A.Y:2019-2020

S.No.	Dates	Title of the professional development/ administrative training programs organised for teaching staff and non teaching staff
1	25-05-2020 to 30-05-2020	Civil Engineering Research-A Step Forward
2	03-02-2020 to 08-02-2020	Effects of soil-structure Interaction on Structures against Static & Dynamic Loads
3	18-11-2019 to 23-11-2019	A One week Faculty Development Program on "Applied Research on Renewable Energy Sources and Microgrid"
4	11-11-2019 to 13-11-2019	"Training on PLC Trainer Kit"
5	09-07-2019 to 11-07-2019	"Maintenance of Electronic Lab Equipments"
6	30-08-2019	One day faculty development program on "Design and Analysis of Experiments"
7	26-08-2019 to 29-08-2019	Four Days hands on training program on "CATIA V6"
8	25-05-2020	Webinar on Introduction to Radio frequency Measurements for Cellular and Wireless Communication Systems
9	25-11-2019 to 30-11-2019	One Week FDP on Data Acquisition and RT using LABVIEW-Hands-on
10	11-11-2019 to 13-11-2019	Three day FDP on Advanced Development Tools based on IoT
11	27-01-2020 to 08-02-2020	AICTE Sponsored Two-Week FDP on Soft Computing Techniques and its Applications
12	12-09-2019 to 15-09-2019	A Four Day FDP on Data Science and Big Data Analytics

13	03-09-2019 to 08-09-2019	Fundamentals of Game Development using 3D & C#
14	05-08-2019 to 09-08-2019	A Five Day FDP on Sales Force Essentials for Business Specialists
15	27-01-2020 to 08-02-2020	Two Week AICTE FDP on Data Science and Data Analytics through Python and R Programming
16	09-06-2020 to 13-06-2020	Five Day Online FDP On Block Chain Technologies
17	24-6-2020 to 26-06-2020	A Three-Day Faculty Development Programme on "Trends in Management Education and Research".
18	01-08-2019	1-Day workshop on Exploring Classroom Processes

## Proposal to OrganizeFDP

Date:18/05/2020

From  
The Head of the Department  
Department of Civil Engineering  
Gudlavalleru Engineering College,  
Gudlavalleru.

To  
The Principal  
Gudlavalleru Engineering College,  
Gudlavalleru.

Letter No: GEC/CE/FDP/2019-20/02

Program : FDP  
Event : Faculty Development Programme (Online)  
Name of the Event : Civil engineering Research-A step forward  
No. of Days : One Week  
Duration (Dates) : 25/05/2020 to 30/05/2020  
Targeted Audience : Faculty  
If Students :

Associative Organization if any : Nil  
Resource person(s) :

Sl. No	Name	Designation	Organization
1	Prof M Chakradhar Rao	Professor & HoD	Central University Bilaspur
2	Prof D.S.R Murthy	Professor	AUCE, Visakhapatnam
3	Prof K.Srinivas Raju	Professor	BITS, Hyderabad
4	Dr A. Dalinaidu	Associate Professor	IITM, Chennai
5	Dr Ch. Jyothi	Visiting faculty	Atlanta University, USA
6	Prof S.R.K.Reddy	Professor	GEC, Gudlavalleru
7	Dr P.Kodanda Rama Rao	Professor & HoD	GEC, Gudlavalleru

Brief profile of resource person(s) (if available enclose.)

Objective(S) of the program : The main objective of this FDP is to create and enhance the knowledge of Civil Engineering faculty towards the developments in recent trends in Civil Engineering Research in streams of structures, Geoo technical, Water resources, Transportaion, Environmental Engg Etc.

Expected outcome

: The faculty will get an clear idea on developments in Civil Engineering so that they can step in to that areas and enhance their research .

Approximate Expected Expenditure Statement

		Rs.
a	Honorarium (6*5000)	30000
b	Certificates	500
Total		Rs. 30500/-

## ABOUT THE COLLEGE

The Gudlavalleru Engineering college is promoted by AANM & VVRSR Educational Society and was established in 1998. The college is located in Gudlavalleru, a rural area surrounded by lush green fields, providing serene atmosphere to learners. The institute is approved by AICTE, New Delhi and permanently affiliated to JNTUK, Kakinada. The institution was accredited by NAAC with "A" Grade. The college offers B.Tech programmes in six branches of Engineering, viz, Civil, Computer Science, Electrical & Electronics, Electronics & Communication, Information Technology, and Mechanical. It also offers PG programmes including MBA. All the UG Programmes are accredited by NBA. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance.

## ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering has been playing a vital role in producing technologists of high calibre ever since it was established in the year 1998. The Department has been offering a full time four - year B.Tech Degree course since the inception of the institution. The department is also offering M. Tech course in Power Electronics & Electric Drives from the academic year 2009-2010. The department has well qualified, experienced faculty and good laboratory facilities with state-of-the-art equipment. The department has very strong interaction with several reputed industries and R&D organizations. The Department is recognized as Research centre by JNTUK, Kakinada.

## SCOPE OF THE PROGRAM

The goal of this FDP is to bring together experts carrying their research on renewable energy sources and microgrids. In particular, the main aim of the FDP is to enhance the learning capabilities of the participants in wide area measurement, photo-voltaic systems, AI technique applies to smart grids, power converters for renewable energy systems and their controls. The FDP will cover planning, control and protection of the power system with renewable energy sources and corresponding research challenges will be discussed.

## WHO SHALL PARTICIPATE?

The FDP is aimed at the multi- facet audience from Industry participants, Full time Research Scholars, PG Students and academicians from Engineering & Science colleges in EEE. We will confirm your participation by email based on first come first serve basis.

## RESOURCE PERSONS:

1. Dr. V. Vignesh – IIT Tirupati
2. Dr. D M Vinod Kumar – NIT Warangal
3. Dr. P. S. Kulkarni – VNIT Nagpur
4. Dr. V. T. Somasekhar – NIT Warangal

**Report on One Week Faculty Development Programme-2019**

***“Applied Research on Renewable Energy Sources and Microgrids”***

1. The Department of Electrical and Electronics Engineering of Gudlavalluru Engineering College conducted a One Week Faculty Development Programme on “**Applied Research on Renewable Energy Sources and Microgrids**” during 7th to 8th March 2017. About 50 Full time Research Scholars, PG Students and academicians from Engineering & Science colleges from EEE departments have participated in this program.
2. The goal of this FDP is to bring together experts carrying their research on renewable energy sources and microgrids. In particular, the main aim of the FDP is to enhance the learning capabilities of the participants in wide area measurement, photovoltaic systems, AI technique applies to smart grids, power converters for renewable energy systems and their controls. The FDP will cover planning, control and protection of the power system with renewable energy sources and corresponding research challenges will be discussed.

3. The resource persons and discourse topics for the Faculty Development Programme

### The College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalleru and was established in 1998. The college is situated in Gudlavalleru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

### The Department:

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 4 times (one time under Tier-1) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M.Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in

### Location:

Gudlavalleru is located on Gudivada – Machilipatnam route and is well connected by road and rail to Gudivada (10 kms), Machilipatnam (26 kms) and Vijayawada (55 kms).

### Objectives of the Program:

Industrial automation is the use of control devices such as PC/PLCs/PACs to control industrial processes and machinery by replacing as much as possible labour intervention and dangerous assembly operations with automated ones. In industrial control a wide number of process variables such as temperature, flow, pressure, distance, and liquid levels can be sensed simultaneously. All these variables are acquired, processed and controlled by microprocessor systems or PC based data processing controllers. . Programmable Logic Controller (PLC) is a digital computer interface used for the automation of various electro-mechanical processes in industries. The program is written on a computer and is downloaded to the PLC via cable. These loaded programs are stored in non – volatile memory of the PLC. During the transition of relay control panels to PLC, the hard wired relay logic was exchanged for the program fed by the user. A visual programming language known as the Ladder Logic is mostly used to program the PLC.

### Course Contents:

- Introduction to Industrial Automation
- Evolution of Industrial Automation
- Role of Sensors in Automation
- Human Machine Interface
- Introduction to Programmable Logic Controllers
- Real-time Industrial Automation Applications

**Resource Persons:** Sessions will be handled by experts from reputed organizations and proficient faculty of the institution.

