGUS Robots (advanced): PLC-controlled robot / robot collaboration	7	<b>Robot application 1:</b> Pick& Place, Sorting/ selection/ order allocation; commissioning
8	IGUS Robots (advanced): Sensor-controlled Robot work	8	<b>Robot Application 2:</b> Robot/Robot collaboration
9	IGUS Robots (advanced): Camera-based robot control (Eye-to-Hand); application studies	9	<b>Student Presentation:</b> Results from practical work (optional)
10	IGUS Robots (advanced): "Eye-in-Hand" robot control (visual servoing)	10	<b>Student Presentation:</b> Results from practical work (optional)

## DEPARTMENT OF MECHANICAL ENGINEERING

### Summary Report on Value Added Course titled “ARC 2.0 “26-11-2019 to 19-12-2019”

**Title of the course:** “ARC 2.0”

**Duration:** 26-11-2019 to 19-12-2019

**Resource Persons:**

- Team ARC  
Phone: 8686100696  
Mail Id: arc@indoeurosync.com

**Objectives of the program:**

1. Brining latest technologies in automation and manufacturing sectors to the labs of colleges.
2. Real-time training to supplement students with skill on advanced technologies to make them stand out in global arena.
3. Firsthand experience on industrial robots for the students
4. Learning with industry –driven production Requirements
5. Creation of knowledge pool of students with high-end technical skills for immediate absorption into research and Industry.

**Topics Covered:**

- Referencing & Calibration; Work Space; Work space limitations; Singularity
- Kinematic modelling, Link frame transformation, DH-model, model parameters
- GUS Robots: Differential motion, Jacobian of the robots
- Performance, positioning accuracy, repeatability
- Control of robot work by PLC fundamentals
- PLC control of robot station and peripheral devices
- PLC-controlled robot / robot collaboration
- Sensor-controlled Robot work

- Camera-based robot control (Eye-to-Hand); application studies
- “Eye-in-Hand” robot control (visual servoing)

**Outcomes of the program:**

- Student gained knowledge on Key technologies of industry 4.0 such as basics of Mechatronics, Robotics and Integration of both for Smart Manufacturing
- Student gained knowledge on LCA, Expert Systems which is used in industry and perform different robotic tasks by using Cprog Software and IGUS Robot controller
- Student gained knowledge on PLC and Codesys Software and perform different assignment tasks provided.
- Students learned about IIOT with the industry observations.

Dear Respected Members,

Dear Sir,

Greetings for the day!

Please find the list of trainers for the process of Software Installation scheduled for 24/01/2020, Friday.

We have given your respected SPOCs and faculty details to our team. Kindly make the necessary arrangements.

The system and lab requirements for the ARC centers as follows:

Windows 7 Professional 64 bit / Windows 10 64 bit  
a minimum of 2 GB Ram, HDD 10 GB free space for installing the software.  
Projector, Mic, Speakers and the total number of systems to accommodate all the students.

- 1). Andhra Loyola Institute of Engineering and Technology - Mr. Vinay Sai
- 2). Sri Venkateswara College of Engineering Technology - Mr. Sanju
- 3). Gudlavalleru Engineering College - Mr. Suresh N
- 4). Aditya Institute of Technology and Management - Mr. Pavan Kumar
- 5). Annamacharya Institute of Technology and Sciences - Mr. Nagaraj

Further information any, please contact:

Mr. R. Vignesh  
Project Coordinator  
+91 7338776428

Regards,  
Chanakya Konidena  
Indo Euro Synchronization  
8686100696.

## WEEK WISE SCHEDULE

**Week 0: 23<sup>rd</sup> Jan 2020 – 25<sup>th</sup> Jan 2020**

**Software Installation**

**Week 1: 27 – Jan – 2020, 01 – Feb - 2020**

**Day 1:**

Introduction to Yaskawa Robotics

- Evolution of industrial robots
- Anatomy of industrial robot
- Manipulator
- Controller
- End effectors
- Drives
- Sensors

Introduction to offline simulation of robot by motosim EG

- Creating workstation
- Placing robot on workstation
- Attaching end effectors

**Day 2:**

Introduction to interpolation in Yaskawa robot

- Joint interpolation
- Linear interpolation

Creating workstation with 2D object welding using MOVJ and MOV L instruction

Practice Session

Assessment I

**Week 2: 4 - Feb – 2020 – 8-Feb - 2020**

**Day 3:**

Recap of previous classes

Introduction to Circular and Spline interpolation

Creating workstation with MOVC and MOVS

Programming instructions JUMP and LABEL

Practice session

**Day 4:**

TIMER instructions

LOOPING Instructions

Creating welding application with the instructions

Practice session

Assessment II

**Week 3: 10 – Feb – 2020 – 15 – Feb - 2020**

**Day 5:**

Recap of previous classes

Conveyor tracking application development

Creating an application with gantry and press robot

Practice session

**Day 6:**

Creation of multiple jobs

Application development by Call and looping instruton

Practice session

Assessment III

**Week 4: 17 – Feb -, 22 Feb 2020**

**Day 7:**

Introduction to Yaskawa Hardware robot Electrical connection

Teaching the robot hardware by Teach pendant

Different modes of operation

- Teach mode
- Play mode

- Remote mode

Introduction to Co-ordinate system

Tool Co-Ordinate system

- Tool Calibration
- Multiple tool creation
- Auto calibration

User Co-Ordinate system

- Creating a user co-ordinate system
- Work object co-ordinate system
- Welding a slanting object by user co-ordinate system

**Day 8:**

Looping Instructions

- IF
- IF ELSE
- FOR-NEXT
- WHILE
- SWITCHCASE

Introduction to variables

Arithmetic Instructions

Shift ON & OFF Instructions

Development of palletizing concept

- Mirror shift and parallel shift
- Wiring Concept for port

Assessment – IV

**Week 5 & Week 6: 24<sup>th</sup> – Feb 2020, - 7<sup>th</sup> Mar 2020**

Project sessions

# INSTRUCTIONS

---

**General :** We are planning to launch the program from Jan 1<sup>st</sup> week to March last week. In order to provide weekly plan and execution locations, we would request you provide the topics to students and divide groups. Please make sure that these student will be successfully part of the ARC 3.0. These 12 weeks oriented as necessary trainings and project guidance.

