## ABOUT GEC

Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45 Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

## Our Philosophy

- We hold ourselves to the highest standards in all our academic endeavors.
- We adhere to high standards of integrity, honesty and ethics in our pursuits.
- We nurture creativity and talent.
- We provide an atmosphere of mutual respect and compassion.
- We serve the society.

## ABOUT CSE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

### **Workshop on Full Stack Web Developer Nanodegree Program**

(28<sup>th</sup> Dec 2018 to 31<sup>st</sup> Mar 2019)

#### **Key note address by resource person**

Students will learn about building out the infrastructure which powers and supports web applications in the world. This workshop helps to learn about the fundamentals of back-end web development, discover how all of the major components of web applications work and best practices in developing secure, data-driven web applications. Students will be able to create their own web applications from the ground up using the iterative development process and complex server-side web applications that use powerful relational databases to persistently store data.

In this Nanodegree program, you can learn how to build and manage relational databases to store and handle application data, and to build server-side applications that serve data to any type of client-side application.

## ABOUT THE WORKSHOP

Students will learn about building out the infrastructure that powers and supports many web, desktop, mobile and integrated applications in the world. This Nanodegree program helps to learn about the fundamentals of back-end web development, discover how all of the major components of web applications work and best practices in developing secure, data-driven web applications. Students will be able to create their own web applications from the ground up using the iterative development process and complex server-side web applications that use powerful relational databases to persistently store data.

### Contents

- Introduction and Importance of Python programming.
- Developer Fundamentals - Knowledge of essential developers tools such as the Unix shell, Git, and Github.
- Databases with SQL and Python.
- Servers, Authorization, and CRUD (Create, Read, Update, Delete) pattern.
- Deploying to Linux Servers - Learning the essentials of securing and configuring Linux web servers, then deploying a full stack application to a server with a database and routing.
- Analyze data from a web service's logs, practicing command-line and database skills.