## A Three Day Skill-Up Gradation Program

## **Report On Three Day Skill-Up Gradation Program On “Training on PLC Trainer Kit”**

The Department of Electrical and Electronics Engineering of Gudlavalleru Engineering College conducted three day Skill-Up Gradation Program on “Industrial Automation using PLC” during 08<sup>th</sup> to 10<sup>th</sup> February 2021. This workshop aims to provide good opportunity for the industry, faculty members and technical staff of various engineering colleges to gain basic knowledge about industrial automation applications using PLC. This program is to provide interaction and an opportunity to share view of academicians and practicing engineers.

Industrial automation is the use of control devices such as PC/PLCs/PACs to control industrial processes and machinery by replacing as much as possible labour intervention and dangerous assembly operations with automated ones. In industrial control a wide number of process variables such as temperature, flow, pressure, distance, and liquid levels can be sensed simultaneously. All these variables are acquired, processed and controlled by microprocessor systems or PC based data processing controllers. Programmable Logic Controller (PLC) is a digital computer interface used for the automation of various electro-mechanical processes in industries. The program is written on a computer and is downloaded to the PLC via cable. These loaded programs are stored in non – volatile memory of the PLC. During the transition of relay control panels to PLC, the hard wired relay logic was exchanged for the program fed by the user. A visual programming language known as the Ladder Logic is mostly used to program the PLC. Supervisory Control and Data Acquisition is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management. This workshop aims to provide good opportunity for the industry, faculty members and technical staff of various engineering colleges to gain basic knowledge about industrial automation applications using PLC.

### The College:

The college is promoted by AANM & VVRSR Educational Society, Gudlavalluru and was established in 1998. The college is situated in Gudlavalluru, surrounded by lush green fields, providing serene atmosphere to learners. The college offers B.Tech. programmes in eight branches of Engineering viz, Civil, Electrical & Electronics, Mechanical, Electronics & Communication, Computer Science, Information Technology, Artificial Intelligence & Data Science, Internet of Things and CSE (Artificial Intelligence and Machine Learning) with a total intake of 1320. It also offers five PG programmes in Engineering (M.Tech.) and Business Management (MBA). The college is permanently affiliated to JNTUK, Kakinada and obtained the Autonomous status from U.G.C. in the year 2014 and the status extended till 2025. All the eligible branches of engineering are accredited by NBA, New Delhi. The Institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance levels. TCS.

### The Department:

The Department of Electrical and Electronics Engineering was established in 1998 and is offering undergraduate course in Electrical and Electronics Engineering. It has been accredited 4 times (one time under Tier-1) by the National Board of Accreditation (NBA) and recognized as Research Centre by JNTUK, Kakinada. The department has qualified and experienced staff and well equipped Labs. Students of the department have been placed in a good number of core and software organizations and excelling in examinations like GATE, CAT etc. It is also offering M.Tech course in Power Electronics and Electric Drives. Department is marching forward keeping pace with the technological advances in Electrical and Electronics Engineering.

### Location:

Gudlavalluru is located on Gudivada – Machilipatnam route and is well connected by road and rail to Gudivada (10 kms), Machilipatnam (26 kms) and Vijayawada (55 kms).

### Objectives of the Program:

Laboratories rely heavily on the ability to deliver accurate results quickly. Efficient lab equipment is crucial for making sure these goals continue to be met. There are various reasons why lab equipment and facilities need to be maintained and cleaned. Maintenance of electronic devices in the lab is similar to general lab equipment. The three biggest enemies of electronic devices are dust, heat and (ironically) electricity. Dust mostly collects in the computer cases so it's a good idea to open the case from time to time and clean it. Heat can cause overheating of devices and damage the electronics. Keep your places well ventilated and keep the electronics away from the sources of heat. Too much electricity can also kill your devices. The best way to prevent this is to use surge protectors on electricity sockets.

### Course Contents:

- Tips for laboratory efficiency
- Refurbishing
- Quality replacements
- Maintaining software in the lab
- Special note on electronics in the lab
- Cleanliness

**Resource Persons:** Sessions will be handled by experts from reputed organizations and proficient faculty of the institution.