- Expected number of Students per batch: : 4 to 5
- Number of topic for Batch : 1
- Deadline to submit the topics along with student batches : Thursday (19.12.2020)

In the case of questions, please contact [arc.projectdirector@indoeurosync.com](mailto:arc.projectdirector@indoeurosync.com)

# PROJECT TITLES

---

## Projects:

1. Designing arc welding application using robotic simulating software
2. Designing pick and place application using robotic simulating software
3. Automatic drilling and pressing machine using digital controller software
4. Manual Roller bending machine using digital controller software
5. Power Saving system for lathe machine using digital controller software
6. Weekly task alerting system using the digital controller
7. Windmill power generation screen using SCADA
8. Traffic light control in SCADA
9. Bottle filling machine screen development in SCADA
10. Labeling machine screen development in SCADA

# PROJECT TITLES

---

11. Car parking system screen development in SCADA
12. Smart Car Parking system using digital controller
13. Automatic Traffic light control using digital controller
14. Automatic bottle filling process using digital controller
15. Automatic street light control using digital controller
16. Municipality water transmission system using digital controller
17. Automatic corporation water distribution using SCADA
18. Designing arc welding application using collaborative robots in software
19. Designing arc welding application along with conveyor using sequence programming
20. Efficient energy management system using DIGITAL CONTROLLER

## PROJECT TITLES

---

21. Home safety using fire and gas detection in DIGITAL CONTROLLER software
22. Power supply with auto switching using DIGITAL CONTROLLER
23. Accurate room temperature control mechanism using DIGITAL CONTROLLER
24. Automatic water tank level control using DIGITAL CONTROLLER
25. Automatic water tank level control using SCADA
26. Monitoring and control of steam generator using DIGITAL CONTROLLER
27. Machine overheat detection with alerting mechanism using DIGITAL CONTROLLER
28. Smart escalator system with overload control using DIGITAL CONTROLLER
29. DIGITAL CONTROLLER based automated drainage water monitoring and controlling
30. Automatic air dryer control using DIGITAL CONTROLLER

## PROJECT TITLES

---

31. Automatic HVAC control using DIGITAL CONTROLLER
32. Water tank valve control mechanism using DIGITAL CONTROLLER
33. Automatic speed reduction system for a four wheeler using DIGITAL CONTROLLER
34. Programming for automatic Washing machine using DIGITAL CONTROLLER
35. Designing smart elevator control system using DIGITAL CONTROLLER
36. Pneumatic based 3 – axis robot
37. Automatic car parking system
38. Material segregation system using pneumatics
39. Automated drilling machine
40. Automated fire fighting agv using DIGITAL CONTROLLER

## PROJECT TITLES

---

41. Automated speed braking system depending on vehicle over speed using DIGITAL CONTROLLER
42. Automated hvac system using DIGITAL CONTROLLER
43. Automatic colour code sensing punching machine based on pneumatics and DIGITAL CONTROLLER
44. Smart Traffic light control using DIGITAL CONTROLLER
45. Smart water tank control using DIGITAL CONTROLLER

# GUDLAVALLERU ENGINEERING COLLEGE

(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)

SESHADRI RAO KNOWLEDGE VILLAGE :: GUDLAVALLERU

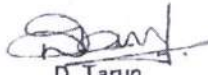

APSSDC - ECM Applied Robotics Control Skill Center

## List of Students Registered for ARC 3.0

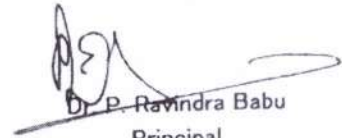

S.No.	Roll No.	Name of the Student	Year of Study	Branch
1	16481A0290	Puvvada Gopala Krishna	4th Year	EEE
2	16481A02B5	Vadlamudi Yaswanth	4th Year	EEE
3	17485A0228	M.Ruchitha	4th Year	EEE
4	16481A0318	Boddeda Chandu Naga Sai Sri	4th Year	ME
5	16481A0342	Egalapati Gopi	4th Year	ME
6	16481A0347	Goditala Siva Sankar Picasso	4th Year	ME
7	16481A0348	Gollapothu Uday Kumar	4th Year	ME
8	16481A0352	Srirama Gopala Krishna Gudimetla	4th Year	ME
9	16481A0356	Inti David Venus Paul	4th Year	ME
10	16481A0363	Kadali Yuva Kishore	4th Year	ME
11	16481A0387	Mallampallli Venkata Naga Sai Teja	4th Year	ME
12	16481A0396	Kasi Vignesh Babu Marrapu	4th Year	ME
13	16481A03B1	Naga Babu Yerram Setti	4th Year	ME
14	16481A03C1	Naga Venkata Sandeep Pasupuleti	4th Year	ME
15	16481A03C3	Peketi Kameswari	4th Year	ME
16	16481A03D6	Satti Venkata Reddy	4th Year	ME
17	16481A03D7	Shaik Basheeruddin Khasim	4th Year	ME
18	16481A03E2	Surarapu Bhanu Teja	4th Year	ME
19	16481A03E4	Ismail Syed	4th Year	ME
20	17485A0301	Shaik Maheen	4th Year	ME
21	17485A0307	Esub Khan	4th Year	ME
22	17485A0311	Vadrevu Siva Sankar	4th Year	ME
23	17485A0320	Batchu Naga Renuka Ramanuja	4th Year	ME
24	17485A0322	Alladi Balaji	4th Year	ME
25	17485A0330	Gongati Gopi Babu	4th Year	ME
26	17485A0336	Medabalimi Sanjay Kumar	4th Year	ME

S.No.	Roll No.	Name of the Student	Year of Study	Branch
27	17485A0342	Thota. Srikanth	4th Year	ME
28	17485A0343	Chitta Praneeth	4th Year	ME
29	17485A0349	Challagundla Venkata Naga Teja	4th Year	ME

**Department of Mechanical Engineering**

**Summary Report on Value Added Course titled “ARC 3.0 ” 22-01-2020 to 07-03-2020**

**Title of the course: “ARC 3.0”**

**Duration:** 22-01-2020 to 07-03-2020

**Resource Persons:**

- Team ARC  
Phone: 8686100696  
Mail Id: arc@indoeurosync.com

**Objectives of the program:**

1. Brining latest technologies in automation and manufacturing sectors to the labs of colleges.
2. Real-time training to supplement students with skill on advanced technologies to make them stand out in global arena.
3. Firsthand experience on industrial robots for the students
4. Learning with industry –driven production Requirements
5. Creation of knowledge pool of students with high-end technical skills for immediate absorption into research and Industry.

