PCAP: Programming Essentials in Python

How great would it be to write your own computer program? Python is a multi-paradigm programming language used by startups and tech giants like Google, Facebook, Netflix, and more. With intuitive, readable syntax, Python is a great first programming language to learn.

Programming skills open you up to careers in almost any industry and are required if you want to continue to more advanced and higher paying software development and engineering roles.

This course is a great place to start learning Python – no prior programming knowledge required. Completing the course earns you a Statement of Achievement. It is split into two parts preparing you for two certifications:

You'll learn these core skills:

- **Think algorithmically – how to analyze a problem and translate it for a computer to process.**
- **Design, develop, and improve multi-module computer programs.**
- **Analyze and model real-life problems in Object-Oriented Programming categories.**
- **Understand a programmer's work in the software development process.**
- **Learn how a program is executed in a computer environment.**
- **Gain skills to create and develop your own programming portfolio.**

Certificate of Participation

This certificate recognizes the participation of

M N SATISH KUMAR

as an active instructor in the Cisco Networking Academy program. As a NetAcad Instructor, M N SATISH KUMAR delivers Cisco Networking Academy courses to students with the goal of improving students' lives and the communities in which they live.

PCAP: Programming Essentials in Python

Statement of Achievement

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student has studied the following skills:

- the universal concepts of computer programming (i.e. variables, flow control, data structures, algorithms, conditional execution, loops, functions, etc.)
- developer tools, developer tools and the runtime environment;
- the syntax and semantics of the Python language;
- the fundamentals of object-oriented programming and the way they are adopted in Python;
- the means by which to resolve typical implementation problems;
- the writing of Python programs using standard language infrastructure;
- fundamental programming techniques, best practices, customs and vocabulary, including the most common library functions in Python 3.

This Statement of Achievement acknowledges that during the course PCAP: Programming Essentials in Python, the student has been able to accomplish coding tasks related to the basics of programming, and understands the programming techniques, customs and vocabulary used in the Python language.

By completing the course, the student is now ready to attempt the qualification PCAP – Certified Associate in Python Programming certification, from the OpenEDG Python Institute.

PROGRAM REPORT

Name of the Program: Cisco: Programming Essentials in Python(CODERIDERSE)

Date: 10th June 2021 to 10th July 2021

Details of the Resource Person: Mr. M.N. Satish Kumar Assistant Professor,
Department of CSE, Gudlavalleru Engineering College

Objective of the Program:

- To know how to build basic programs using fundamental programming constructs like variables, conditional logic, looping, and functions.
- To know how to work with user input to create fun and interactive programs.

Outcomes of the Program:

No. of Participants:291
