(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)  
Seshadri Rao Knowledge Village, Gudlavalluru – 521356, Krishna District (A.P.)

## Department of Electronics and Communication Engineering

### ALUMNI FEEDBACK ON CURRICULUM

Name of Alumni: <u>K. Sivakalyan</u>	Year of Passing: <u>2019</u>
Designation: <u>Software engineer -</u>	Work Place: <u>wipro (Bangalore)</u>

Please give your valuable feedback on curriculum to improve quality of the programme. Select your ranking on the scale of 1 to 5 for each of the following parameters.

(1- Strongly disagree, 2- Disagree, 3- Uncertain, 4- Agree, 5- Strongly agree)

Feedback on Courses		1	2	3	4	5
1	The curriculum has the sequence of the courses included into the program.				✓	
2	The curriculum imparted value based learning in terms of skills, concepts, knowledge and critical thinking.				✓	
3	The curriculum directly enhances practical competencies.					✓
4	The curriculum comprises of electives regarding technological advancements.					✓
5	The curriculum offers courses in relation to the specialization streams of the program.				✓	
6	The experiments in the laboratory are designed in relevance to the real life applications.			✓		
7	The curriculum inculcated necessary ethical values and concern for the society.				✓	
8	The curriculum was need based as per the requirement of the job/industry.				✓	

**Recommendations for curriculum improvement** (Please specify the courses that should be added in the curriculum, if any)

The present courses are very helpful for the Branch and I wish to include IoT, Neural networks, cloud computing, VSI and machine learning which are trending for courses for the Branch.

## ELECTRICAL & ELECTRONICS ENGINEERING

### ALUMNI FEEDBACK ON CURRICULUM

Name of the student: Naga Lakshmi Thotakura

Year: 2019

Details of your employment: Ph.D. student in The University of Memphis, USA

The Purpose of this feedback is to gather information relating to your satisfaction towards the curriculum for importing the quality of education. The information provided by you will be much useful for improving forth coming curriculum (R20).

Kindly give a detailed opinion on the following aspects of our curriculum.

1. How did you find the curriculum of EEE program? Easy / Hard

If hard, please explain in one or two sentences.

The curriculum of EEE program was well structured and looks easy when we are doing the courses in each semester.

2. Objectives and outcomes of the syllabi are well defined. Yes / No

If no, kindly explain.

Yes, the objectives and outcomes are well defined and reached as expected.

3. Were the Core / Electives and design-oriented courses sufficient in applying to practical / daily life problems. Yes / No

If no, kindly explain.

Yes, the electives and core subjects that I have chosen had helped me to engage my future studies.

4. Were the basic science, humanities and communication skills courses adequate for developing fundamental knowledge and your personality. Yes / No

If no, kindly explain.

Yes

5. Were the courses (core / electives / open electives) relevant to your job and your future aspirations? Yes / No

If no, kindly explain.

Yes

6. What was the most useful part of the curriculum / course and why?

I aspired to become an electrical engineer and want to do research in the area of power systems and renewable energy sources. The power systems 1&2, power system analysis,

Facts and several other courses helped to understand the background concept and it became my background to do research and advance my skills in the same field through my PhD program.

7. What was the least useful part of the curriculum / course and why?

Every course is useful and interconnected somehow on the other way. In my case, every course termed to be useful to get basic understanding in every aspect.

8. Were the subjects / courses appropriate for latest technological developments.

Yes / No

If no, kindly explain

The curriculum was mostly concentrated on giving sufficient knowledge on the existing theory related to electrical field, but it is not up to the level of latest developments. I think discussing and engaging the class with some practical innovative experiments to improve their ideology by leaving some questions will help them to question, think and to work in future.

9. What other changes would you like to suggest to improve the curriculum / course?

Introducing more practical environment for enhancing their inner interests towards particular electrical field, guiding every student in their respective area by giving practical questions to think and solve will enhance interest.

10. Any additional suggestion.

No.