**Topics Covered:**

- Introduction to Yaskawa Robotics
- Introduction to offline simulation of robot by motosim EG
- Introduction to interpolation in Yaskawa robot
- Creating workstation with 2D object welding using MOVJ and MOV L instruction and Assessment I
- Recap of previous classes, Introduction to Circular and Spline interpolation , Creating workstation with MOVC and MOVS and Programming instructions JUMP and LABEL and Practice session
- TIMER instructions, LOOPING Instructions Creating welding application with the instructions and Practice session and Assessment II
- Recap of previous classes, Conveyor tracking application development, Creating an application with gantry and press robot and Practice session
- Creation of multiple jobs , Application development by Call and looping instruton, Practice

session and Assessment III

- Introduction to Yaskawa Hardware robot Electrical connection, Teaching the robot hardware by Teach pendant ,Different modes of operation, Introduction to Co-ordinate system Tool Co-Ordinate system and User Co-Ordinate system.
- Looping Instructions, Introduction to variables ,Arithmetic Instructions Shift ON & OFF Instructions, Development of palletizing concept and Assessment – IV

**Outcomes of the program:**

- Student gained knowledge on Key technologies of industry 4.0 such as basics of Mechatronics, Robotics and Integration of both for Smart Manufacturing
- Student gained knowledge on LCA, Expert Systems which is used in industry and perform different robotic tasks by using C-prog Software and IGUS Robot controller
- Student gained knowledge on PLC and Code Sys-Software and perform different assignment tasks provided.
- Students learned about IIOT with the industry observations.

**No. of students enrolled the course: 29**

**No. of students completed the course: 29**

**CIRCULAR**

Date: 14-09-2019

The department of Mechanical Engineering is organizing Value-Added Course  
"Software training on CATIA, DELMIA and SIMULIA " for II, III & IV B. Tech students  
in association with APSSDC DASSAULT 3D Experience Centre, from 18-09-2019 to 07-02-2020  
in association with APSSDC-Dassult Systems. Hence all the students are informed to attend the course without fail.

3D Experience Centre's

# Skill Development in Engineering Design

53 Experience Centre's yet to set-up across A.P

Expanding to 100 3D Experience at the end of FYI 2018-2019

To train more than 1,00,000 Students in R & D implementation

### Objectives & Features

To enhance employability skill for Engineering Graduates in Research & Development technology implementation by imparting skills in Engineering Design in 3D Experience Platform, throughout for four year academic program.

- Students to implement innovative thoughts on 3D Experience platform for Product Development.
- Improve Student's confidence levels by working in Domain's such as Aerospace Automotive and Off-shore Engineering.
- Improved oppurtunities & placement , sustainability upon recuritment
- Expanding to 100 3D Experince Centre's through out the state.

### Target Group

Engineering students from 2,3 & 4 year's from Mechanical, Electronics, Electric, Civil and Production as well as Engineering Graduates and Post-Graduates.

### Levels of Training

#### Level - A

- A- Level focuses on 2nd ,3rd amd 4th year core engineering students, and covers the the software application, introduction for Mechanical Design, Digital Manufacutring Equipment System and Finite Element Analysis. The course duration is 150 hours out of which classroom training is 70 hours, while practice and project is for 80 hours.

*3S CATIA*      *3S DELMIA*      *3S SIMULIA*

#### Level - B

- B-Level focuses on Diploma and 3rd year Engineering Students. It covers the basic Domain-specific training related to three industry verticals such as Automotive Aerospace & Ship Building ( Marine & Offshore )

#### Level - C

- C-Level focuses on final year engineering students. It covers the Advance Industry Domain Specific Training. The course will spread across the three months and will include an application project.

#### Level - D

- The capstone project of the 8th semester can be performed by the students under the guidance of One local and One industry mentor. The duration of the project depends on the team size, capacity and complexity of the other projects.

**Gudlalleru Engineering College**  
 (An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)  
 Seshadri Rao Knowledge Village, GUDLAVALLERU  
**Department of Mechanical Engineering**

**APSSDC DASSAULT 3D Experience Centre**

**Objective :**

- To enhance employability skills in Research & Development technology implementation for Engineering Graduates by imparting skills in Engineering Design using 3 D Experience Platform

**Outcomes :**

Students will be able to

- get hands on experience of using 3D Experience Platform
- implement innovative thoughts for product development using 3D Experience Platform

**Target Group:**

Engineering Students from 2,3 and 4 th year UG and PG Programs

**Levels of Training :**

Level A focuses on 2<sup>nd</sup> ,3<sup>rd</sup> and 4<sup>th</sup> year core engineering students and covers the software training on CATIA , DELMIA and SIMULIA

Level B focuses on 3<sup>rd</sup> year Engineering Students . It covers the basic Domain Specific training related to three industry verticals such as Automotive , Aerospace & Ship Building

Level C focused on final year engineering students .It covers advance industry domain specific training and will include an application project

Level D focuses on project of the 8<sup>th</sup> semester under the guidance of One local and one industry mentor.

**List of Computers Available:**

S.No.	Description	Qty.	Cost	Remarks
1	<b>HP Z240T Workstation:</b> Intel Core i7-7700, 7 <sup>th</sup> Gen Processor, 64 GB RAM (4 x 16) 1 TB SATA HDD (7200 RPM) / Nvidia Quadro P1000, 4GB Graphic Card	01	1,29,000	Purchased by College
2	<b>HP Z240T Workstation:</b> Intel Core i7-7700, 7 <sup>th</sup> Gen Processor, Intel C236 Chipset / 16 GB RAM (2 x 8) / 1 TB SATA HDD (7200 RPM) / Nvidia GTX 1050 T1, 4GB DDR5 Graphic Card	36	27,54,000	Purchased by College
3	<b>HP ZBOOK 15U G4 Mobile Workstation</b> Intel Core i5, 7 <sup>th</sup> Gen, 7200 Processor, 16GB DDR4 RAM,	36	-	Provided by