## **Report On Three Day Skill-Up Gradation Program On “Maintenance of Electronics Lab Equipments”**

The Department of Electrical and Electronics Engineering of Gudlavalleru Engineering College conducted three day Skill-Up Gradation Program on “Energy Saving Methodologies” during 01<sup>st</sup> to 03<sup>rd</sup> October 2020. This workshop aims to provide good opportunity for the industry, faculty members and technical staff of various engineering colleges to gain basic knowledge about Energy Conservation: Importance and Techniques of Energy Conservation. This program is to provide interaction and an opportunity to share view of academicians and practicing engineers.

Laboratories rely heavily on the ability to deliver accurate results quickly. Efficient lab equipment is crucial for making sure these goals continue to be met. There are various reasons why lab equipment and facilities need to be maintained and cleaned. When you own a lab, you know it is crucial to keep your equipment and facility clean and maintained for your experiments to turn out accurate and reliable. For most science experiments, getting precise measurements is critical. Failure to maintain your facility and your equipment can derail an entire scientific study. Your lab results may also be completely invalidated if there is contamination. Keeping your lab and equipment clean is not a very glamorous part of working in a laboratory. However, it is just as important as the experiments themselves.

Maintenance of electronic devices in the lab is similar to general lab equipment. The three biggest enemies of electronic devices are dust, heat and (ironically) electricity. Dust mostly collects in the computer cases so it's a good idea to open the case from time to time and clean it. Heat can cause overheating of devices and damage the electronics. **ABOUT THE WEBINAR**

While the modulation and demodulation techniques described in the text books is perfect, in reality they are far from perfect. Due to the tolerance of different components used in manufacturing of Radio Frequency (RF) chipsets, we notice different impairments in the transmitted and received RF signals. In this presentation, we will introduce and discuss the RF measurements for Cellular and Wireless Communication Systems.

**Biography:** RamaKrishna (RK) Yellapantula works as a Senior Member of Technical Staff at LitePoint Corporation since 2010 overseeing Wireless technology solution for his company's products. Previously, RK worked for Motorola for 13 years developing wireless devices for 2G, 3G, and 4G technologies. RK received his PhD from the University of Illinois at Chicago and an MBA from the University of Chicago. He currently holds 7 US issued patents and have numerous publications.

## INTERNET OF THINGS using TIVA C LaunchPad

### Overview:

This workshop offers a neat introduction on the “Internet of Things” and is based on the advanced development tools from Texas Instruments. The TIVA C LaunchPad and the CC3100 BoosterPack offer a complete Wi-Fi IoT solution while the integration of Energia with the IoT platform simplifies the IoT application development. So, what will you **INNOVATE**?

## DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

### A Three Day Training Program on “Advanced Development Tools Based IoT”

11<sup>th</sup> – 13<sup>th</sup> November 2019

### Report

#### 11<sup>th</sup> November 2019:

The Faculty and M.Tech VLSI Design & Embedded Systems students participated in the first day of the Three Day Training Programme on Advanced Development Tools Based IoT organized by VLSI & Embedded Systems research group, Department of ECE, Gudlavalluru Engineering College.

Mr T.S.Balaji, Embedded System Engineer, TI university program, has started the theory session on “Introduction to TIVA architecture, peripherals, memory mapping and low power modes, TCP/IP, internet terminologies CC3100 Booster-Pack overview” and lab session on “Introduction to Energia and Energia-Libraries: GPIO, ADC, PWM, Serial Communication using Energia” which includes overview of Energia Wi-Fi Libraries, Wi-Fi Connection, acquiring IP, Gateway IP, Static and Dynamic IP.

In the afternoon, he has started the another lab session on “overview of Energia Wi-Fi Libraries, Wi-Fi Connection, acquiring IP, Gateway IP, Static and Dynamic IP”.

#### 12<sup>th</sup> November 2019:

Mr T.S.Balaji, Application Engineer has started the theory session on “Client Server Paradigm Concept of Socket Programming and client server communication model”.

In the afternoon, he has started the lab session on “Configuring TIVA C LaunchPad as client and as Server, Controlling LaunchPad using Wi-Fi Lab: IO manipulation on LaunchPad using HTTP Web browser, Wi-Fi Server Monitor: Design of Simple Web Server to monitor sensors”.

