**Report**

24<sup>th</sup> August, 2018

As a part of IE student chapter event organisation , Gudlavalleru Engineering College, a guest lecture named “Development of Mobile Services in India”, has been organized for 2<sup>nd</sup> and 3<sup>rd</sup> B.Tech students on <sup>24<sup>th</sup> August</sup> 2018 .

In this guest lecture the students are given an idea about how Mobile services can be developed in India and what is the present state of mobile communications in our country.

The lecture focused on what were the technologies that were previously used in this sector. The advantages and disadvantages of the earlier technology were discussed, which forced us to move to newer technologies.

Also, the disadvantages of the present technology were told to the students and they were encouraged, as responsible engineers, to find required solutions to that problems.