## TRAINING DELIVERY CONTENT

<b>TOOL: CATIA</b>	<b>DURATION: 60 Hrs</b>	<b>SESSION: 2Hrs/Day</b>
<b>SESSION</b>	<b>DELIVERABLES</b>	
<b>SESSION-1</b>	<ul style="list-style-type: none"><li>• About 3D Experience Lab</li><li>• About Industries/Design &amp; R&amp;D</li><li>• CATIA/Delmia/Simulia</li></ul>	
<b><u>SKETCHER</u></b>		
<b>SESSION-2</b>	<ul style="list-style-type: none"><li>• Workbench Introduction</li><li>• Types of Sketches</li><li>• Creating profiles</li><li>• Practice of Profile tool bar with 3 to 4 Basic sketches.</li></ul>	
<b>SESSION-3</b>	<ul style="list-style-type: none"><li>• Sketcher constraints</li><li>• sketcher operations</li><li>• Practice 5 sketches with different Constrains</li></ul>	
<b>SESSION-4</b>	<ul style="list-style-type: none"><li>• Transformation of profiles</li><li>• Projection from 3D elements</li><li>• Practice of transform tools with suitable sketches</li></ul>	
<b>SESSION-5</b>	<ul style="list-style-type: none"><li>• Sketch analysis</li><li>• Sketch modifications</li><li>• Create 5 to 10 Sketches with Iso Constrain</li></ul>	
<b><u>PART DESIGN</u></b>		
<b>SESSION-6</b>	<ul style="list-style-type: none"><li>• Workbench Introduction</li><li>• Reference Elements</li><li>• Practice of types of point, line and planes</li></ul>	
<b>SESSION-7</b>	<ul style="list-style-type: none"><li>• Basic Solid Features</li><li>• Practice of basic 2D to 3D parts</li><li>• Advanced Solid Features</li><li>• Practice of Ribs, Slots &amp; Multisections</li></ul>	

SESSION-8	<ul style="list-style-type: none"> <li>• Dress up features</li> <li>• Practice of Fillets, chamfers, shell</li> </ul>
SESSION-9	<ul style="list-style-type: none"> <li>• Advanced Dress up features</li> <li>• Practice of Draft and other features</li> </ul>
SESSION-10	<ul style="list-style-type: none"> <li>• Transformation of solids</li> <li>• Practice of Pattern, mirror &amp; Scaling</li> </ul>
SESSION-11	<ul style="list-style-type: none"> <li>• Surface based features</li> <li>• Practice of Splitting solids with surfaces</li> <li>• Maintenance of Specification tree</li> </ul>
SESSION-12	<ul style="list-style-type: none"> <li>• Introduction to Body concept</li> <li>• Explain the needs of Body concepts</li> <li>• Boolean operations</li> <li>• Practice 3D models using Booleans</li> </ul>
SESSION-13	<ul style="list-style-type: none"> <li>• Creation of complex parts using body concept</li> <li>• Practice 3 to 5 complex Solids using Body Concept</li> </ul>
SESSION-14	<ul style="list-style-type: none"> <li>• Editing solid geometry</li> <li>• Editing &amp; replacing of Bodies, sketches</li> </ul>
SESSION-15	<ul style="list-style-type: none"> <li>• Power copy</li> <li>• Practice of Power copy tool</li> </ul>
<b><u>ASSEMBLY</u></b>	
SESSION-16	<ul style="list-style-type: none"> <li>• Introduction to Workbench</li> <li>• Importing of Parts &amp; Products</li> <li>• Practice of Product structure tools with basic Assembly</li> </ul>
SESSION-17	<ul style="list-style-type: none"> <li>• Assembly Constraints</li> <li>• Practice of various Constrain tools</li> </ul>
SESSION-18	<ul style="list-style-type: none"> <li>• Types of Assembly – approach</li> <li>• Top Down Assembly</li> <li>• Creating 2 to 3 assemblies with top down approach</li> </ul>
SESSION-19	<ul style="list-style-type: none"> <li>• Bottom Up Assembly</li> <li>• Creating assemblies by importing parts</li> </ul>

SESSION-20	<ul style="list-style-type: none"> <li>• Digital Mock up Intro</li> <li>• Scene Creations</li> <li>• Practice Of basic DMU tools and Stimulations</li> </ul>
<b><u>GSD</u></b>	
SESSION-21	<ul style="list-style-type: none"> <li>• Introduction to Workbench</li> <li>• Creation of Surfaces</li> </ul>
SESSION-22	<ul style="list-style-type: none"> <li>• Introduction to Workbench</li> <li>• Creation of Surfaces</li> <li>• Practice of Extude, revole &amp; primitive tools</li> </ul>
SESSION-23	<ul style="list-style-type: none"> <li>• Creating Basic Curves (Wireframe)</li> <li>• Practice of circle, spline, helix &amp; spiral</li> </ul>
SESSION-24	<ul style="list-style-type: none"> <li>• Creating Surfaces from Surfaces</li> <li>• Practice of blend, Multisections &amp; fill</li> </ul>
SESSION-25	<ul style="list-style-type: none"> <li>• Trimming Surfaces</li> <li>• Practice of Spliting &amp; trimming of surfaces</li> </ul>
SESSION-26	<ul style="list-style-type: none"> <li>• Creating curves on Surfaces</li> <li>• Creation of connect curves, isoparameteic, conic &amp; corners</li> <li>• Basic GSD operations</li> <li>• Practice 3 to 4 GSD Components</li> </ul>
SESSION-27	<ul style="list-style-type: none"> <li>• Projections</li> <li>• Advanced GSD operations</li> <li>• Conversion of Surfaces to Solid</li> <li>• Practice 3 to 4 Sheetmetal Components</li> </ul>
<b><u>DRAFTING</u></b>	
SESSION-28	<ul style="list-style-type: none"> <li>• Introduction to Workbench</li> <li>• Drafting Approach</li> </ul>
SESSION-29	<ul style="list-style-type: none"> <li>• View Creation</li> <li>• Dimensioning</li> </ul>
SESSION-30	<ul style="list-style-type: none"> <li>• Geometry modification</li> <li>• Editing Option</li> </ul>

## **Department of Mechanical Engineering**

### **Summary Report on Value Added Course titled “Software training on CATIA, DELMIA and SIMULIA” 18-09-2019 to 7-02-2020**

**Title of the course:** “Advance certification on Emerging Technologies”

**Duration:** 18-09-2019 to 7-02-2020

#### **Details of Trainers:**

Mr. G. Ramakrishna

Phone:

Mail Id: 0

#### **Objectives of the program:**

- To enhance employability skills in Research & Development technology implementation for Engineering Graduates by imparting skills in Engineering Design using 3 D Experience Platform

#### **Topics Covered:**

##### **SKETCHER**

SESSION-1 About 3D Experience Lab, Industries/Design, and R&D CATIA/Delmia/Simuli

SESSION-2 Workbench Introduction, Types of Sketches, Creating profiles and Practice of Profile tool bar with 3 to 4 Basic sketches.