#### 13<sup>th</sup> November 2019:

Mr T.S.Balaji, Application Engineer has started the lab session on “BLYNK APPLICATION: Using BLYNK Application to control your LaunchPad , IFTTT Cloud: Integrating Blynk with IFTTT and controlling launchpad using voice commands, MQTT: Overview of MQTT protocol, MQTT Programming, Programming for publisher and subscriber.”

**FDP - Sanction Letter**

To: The Drawing and Disbursing Officer,  
All India Council for Technical Education,  
Nelson Mandela Marg,  
Vasant Kunj,  
New Delhi - 110070

**Sub:** Release of a sum of Rs 440000/- for conduct of Faculty Development Programme (FDP)- reg.

Sir,

This is to convey the sanction of the Council for payment of Rs. 440000/- (Rupees Four Lakh Fourty Thousand Only) for conduct of FDP on **Soft Computing-Techniques and its Applications** to **GUDLAVALLERU ENGINEERING COLLEGE, KRISHNA, Pin No- 521356, Andhra Pradesh**, under the Scheme of Faculty Development Programme.

1. The amount of the grant shall be drawn by the Drawing and Disbursing Officer, All India Council for Technical Education on the grant-in-aid bill and shall be disbursed to and credited to the Registrar/ Director/Principal of the institute through RTGS.
2. This grant-in-aid is being released in conformity with the terms & conditions as well as norms of the scheme as already communicated, and also being communicated in this letter.
3. The sanctioned amount is debitible to the Major Head 602.6(a) Gen. of the Scheme of Faculty Development Programme and is valid for payment during the financial year 2019-20.

**The instructions/guidelines to be followed by University/Institution**

**I. Release of funds and maintenance of accounts**

- a. The Principal of the institute and the Coordinator of the program are requested to verify the correctness of the under mentioned bank account/ RTGS details submitted by them along with the Proposal, in which the grant is being released:

Institute PAN No.	Bank Name	Bank Branch Name	Bank Branch Address	Account Holder Name	Account Type	Account Number	IFSC Code
AAATA3093K	STATE BANK OF INDIA	GUDLAVALLERU	MAIN ROAD, GUDLAVALLERU - 521 356, KRISHNA DISTRICT.	PRINCIPAL, GUDLAVALLERU ENGINEERING COLLEGE	Current Account	35339035882	SBIN0001461

In case of any omission the same should be reported to AICTE immediately.

- b. The Institute shall strictly follow the provisions laid down in the scheme document and sanction order no. F. No. 34-55/76/IRFD/FDP/Policy-1/2017-18 dated 10.05.2019 issued by this office.
- c. Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- d. The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- e. The grant is intended to cover items of expenditure connected with the Faculty Development Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc).
- f. The grant is subject to the adjustment on the basis of Utilization Certificate in the prescribed proforma to be submitted

Dated: 10 May 2019

F. No. 34-55/\_\_\_\_/RIFD/FDP/Policy-1/2017-18

- f. The FDP will be organized for **2 weeks with minimum 40 participants**. The approved FDP shall be conducted within nine months from the date of release of funds.
- g. Any unavoidable circumstantial change in the Program with respect to name of Project Coordinator, Venue and date for organizing FDP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-55/\_\_\_\_/RIFD/FDP/Policy-1/2017-18 in your future correspondence.
- h. **Program Evaluation Committee (PEC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:
- Principal/Director/Registrar of the institution (Chairperson),
  - Coordinator of the program (Member Secretary),
  - Two HODs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- GOI GFR rules (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- This Sanction Order may be treated as Offer Letter for all purposes.

## ABOUT GEC

Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45 Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

### Our Philosophy

- We hold ourselves to the highest standards in all our academic endeavors.
- We adhere to high standards of integrity, honesty and ethics in our pursuits.
- We nurture creativity and talent.
- We provide an atmosphere of mutual respect and compassion.
- We serve the society.

### ABOUT CSE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

## ABOUT GEC

Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45 Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance. The U.G Engineering programmes, EEE, ME, ECE, CE, CSE & IT have been accorded Accreditation status by NBA of AICTE.

## Our Philosophy

- We hold ourselves to the highest standards in all our academic endeavors.
- We adhere to high standards of integrity, honesty and ethics in our pursuits.
- We nurture creativity and talent.
- We provide an atmosphere of mutual respect and compassion.
- We serve the society.

