Department of Computer Science and Engineering

## Workshop on
" Mobile Application Development"

GUDLAVALLERU ENGINEERING COLLEGE
(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)
Seshadri Rao Knowledge Village :: Gudlavalleru

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Date: 10-10-2017

NOTICE

All the II B.Tech CSE&IT students are here by informed that a **Four-Day Workshop** on **Mobile Application Development** will be conducted by Andhra Pradesh Soft Skills Development Centre(APSSDC) from 16th to 19th October 2017 in OS&SP Lab. So, the interested students can register for this workshop by paying an amount of Rs.100/- to the coordinator U.Ganesh Naidu, Asst. Professor of CSE. The last date for registration is 13th October 2017.

Coordinator 8/10/17

GUDLAVALLERU ENGINEERING COLLEGE

(An Autonomous Institute with Permanent Affiliaton to JNTUK, Kakinada)

Seshadri Rao Knowledge Village, GUDLAVALLERU-521 356

Krishna District, Andhra Pradesh

ABOUT GEC

Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45 Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

Our Philosophy

- We hold ourselves to the highest standards in all our academic endeavors.
- We adhere to high standards of integrity, honesty and ethics in our pursuits.
- We nurture creativity and talent.
- We provide an atmosphere of mutual respect and compassion.
- We serve the society.

ABOUT CSE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

MEMBERS:

II nd year students of CSE&IT Departments.

ABOUT THE WORKSHOP

Mobile app development is to develop applications in mobile devices, mobile phones etc. These applications can be pre-installed on phones during manufacturing platforms, or delivered as web applications using server-side or client-side processing to provide an "application-like" experience within a Web browser. Application software developers also must consider a long array of screen sizes, hardware specifications, and configurations because of intense competition in mobile software and changes within each of the platforms. Mobile app development has been steadily growing, in revenues and jobs created. As part of the development process, mobile user interface (UI) design is also essential in the creation of mobile apps. Mobile UI considers constraints, contexts, screen, input, and mobility as outlines for design. The user is often the focus of interaction with their device, and the interface entails components of both hardware and software. User input allows for the users to manipulate a system, and device's output allows the system to indicate the effects of the users' manipulation. Mobile UI design constraints include limited attention and form factors, such as a mobile device's screen size for a user's hand(s). Mobile UI contexts signal cues from user activity, such as location and scheduling that can be shown from user interactions within a mobile app. Overall, mobile UI design's goal is mainly for an understandable, user-friendly interface. The UI of mobile apps should: consider users' limited attention, minimize keystrokes, and be task-oriented with a minimum set of functions.

Course Contents

- Introduction to Mobile Application Development.
- Techniques involved in Application Development.
- Lady Bug Chase App& Amazon at the Bookstore App.
- User interface design & database concepts.

PROGRAM REPORT

Name of the Program: Workshop on " Mobile Application Development"

Date: 16th -19th October 2017

Details of the Resource Person: Mr .M.Yogeswara Rao C.E.O, Cognolabs Systems Pvt.Ltd

Hyderabad

Objective of the Program:

- Providing an intuitive and engaging user experience: Mobile apps need to be easy to use and visually appealing to keep users engaged and interested in using them.

- Meeting business or organizational goals: Mobile apps are often developed to support specific business or organizational objectives, such as increasing sales or improving productivity.

Outcomes of the Program:

- Make Customer Experience Meaningful.
- Boost Brand Awareness.

No. of Participants: 95

Concluding Remarks:

Covers introductory mobile application development for the Android Operating System using XML and Java. Includes developing simple applications that could run on Android phones and tablets. Covers Android application development phases, terminologies, application design, and coding. Prerequisites: CIS 122. Recommended: prior completion of or concurrent enrollment in CIS 133J. Audit available.