SESSION-3 Sketcher constraints, sketcher operations and Practice 5 sketches with different Constrains

SESSION-4 Transformation of profiles, Projection from 3D elements and Practice of transform tools with suitable sketches

SESSION-5 Sketch analysis, sketch modifications and Create 5 to 10 Sketches with Iso Constrain

##### **PART DESIGN**

SESSION-6 Workbench Introduction, Reference Elements and Practice of types of point, line and planes

SESSION-7 Basic Solid Features, Practice of basic 2D to 3D parts Advanced Solid Features Practice of Ribs, Slots & Multi-sections

SESSION-8 Dress up features Practice of Fillets, chamfers, shell

SESSION-9 Advanced Dress up features, Practice of Draft and other features

SESSION-10 Transformation of solids, Practice of Pattern, mirror & Scaling

SESSION-11 Surface based features Practice of Splitting solids with surfaces and Maintenance of Specification trees  
SESSION-12 Introduction to Body concept, Explain the needs of Body concepts. Boolean operations Practice 3D models using Booleans  
SESSION-13 Creation of complex parts using body concept, Practice 3 to 5 complex Solids using Body Concept  
SESSION-14 Editing solid geometry, Editing & replacing of Bodies, sketches  
SESSION-15 Power copy, Practice of Power copy tool.  
**ASSEMBLY**  
SESSION-16 Assembly Constraints Practice of various, Constrain tools  
SESSION-17 Types of Assembly-approach Top-Down Assembly Creating 2 to 3 assemblies with top-down approach  
SESSION-18 Introduction to Workbench, Importing of Parts & Products, Practice of Product structure tools with basic Assembly  
SESSION-19 Bottom-Up Assembly, creating assemblies by importing parts  
SESSION-20 Digital Mock up Intro, Scene Creations and Practice Of basic DMU tools and Stimulations.

## **GSD**

SESSION-21 Introduction to Workbench Creation of Surfaces  
SESSION-22 Introduction to Workbench Creation of Surfaces Practice of Extude, revolve & primitive tools  
SESSION-23 Creating Basic Curves (Wireframe) Practice of circle, spline, helix & spiral  
SESSION-24 Creating Surfaces from Surfaces Practice of blend, Multisections & fill  
SESSION-25 Trimming Surfaces Practice of Splitting & trimming of surfaces  
SESSION-26 Creating curves on Surfaces Creation of connect curves, isoparameteic, conic & Corners Basic GSD operations Practice 3 to 4 GSD Components  
SESSION-27 Projections Advanced GSD operations |,Conversion of Surfaces to Solid Practice 3 to 4 Sheetmetal Components.

## **DRAFTING**

SESSION-28 Introduction to Workbench and Drafting Approach  
SESSION-29 View Creation and Dimensioning  
SESSION-30 Geometry modification and Editing Option

**Outcomes of the program:**

Students will be able to

- get hands on experience of using 3D Experience Platform
- implement innovative thoughts for product development using 3D Experience Platform

**No. of students enrolled the course: 565**

**No. of students completed the course: 565**

**Department of Electronics and Communication Engineering**

Course Title: CCNA R&S: Introduction to Networks (ITN)

Course Start Date: 21-09-2019    End Date: 29-02-2020

Objectives:

- Explain the advances in modern network technologies.
- Implement initial settings including passwords, IP addressing, and default gateway parameters on a network switch and end devices.
- Explain how network protocols enable devices to access local and remote network resources.
- Explain how Ethernet operates in a switched network.
- Explain how routers use network layer protocols and services to enable end-to-end connectivity.
- Explain how ARP enables communication on a local area network.
- Implement initial settings on a router and end devices.
- Calculate an IPv4 subnetting scheme to efficiently segment your network.
- Implement an IPv6 addressing scheme.
- Use various tools to test network connectivity.

Content:

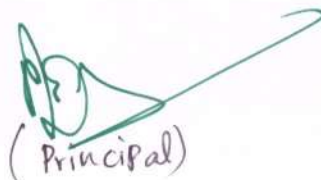

- Basic Switch and End Device configuration
- Protocols and Models
- Physical and Data Link Layer
- Ethernet Switching
- Network Layer
- Address Resolution
- Basic Router Configuration
- IPv4 and IPV6 Addressing
- ICMP
- Transport and Application Layer
- Network Security Fundamentals
- Build a Small Network

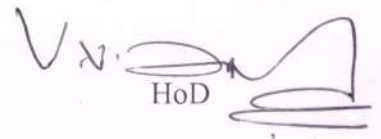

Outcomes:

After Completion of the course, the students will be able to

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

HoD

**Gudlalleru Engineering College**  
Seshadri Rao Knowledge Village, Gudlalleru  
**Department of Electronics and Communication Engineering**

Course Title: CCNA R&S: Routing and Switching Essentials

Course Start Date: 21-09-2019      End Date: 29-02-2020

**Objectives:**

- Configure devices using security best practices.
- Explain how Layer 2 switches forward data.
- Implement VLANs and trunking in a switched network.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Explain how STP enables redundancy in a layer 2 network.
- Implement DHCPv4 to operate across multiple LANs.
- Configure dynamic address allocation in IPv6 networks.
- Configure switch security- to mitigate LAN attacks.
- Implement a WLAN using a wireless router and a WLC.
- Configure IPv4 and IPv6 static routes.
- Troubleshoot static and default routes.