## ABOUT CSE DEPARTMENT

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240. The students of this department are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, CSE department regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. It is continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the department.

# 5 day Faculty Development Programme (Master Training Programme) on "Salesforce Essentials for Business Specialists"

5<sup>th</sup> – 9<sup>th</sup> August 2019

## Keynote on Salesforce Essentials for Business Specialists

### What is Salesforce?

Salesforce is a customer relationship management solution that brings companies and customers together. It is one integrated CRM platform that gives all your departments — including marketing, sales, commerce, and service — a single, shared view of every customer.

### What is CRM?

Customer relationship management (CRM) is a technology for managing all your company's relationships and interactions with customers and potential customers. The goal is simple: Improve business relationships. A CRM system helps companies stay connected to customers, streamline processes, and improve profitability.

When people talk about CRM, they are usually referring to a CRM system, a tool that helps with contact management, sales management, productivity, and more.

A CRM solution helps you focus on your organization's relationships with individual people — including customers, service users, colleagues, or suppliers — throughout your lifecycle with them, including finding new customers, winning their business, and providing support and additional services throughout the relationship.

### What is Salesforce Trailhead?

Trailhead is the fun way to learn and empowers everyone to skill up for the future. With Trailhead, Trailblazers are transforming their careers, their companies and their communities.

### The big idea behind Trailhead?

- Accessible learning — make it free and available to anyone regardless of background, age, gender, ability, learning style, or belief
- Gamified learning — make it engaging, hands-on, motivational and fun, help people to reach their learning goals.
- Short, bite-sized content — make it easy to consume wherever, whenever and remove the intimidation of learning a new skill.
- Life-long learning — make it continuous with fresh content that keeps up with the latest technology trends.

### Theme of FDP

- Completing the Business Administration Specialist Superbadge in Salesforce Trailhead.

### What You'll Be Doing to Earn This Superbadge

- Clean and import account data
- Create users and manage access
- Create email templates for new marketing needs
- Configure UI tools for a new product type
- Create reports and dashboards
- Manage and apply Chatter tools

### Concepts Tested in This Superbadge

- Data import
- User permissions and management
- Email templates
- UI configuration
- Reports and dashboards in Lightning Experience

### About GEC

Gudlavalleru Engineering College is the vision of late Sri Vallurupalli Venkata Rama Seshadri Rao, the man behind the college. It was started in the year 1998 by the AANM & VVRSR Educational Society with an intake of 180 students, 40 each in EEE, ECE and CSE branches and 60 in ME branch. Current intake of CE, EEE, ME, ECE, CSE and IT branches are 120, 120, 180, 240, 240 and 120 respectively. The college is situated at Gudlavalleru village and is surrounded by lush green fields providing serene learning environment. Gudlavalleru is 12 Km from Gudivada, 22 Km from Machilipatnam and 58 Km from Vijayawada. The nearest airport is Gannavaram (Vijayawada) 45 Km. It also offers PG programs in M.Tech, and MBA. The college is an Autonomous Institute Affiliated to JNTUK, Kakinada and approved by AICTE. The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance.

### About the Departments

The Department of Computer Science and Engineering is one of the pioneer departments of GEC with an intake of 240 in UG. The Department of Information Technology is established in the year 1999 and the present intake of the department is 120 in UG. The Department was accredited by NBA and under Tier-I in the year 2019. The students of the departments are being selected through campus recruitment in reputed IT companies. Besides the teaching learning process, both the departments regularly conducts workshops, guest lectures, group discussions and refresher courses to enhance the skills of students and teaching community. The departments are continuously striving to impart quality education and competitive spirit to students for academic excellence. The continual University ranks, high GATE scores and placement of students in various software organizations in and around the country reflect the performance of the departments.

**Proposal for a Workshop on**  
**EXPLORING CLASSROOM PROCESSES**  
(01 August 2019)

**Introduction**

The proposed one-day workshop is a follow-up to the one on 'Enhancing Pedagogical Skills through Video-mediated Reflective Microteaching' the ELT Centre organized in two phases (for three days in June-July 2018 and on one day in May 2019) for the English teachers of our college. At the workshops, each faculty member presented two microlessons, received feedback on them both from their peer observers and from their Director who played the role of supervisor, uploaded the videos of their microlessons on YouTube, and documented, in their CPD Portfolios (<https://geeltcentre.weebly.com/cpd-portfolios.html>), the lessons, their self-feedback, and the feedback from the supervisor.

