

SESHADRI RAO
GUDLAVALLERU ENGINEERING COLLEGE
(An Autonomous Institute with Permanent Affiliation to JNTUK, Kakinada)
Seshadri Rao Knowledge Village, Gudlavalleru-521356

Report on Student Attributes Facilitated by the Institution

This institution offers diverse programs and admits students from different backgrounds. It identifies various attributes of the admitted students, such as academic, cultural, social, economic, and health-related attributes. Throughout the duration of the programs, additional attributes are observed and addressed to ensure the overall development of the students.

- 1. Database of the Student:** Upon joining the institution, students' details related to their educational background, schooling, gender, and other relevant information are collected. The Head of the Department plays a crucial role in overseeing the overall development of the students based on this data.
- 2. Economic Attributes of the Student:** The institution caters to a significant number of local students from various socio-economic backgrounds. To support financially disadvantaged students, the institution facilitates financial assistance through government and private organizations, such as SC, ST, BC, and minority scholarships.
- 3. Social Attributes:** The institution maintains a pleasant and inclusive environment, ensuring equal treatment and opportunities for all students. The principle of equal justice is strictly followed, and Committees like the Code of Conduct Committee and Anti-Ragging Committee are established to address any issues as needed.
- 4. Academic Attribute:** The institution employs a strategic mechanism to identify both slow learners and advanced learners. Remedial classes and additional support are provided to help slow learners improve their academic performance, while advanced learners are encouraged to participate in seminars, workshops, hackathons, and competitive exams (GRE/GATE/TOFEL etc) to further excel.

- 5. Gender Attributes:** The institution is committed to creating a safe and supportive environment for all students, with a particular focus on women's welfare. Facilities such as Waiting Halls in every department and separate hostels for girls are provided. Physical Directors and Wardens are assigned to girls' hostels to ensure their well-being and address any concerns promptly.

- 6. Personal and Performance Attributes:** The Training and Placement Cell plays an integral role in training students in personality development and technical skills right from their first year. Special hours are added to the academic plan throughout the four-year syllabus to accommodate this training due to the institution's autonomous status.

- 7. Health and Fitness Attributes:** To promote students' holistic development, the institution offers a Gymnasium to improve their physical fitness. The NSS unit creates awareness about social service and inculcates a sense of responsibility among the students. The presence of a residential doctor and nurses ensures timely handling of health-related issues.

- 8. Linguistic Attributes:** Students from Telugu medium backgrounds may face challenges in understanding subjects taught in English. Therefore, special attention is given to such students to develop their English linguistic skills, both spoken and written, to ensure a smoother academic experience.

SeshadriRao Gudlavalleru Engineering College demonstrates a strong commitment to developing its students in all dimensions. By identifying and addressing various attributes, such as academic excellence, cultural diversity, social equality, economic support, health and fitness, gender inclusivity, linguistic proficiency, and personal development, the institution fosters a well-rounded and enriching educational experience. The efforts made by the institution to facilitate these attributes contribute significantly to the students' overall growth and future success.