**Contents:**

- Basic Device Configuration
- Switching Concepts
- VLANs and Inter-VLAN Routing
- STP Concepts
- Ethernet Channel
- DHCPv4
- WLAN Configuration
- Routing Concepts and IP Static Routing
- Troubleshoot Static and Default Routes

**Outcomes:**

After Completion of the course, the students will be able to

- Determine how a router will forward traffic based on the contents of a routing table.
- Use monitoring tools and network management protocols to troubleshoot data networks.
- Configure monitoring tools available for small to medium sized business networks.
- Configure initial setting on a network device.
- Configure Ethernet switch ports
- Implement VLANs
- Implement static routing and RIP
- Implement DHCP on a router

## Networking courses

Thanks to new technologies, networks are becoming more intelligent, programmable and software-driven. Networking Academy courses support this evolution and expose learners to new concepts and hands-on experiences. Best of all, courses are tied to CCNA certifications—among the most in-demand in the industry, according to IDC. Get started by choosing a course today.

(<https://www.youtube.com/embed/PS-GhspZ9tQ?iframe=true>)

### Networking at a glance

**A good fit for you if**  
you enjoy a mix of detailed planning, implementation and business-related matters.

**Sample job titles**  
Network Administrator, Network Designer, Network Engineer

**Projected job growth**  
An increase of 26% by 2020

**Who hires for this skill?**  
Any business managing large networks, Cisco and its partners.

*"I found out I can still learn about networking, even after all these years and with a full time job too. The Networking Academy tools are great for beginners in network hardware maintenance and management who are motivated to learn all they can in their spare time."*

**Bruce Cudmore, Netacad Alum**

Instructor-led

### CCNA: Introduction to Networks (/courses/networking/ccna-introduction-networks)

The first course in a 3-course CCNA series designed to prepare you for entry-level networking job

Intermediate

[Learn More \(/courses/networking/...\)](#)

Instructor-led

### CCNA: Switching, Routing, and Wireless Essentials (/courses/networking/ccna-switching-routing-wireless-essentials)

The second course in a 3-course CCNA series designed to prepare you for networking technician job

Intermediate

[Learn More \(/courses/networ...](#)

Instructor-led, Online self-paced  
**Mobility Fundamentals**  
(/courses/networking/mobility--  
fundamentals)

Six short modules teach you about mobile & wireless concepts, standards and applications.

Intermediate

[Learn More \(/courses/networ...](#)

Instructor-led  
**Networking Essentials**  
(/courses/networking/networking-  
essentials)

Learn basic networking concepts and skills you can put to use right away.

Intermediate

[Learn More \(/courses/networ...](#)

Instructor-led  
**Workshop: Network Programmability**  
(/courses/networking/workshop-  
network-programmability)

Create applications and automate tasks using a programmable device in this 8-hour workshop.

Intermediate

[Learn More \(/courses/networ...](#)

Instructor-led  
**CCNA: Enterprise Networking, Security, and Automation**  
(/courses/networking/ccna-  
enterprise-networking-security-  
automation)

The third course in a 3-course CCNA series prepares you for networking analyst & engineering

Advanced

[Learn More \(/courses/networ...](#)

Instructor-led

## CCNP Routing and Switching (/courses/networking/ccnp-routing-switching)

A 3-course series to provide you with a solid overview of enterprise-level networking concepts.

Advanced

[Learn More \(/courses/networ...](#)

Cisco Networking Academy courses are designed to prepare you for Cisco Certification and other industry recognized certification exams. Cisco Certifications are highly valued by employers globally, as they demonstrate your exceptional skills, relevant to many industries, including health care, manufacturing, retail, financial, education, and more.

Remember, discounts are available for select certification exams. Eligible students will be automatically notified by email and on their NetAcad profile page.

#### **ABOUT SRGEC**

Gudlavalluru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalluru village and is surrounded by lush green fields providing serene learning environment. Gudlavalluru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

#### **ABOUT THE DEPARTMENT**

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

### Resource Person

#### D. Sai Satish, Founder & CEO of Indian Servers

Administrator of Andhra hackers (Top hacking awareness forum in INDIA), Cyber Cops Trainer, Author for bestselling book Hacking secrets, A renewed Ethical Hacker & Cyber Security Expert. Thousands of college students and professionals got benefited by his lectures which are delivered at IITs, Central Universities, IIMs, 350+ Engineering colleges all over India. more than 3000 talks on various trending technologies, he is special invite for Jharkhand entrepreneur summit, Global Entrepreneurship summit, Along with corporates he trained many Central and state Organization employees. He worked as Microsoft Student Partner, Corporate Dot Net Trainer etc. He was interviewed by Many national and regional new channels like AAjtaK, Zee TV, TV9, NTV, Eenadu, Sakshi etc. He was rewarded by IAS officers for pentesting on govt sites, which helped to them to improve security and safe transactions, Forensic Investigator.

**Email-id:** saisathish@indianserver.in

**Mobile Number:** +91 96182 22220

#### Objectives of the Program

- Recognize the main ethical and defense aspects of cyber environments.

- Apply ethics, and core values to all decisions that are made within cyberspace.

- Analyse cyberspace management approaches and models from the ethical perspective

- gain the ability to analyze the security of a software system and convincingly advocate about the significance of vulnerabilities

#### Course Contents

- Cyber Defense
- Cyber Ethics
- Cyber Law and Cyber Policy
- Information Systems
- Data Communications & Networking
- Digital Forensics
- Information Technology
- Security Systems
- Search, Location and Mapping
- Publishing
- Phishing
- viruses
- Types of cyber attacks
- How to protect from cyber attacks

**Platform:** Microsoft Teams

**Eligibility:** All II B. Tech Students  
Registration is free

### ABOUT THE COURSE

Cyber Security value added course is designed for the learner able Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security. The term applies in a variety of contexts, from business to mobile computing, and can be divided into a few common categories. Cybersecurity also known as information security is the practice of protecting computers, servers, networks and data from malicious or digital attacks. Cyber security is how individuals and organizations reduce the risk of cyber-attack. Cybersecurity is important because it protects all categories of data from theft and damage. protection from identity theft, financial loss, customer data loss or impacts on business operations.