The workshop on 'Exploring Classroom Processes' takes up from where the microteaching workshop left off and seeks to consolidate the gains of the latter: the workshop is so designed as to enable the participants to explore classroom processes and gain a deeper understanding of them.

**Purpose of the workshop**

Teaching is a complex activity which does not merely depend on subject-matter knowledge and delivery skills. Successful teaching also demands:

- the ability to make instructional choices drawing on complex, practically-oriented, personalized, and context-sensitive networks of knowledge, thoughts, and beliefs; and
- the ability to do reflective practice by exploring one's attitudes, beliefs, and principles as a teacher, collecting data about one's own classroom and one's role within it, and using the data as a basis for self-evaluation and self-improvement.

A pedagogical approach that is based on all these factors can ensure effective learning outcomes. Besides, it can also serve as a reliable model of continuing professional development.

At the workshop, the participants will be led to reflect on these aspects, discuss strategies for the following and arrive at an understanding which could guide them in their pedagogical explorations and enhance the value of their classroom practice:

- motivating students to become effective self-learners
- developing in them the spirit of self-inquiry
- individualizing teaching catering to students from diverse backgrounds and differing learning styles
- promoting a discovery approach to learning
- enhancing the quality of interaction and improving questioning techniques
- improving teacher decision-making
- encouraging multiple perspectives
- using technology
- doing reflective practice
- developing the art of talking

## Workshop on Exploring Classroom Processes (01 August 2019)

Twenty-four faculty members of GEC participated in the workshop on 'Exploring Classroom Processes' the ELT Centre organized on 1 August 2019 with Dr P Ramanujam, Director, as the workshop facilitator. In addition to the teachers of the Department of English, two faculty members from the Department of CSE, three from the Department of ME, and ten from the Department of BS&H attended the workshop.

The workshop on 'Exploring Classroom Processes' took up from where the microteaching workshop left off and seeks to consolidate the gains of the latter: the workshop is so designed as to enable the participants to explore classroom processes and gain a deeper understanding of them.

'Teaching,' said Dr Ramanujam at the very beginning of the workshop, 'is a complex activity which does not merely depend on subject-matter knowledge and delivery skills.' He explained that successful teaching also demands the ability to make instructional choices drawing on complex, practically-oriented, personalized, and context-sensitive networks of knowledge, thoughts, and beliefs as well as the ability to do reflective practice by exploring one's attitudes, beliefs, and principles as a teacher, collecting data about one's own classroom and one's role within it, and using the data as a basis for self-evaluation and self-improvement. He pointed out that 'a pedagogical approach that is based on all these factors can ensure effective learning outcomes. Besides, it can also serve as a reliable model of continuing professional development.'

At the workshop, the participants were led to reflect on these aspects, discuss strategies for the following and arrive at an understanding which could guide them in their pedagogical explorations and enhance the value of their classroom practice:

- motivating learners to become effective self-learners
- developing in them the spirit of self-inquiry
- individualizing teaching catering to students from diverse backgrounds and differing learning styles
- promoting a discovery approach to learning
- enhancing the quality of interaction and improving questioning techniques
- improving teacher decision-making
- encouraging multiple perspectives
- using technology
- doing reflective practice
- developing the art of talking

It was a highly interactive workshop in which each input session was followed by an individual or group activity enabling the participants to draw significant insights.

Inaugurating the workshop, Dr P Ravindra Babu, Principal, congratulated the ELT Centre on its well-designed programmes to promote the professional development of the teachers of the college and to enhance the value of classroom communication at Gudlavalleru Engineering College. 'I am closely following your activities with admiration,' he said, 'and I have even watched all the videos of the faculty members' microlessons you have uploaded on your website.'

Mr G Raja Kumar, acting HoD and Workshop Coordinator, gave a welcome talk, and Dr GVSNRV Prasad, Vice-Principal (Academic), Dr B Karuna Kumar, Vice-Principal (Admn), in their messages, said that they looked forward to the workshop adding to the value of the participants' classroom teaching.