#### Expected Outcomes of the course

- Understand Cyber Security architecture principles
- Identifying System and application security threats and vulnerabilities
- Identifying different classes of attacks
- Apply security measures to real time scenarios

## Cyber Security Course Content

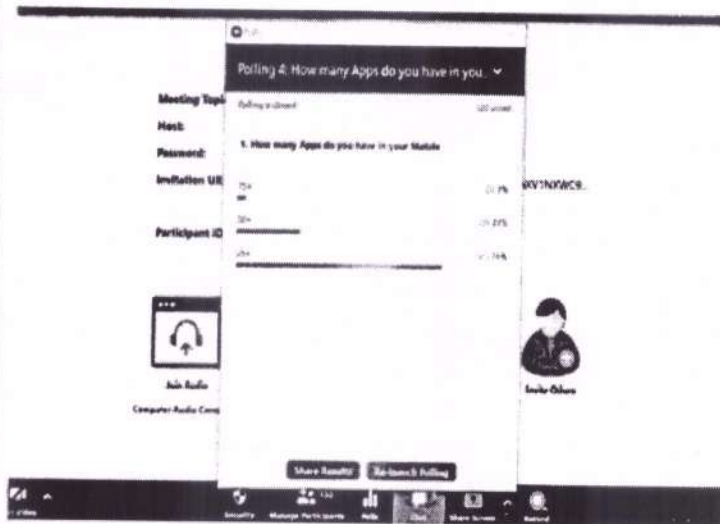

- Cyber Defense
- Cyber Ethics
- Cyber Law and Cyber Policy
- Information Systems
- Data Communications & Networking
- Digital Forensics
- Information Technology
- Security Systems
- Search, Location and Mapping
- Publishing
- phishing
- viruses
- Types of cyber attacks
- How to protect from cyber attacks

### Advantages of Cyber Security

- It will defend us from hacks and virus. It helps us to browse the safe website.
- Internet Security process all the incoming and outgoing data on our computer.
- The cyber security will defend us from critical attacks.
- The application of cyber security used in our PC needs update every week.
- The security developers will update their database every week once. Hence the new virus also detected.

## DEPARTMENT OF INFORMATION TECHNOLOGY

### CIRCULAR

Date: 29-05-2020

The department of Information Technology is organizing a Value-Added Course on "Amazon Web Services" by Mrs.A.Koteswaramma, Assistant Professor in Information Technology from 01-06-2020 to 27-06-2020 for UG students of all the branches in virtual mode using Microsoft Teams. Hence all the IV year B.Tech students are informed to enroll and attend the course without fail.

**About the College:**

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels TCS.

**About the Department:**

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

**Resource Persons:**

- A. Koteswaramma, Assistant professor, SRGEC, Gudlavalleru.

**Objective of the Program:**

- Recognize the purpose of the AWS Academy Cloud Foundations course.

**Topics:**

**Cloud concepts**

- Cloud economics and billing
- AWS Global Infrastructure
- AWS Cloud security
- Networking and content delivery
- Computation

**Platform:**

Microsoft Teams

**Eligibility:** All IV B. Tech Students

**Registration is free**

**About the course:**

The Amazon Web Services (AWS) provides computing resources and services that you can use to build applications within minutes at pay-as-you-go pricing. For example, you can rent a server on AWS that you can connect to, configure, secure, and run just as you would a physical server. The difference is the virtual server runs on top of a planet-scale network managed by AWS. You pay for your virtual server only while it runs, with no up-front purchase costs or ongoing maintenance costs. Backed by the AWS network, your virtual server can do things no physical server can, such as automatically scaling into multiple servers when demand for your application increases. Using AWS to build your Internet application is like purchasing electricity from a power company instead of running your own generator, and it provides many of the same benefits: capacity exactly matches your need, you pay only for what you use, economies of scale result in lower costs, and the service is provided by a vendor experienced in running large-scale networks.

**Expected Outcomes of the course:**

After completing this course, you should be able to:

- Define the AWS Cloud.
- Explain the AWS pricing philosophy.
- Identify the global infrastructure components of AWS

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz. Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels TCS.

**About the Department:**

The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

**Resource Persons:**

- Mr.T.Balaji, Assistant professor ,  
SRGEC, Gudlavalleru,  
Ph No: 9966895191

**Objective of the Program:**

- To gain the knowledge about  
Connection among Network Devices  
and their Security.

**Topics:**

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verifies network connectivity between devices. Explain how the upper layers of the OSI model support network applications.

**Platform:**

Microsoft Teams

**Eligibility:** All III B. Tech Students

**Registration is free**

**About the course:**

Begin preparing for a networking career with this introduction to how networks operate. This first course in the 3-course CCNA series introduces architectures, models, protocols, and networking elements – functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers.

You'll even get the chance to build simple local area networks (LANs). Developing a working knowledge of IP addressing schemes, foundational network security, you'll be able to perform basic configurations for routers and switches.

Start learning the basics of computer networking and discover how networks operate.

**Expected Outcomes of the course:**

Students will be able

- To provide connectivity between remote devices.
- Configure a small network with security of OSI layers.

**Summary Report on Value Added Course titled "Introduction to Networks"**  
**01-05-2020 to 30-05-2020**

**Title of the course:** "Introduction to Networks"

**Duration:** 01-05-2020 to 30-05-2020

**Resource Persons:**

- Mr. T.Balaji, Gudlavalluru, Engineering College, Gudlavalluru,

**Objectives of the program:**

- To gain the knowledge about Connection among Network Devices and their Security.

**Topics Covered:**

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verifies network connectivity between devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network

**Outcomes of the program:**

After completing this course, Students will be able to

- To provide connectivity between remote devices.
- Configure a small network with security of OSI layers.

**No. of students enrolled the course: 55**

**No. of students completed the course: 47**

## DEPARTMENT OF BUSINESS AND MANAGEMENT STUDIES

Dt: 24-08-2019.

### NOTICE

Department of Business and Management Studies is planned to conduct a short-term course on “**Introduction to Business Analytics**” for the Academic Year 2019-20 for the benefit of MBA (final) Students. This course is scheduled from Dt:02-09-2019 onwards.

All the students are requested to register names with the department and attend the classes without fail.

**Dr. CH.NIRMAL CHAND**  
Head of the Department

## REGISTRATON FORM

*A Four Week  
Value Added Course*  
on  
**Introduction to Business Analytics**

1. Name:
2. Branch:
3. Year & Semester:
4. Contact No:
5. Email ID:

Signature of Participant

Date:

## COLLEGE OFFICIALS

### GUDLAVALLERU ENGINEERING COLLEGE (GEC):

Gudlavalleru Engineering College was established in the year 1998 by M/s. A.A.N.M. & V.V.R.S.R. Educational Society, Gudlavalleru. Gudlavalleru. The College is situated in Gudlavalleru and is surrounded by lush green fields with serene environment. The college offers B.Tech. Programmes in eight branches of Engineering, viz., Civil, Electrical and Electronics, Mechanical, Electronics and Communication Computer Science, Information Technology, Artificial Intelligence & Data Science and, Internet of Things and PG courses in Business Management (MBA), M.Tech. (VLSI Design & ES), M.Tech (CSE(AI&ML)), M.Tech (PEED), M.Tech (SE) and M.Tech (MD). GEC is permanently affiliated to JNTUK, Kakinada. Four of the UG Programmes got accreditation status under Tier-I of NBA. The college is accredited by NAAC with 'A' Grade.

### ABOUT MBA DEPARTMENT

The Department of Business and Management Studies was established in the year 2006 and is offering two year Post Graduate programme with an intake of 120. The department has qualified and experienced faculty and well-equipped Library and Lab. The Department is marching forward by keeping pace with the emerging challenges in Management.

### VALUE ADDED COURSE:

A value-added course on "Introduction to Business Analytics" would provide students with the knowledge and skills necessary to analyze and interpret large data sets to make informed business decisions. The course would cover topics such as data visualization, statistical analysis, predictive modeling, and data mining.

The course would be beneficial for students who are interested in pursuing a career in business or data analysis. It would also be useful for professionals looking to enhance their skills in data analysis or business intelligence.

In today's data-driven business environment, there is an increasing need for professionals who can analyze and interpret large data sets to make informed decisions. A value-added course on "Introduction to Business Analytics" is essential to equip students with the skills and knowledge necessary to succeed in this field and meet the growing demand for data analysts and business intelligence professionals. Having employees with strong data analysis skills can give businesses a competitive advantage by enabling them to make data-driven decisions that improve efficiency, reduce costs, and increase revenue.

### The objectives of a value-added course on "Introduction to Business Analytics" could include:

- To provide an overview of the basic concepts and terminology related to business analytics.
- To present data in a visually appealing way using visualization tools.
- To familiarize students with statistical techniques and how to apply these techniques to analyze and interpret data.
- To teach students how to use predictive modeling techniques to forecast future trends.
- To cover data mining techniques.
- To provide real-world examples.

### Expected Outcomes of the course:

- Knowledge and understanding of the basic concepts
- Proficiency in using data visualization tools
- Ability to apply statistical techniques
- Ability to analyze and interpret large data sets.

## Department of Business and Management Studies

*Value Added Course*

*A Course on*

### INTRODUCTION TO BUSINESS ANALYTICS

#### Course Objectives:

1. Understanding the Role of Business Analyst and Data Science in business.
2. Understanding the basic concept of data management and data mining techniques
3. To understand the basic concept of machine learning
4. To understand the application of business analysis.
5. Understanding the basic concept of Data Science Project Life Cycle.

**Introduction:** What is business analytics? Historical Overview of data analysis, Data Scientist vs. Data Engineer vs. Business Analyst, Career in Business Analytics, What is data science, Why Data Science, Applications for data science, Data Scientists Roles and Responsibility

**Data:** Data Collection, Data Management, Big Data Management, Organization/sources of data, Importance of data quality, Dealing with missing or incomplete data, Data Visualization, Data Classification

Data Science Project Life Cycle: Business Requirement, Data Acquisition, Data Preparation, Hypothesis and Modeling, Evaluation and Interpretation, Deployment, Operations, Optimization.

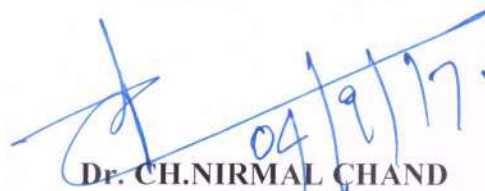

**Introduction to Data Mining,** The origins of Data Mining, Data Mining Tasks, Online Analytical Processing (OLAP) and Multidimensional data analysis, Basic concept of Association Analysis and Cluster Analysis.

**Introduction to Machine Learning:** History and Evolution, AI Evolution, Statistics Vs Data Mining Vs, Data Analytics Vs, Data Science, Supervised Learning, Unsupervised Learning, Reinforcement Learning, Frameworks for building Machine Learning Systems.

**Application of Business Analysis:** Retail Analytics, Marketing Analytics, Financial Analytics, Healthcare Analytics, Supply Chain Analytics.

Course Outcomes: Upon the successful completion of this course, the student will be able to:

<b>Course Outcome</b>	<b>Bloom's Taxonomy</b>
CO1. Understand the basics of business analysis and Data Science	Knowledge (L2)
CO2. Understand data management and handling and Data Science Project Life Cycle	Comprehending (L3)
CO3. Understand the data mining concept and its techniques	Applying (L4)
CO4. Understand and Analyzing machine learning concept	Analyzing (L5)
CO5. Understand the application of business analysis in different domain	Applying (L4)

  
04/9/17.  
**Dr. CH.NIRMAL CHAND**  
Head of the Department

**DEPARTMENT OF BUSINESS AND MANAGEMENT STUDIES**

**Report on Value Added Course Titled “Introduction to Business Analytics” conducted during 02-09-2019 to 03-10-2019.**

**Title of the Course:** “Introduction to Business Analytics”

**Duration:** 02-09-2019 to 03-10-2019

**Resource Person:** Hemanth Kumar T, Asst. Prof., MBA.

**Objectives of the Program:**

- Understand the importance of business analytics in decision-making.
- Learn about the different types of analytics: descriptive, predictive, and prescriptive.
- Gain familiarity with tools and software used in business analytics, such as Excel, R, and Tableau.
- Learn about different data types and how they are measured.
- Learn how to collect and clean data and perform exploratory data analysis.

**Topics Covered:**

- |                                     |                        |
|-------------------------------------|------------------------|
| ➤ MS Excel                          | ➤ Power BI             |
| ➤ Data types and measurement scales | ➤ Linear Regression    |
| ➤ Data Collection and Cleaning      | ➤ Logistic Regression  |
| ➤ Exploratory Data Analysis (EDA)   | ➤ Time Series Analysis |

**Outcomes of the Program:**

- Improved understanding of how business analytics can help with decision-making.
- Ability to identify which type of analytics is best suited for different situations.
- Familiarity with commonly used tools and software in business analytics.
- Understanding of different data types and how they are measured.
- Ability to collect, clean, and analyze data using exploratory data analysis techniques.
